INTRODUCTION

The goal of this manual is to provide Practicum / Internship students and site supervisors with relevant information about the Counseling Programs at Delta State University and to clarify the policies, procedures, requirements, and expectations of the field experience. The term field experience(s) will be used interchangeably with Practicum and/or Internship throughout the manual when the context applies to both experiences.

The Counselor Education Program at Delta State University Program Overview

DSU Counselor Education Mission Statement

The faculty and staff of the Delta State University Counselor Education Program through teaching, training, supervision, and experiential activity develop ethical, competent, and culturally sensitive counselors who are prepared to work in school or community settings. Program faculty seek to strengthen the profession by modeling for students the professional expectation of continued growth and learning, interpersonal awareness, and practical application of sound principles and practices in their work as professional counselors. (Adopted by Counselor Education faculty: 1/21/04, Reviewed: Fall 2018)

Housed on the third floor of Ewing Hall on the Delta State University's campus in Cleveland, Mississippi, the Division of Counselor Education and Psychology in the College of Education and Human Sciences provides a Master's of Education (MEd) degree in Counseling. There are two tracks available in the 60-hour Master's degree – Clinical Mental Health Counseling and School Counseling. Both specialties are accredited by the Council for Accreditation of Counseling and Related Education Programs (CACREP). The Counselor Education Program also offers an Educational Specialist (EdS) degree in School Counseling.

The Clinical Mental Health Counseling track prepares students for employment in a community or agency setting. This program provides the students with the academic requirements for licensure as a Provisional Licensed Professional Counselor (PLPC) in the State of Mississippi.

The School Counseling program prepares students for employment in a school system. This program is designed to provide the student with the academic preparation necessary to receive the AA certification in School Counseling through the Mississippi State Department of Education.

All faculty members in the program hold doctoral degrees and are active in professional organizations. A small student-professor ratio encourages close interaction between faculty and students. Faculty members are dedicated to maintaining a psychologically safe and secure atmosphere; wherein all students can experience personal growth and development, intellectual stimulation, and development of professional knowledge and skills.

Training Counselors

The Educational Process in Training Counselors

Program faculty train students within the following eight CACREP (2016) core curriculum areas:

CACREP Competency Area
1. Professional Identity
2. Social and Cultural Diversity
3. Human Growth and Development
4. Career Development
5. Helping Relationships
6. Group Work
7. Assessment
8. Research and Program Evaluation

In addition to the core CACREP Competency Areas, students choose to pursue either a School Counseling track or Clinical Mental Health Counseling track. With additional coursework and an additional internship, students may choose to matriculate in both tracks.

Program Electives. Students may choose electives from the courses listed below or select from those courses on the other program track.

CED 400 INTRODUCTION TO THE COUNSELING PROFESSION. Provides an overview of the field of counseling, specializations, theoretical approaches, techniques, and ethics. Study will incorporate facilitative skills and interpersonal learning. It will be of interest to those considering a career in counseling as well as to those in health care, human services, criminal justice, pastoral care, education, human resources, and anyone interested in improving their interpersonal relationships. 3. (Not available for graduate credit).

CED 431/631 BEREAVEMENT IN CHILDREN AND ADOLESCENTS. This course examines the understanding and emotional response of death and bereavement by children and adolescents across multiple situations. Emphasis will include bereavement within the family and bereavement within the school and world. Additional emphasis will include assessment and interventions with bereaved children. 3.

CED 704 PSYCHOPHARMACOLOGY An overview of the psychopharmacological medications as they relate to mental health practice. The basic classification, indications, contraindications, and side-effects of psychotropic drugs will be provided. The goal of this course is to introduce students to the basic terminology as it relates to clinical mental health counseling and pharmacological treatment. 3

CED 713 SEXUALITY ISSUES IN COUNSELING. Examines sexual development across the lifespan including physiological, psychological and sociocultural variables associated with various stages of development. Special emphasis will be placed on counseling issues related to sex and sexuality including sexual abuse, sexual development, sexual dysfunction, sexual orientation and sexual addictions. 3

CED 714 SUBSTANCE AND PROCESS ADDICTION COUNSELING. Study and application of theory and techniques of counseling to include assessment and treatment of substance use disorders and process addiction from an individual and systemic perspective. 3

CED 718 COUNSELING AND SPIRITUALITY. This course examines the intersection and interaction of spirituality, religiosity, and counseling focusing on the impact of this intersection on the counseling relationship. Using the latest theories and research, students will examine developmental models of spirituality and how to address spiritual and religious issues with clients. Prerequisite: CED 600. 3

CED 722 PLAY THERAPY. Study of play therapy as a counseling intervention for children in schools and community settings. Covers the history and theories of play therapy, play as it relates to child development, and techniques of play therapy. Prerequisites: CED 604. Lab fee. 3

CED 723 ADVANCED PLAY THERAPY. This course will provide an overview and exploration of complex play therapy subjects, skills, and challenges beyond the basics of play therapy. Prerequisite: CED 722. 3

CED 770 SPECIAL TOPICS IN COUNSELING. Research and applied analysis of special topics related to counseling. 1-6 (May be repeated for a maximum of 6 hours credit)

The Experiential Process in Training Counselors

An *essential* aspect of the Counselor Education program is the field experience students participate in as part of their professional development. Without the participation and support of site supervisors, students would have a very limited perspective of what it means to be a counselor. Academic training combined with field experience makes for a well-rounded professional. Program faculty members work closely with site supervisors throughout the practicum and internship experience to ensure that students are progressing adequately and appropriately in their professional development.

Use of Technology in the Field Experiences

During your pre-practicum experience you will be introduced to Supervision Assist, an online, HIPAA compliant platform where you will keep notes, log hours, upload videos, and use to contact your site supervisor. All documentation explained below will be read and electronically signed or filled out in Supervision Assist.

Field Experiences Overview

Field experiences are the culmination of the educational process. The field experience is a time when advanced students in the program apply their knowledge and skills in clinical and school counseling venues. *On-site supervisors* are volunteer experienced counselors who have agreed to host students at their site for practicum and internship experiences. The instructor for the practicum or internship class is the *university supervisor*. This manual contains the necessary paperwork that details the expectations of the student (trainee), the site supervisor, and the university supervisor. Additionally, the counselor education program coordinator remains as general coordinator for all practicum and internship agreements and functions.

Conditions that apply to all levels of field experiences:

- Field Experiences courses are cumulative in nature. Students are required to pass each field experience course they attempt with a grade of “B” or better. If a student does not demonstrate competency, they do not pass on to the next field experience. Students cannot graduate without the satisfactory completion of all four field experiences.
- All students are **required** to have liability insurance prior to beginning the second field experience, CED 604 Pre-practicum. Students may not work with clients without providing proof of liability insurance. Insurance is available at discounted student rates through many professional counseling organizations.

- Many field placement sites require background checks, drug screening, client de-escalation training, and agency orientation. Therefore, it is imperative that students be proactive in their planning of ‘when’ they will complete field experience and where it will be completed.

Four Developmental Field Experiences

Each student will participate in 4 Developmental ‘Steps’/Field Experiences

Counseling Skills (CED 630): Work with your classmates as clients. Observe sessions in the counseling lab.

Pre-Practicum (CED 604): Work in the counseling lab. Complete a minimum of 15 hours with 5 non-help seeking volunteer clients (3 sessions each). Complete recorded video reviews with faculty. Observe sessions in the counseling lab.

Practicum (CED 609): 100 hours required at a field placement site.

Internship CED 610 (CMHC) or CED 619 (School): 600 hours required at a field placement site.

Field Placement Goals

The goal of a field placement experience is to have an opportunity to practice and expand upon counseling skills. Supervisors on-site and at the University will work collaboratively to monitor counseling work, provide appropriate feedback, and encourage ongoing professional development and growth.

Students in field placements will:

- Exhibit professionalism in all interactions, including dress, emails, conversation, an meeting professional expectations and obligations;
- Engage in continuing professional development and education;
- Develop a collegial working relationship with colleagues and supervisors;
- Maintain membership in a professional state or national counseling organization;
- Exhibit the ability and willingness to ‘hear’ and incorporate feedback and supervision;
- Demonstrate appropriate general counseling skills while developing new skills including those skills germane to the specific site; and,
- Exhibit enthusiasm for and a commitment to the profession of counseling.

Remediation During Field Placement

If at any point a student displays unethical or unprofessional behaviors, whether to faculty, staff, a supervisor, or on their site, the faculty has discretion to remediate the student an appropriate course of action. Remediation may include (but is not limited to):

1. Requiring the student to sit out of the program for a specified period of time.
2. Requiring the student to repeat field experience courses.
3. Advise the student out of the program.

Field Placement Eligibility

Once students have successfully completed CED 604 and have provided evidence of six (6) hours of personal counseling, they are considered eligible for field experience.

Field Placement Requirements

All counseling students participate in two field placement experiences - practicum and internship. Students accumulate a minimum of 100 service hours of supervised counseling experience in their practicum experience and 600 service hours of supervised counseling experience in their internship experiences. Clinical mental health counseling students must work with a site supervisor who is independently licensed. This includes individuals who are LPC's, LCSW's, or licensed psychologists. School counseling students must work with a site supervisor who has a AA or AAA teaching license with a guidance endorsement.

Upon successful completion of Practicum, students are eligible to register for their final field experience in a clinical (Clinical Mental Health Counseling track) or a K-12 school (School Counseling track) setting. The breakdown of minimum required hours for each of the field experience settings, including specific course designations are as follows:

Course	Minimum Hours of Direct Client Contact	Total Hours	Minimum Individual or Triadic Supervision Hours by Site Supervisor	Minimum Group Supervision Hours by University Supervisor
CED 609: Practicum	40	100	1 hour per week	1.5 hours per week
CED 610: Clinical Internship	240	600	1 hour per week	1.5 hours per week
CED 619: School Internship	240	600	1 hour per week	1.5 hours per week

Important Notes Regarding Accrual of Hours.

- The 600 hours of Internship may be completed in one or two semesters. For students who wish to complete their Internship in one semester the following conditions apply:
 - You cannot work a full-time job during your Internship;
 - You must schedule a meeting with your advisor to get approval;
 - You must get approval from your site supervisor;
 - You must complete and submit an Internship Plan to the Program Coordinator and the University Supervisor prior to the beginning of the Internship.
- Students must lead or co-lead a group at least one time as part of their field experience.
- Students may NOT carry any hours from Practicum into Internship. You may work at your practicum site more than 100 hours; however, the hours will not count toward internship.
- Students are required to provide a minimum of two video or audio recordings of live sessions each semester they are enrolled in field experience class. If this is not an option on their site, it is up to the student to coordinate with the On-Site Supervisor to conduct and document live

observation supervision, or to set up a live stream of a session with their university supervisor via Supervision Assist.

- Please see Hours Distribution form for more information on Direct v. Indirect Hours

Internship Site Criteria: Clinical Mental Health Counseling

In order to maintain CACREP accreditation standard compliance and to ensure our counselors-in-training receive the highest quality internship and educational experiences, please follow the below listed criteria when exploring field experience sites. Discuss the following criteria with potential site supervisors to ensure compliance prior to signing site agreements. Field experience sites must meet CACREP standards, as well as receive approval from the program coordinator and the university supervisor. Should a field experience site NOT meet these criteria, a request must be made in writing to the program coordinator and the faculty member instructing CED 610: Clinical Mental Health Internship.

All requests and site agreements must be submitted the semester PRIOR to the scheduled start of field experience and approval granted by full program faculty.

Site Supervisor Requirements (CACREP [2016] Section 3, P)

1. Have a Master's degree, preferably in counseling, or a related profession;
2. Have either their LPC, LCSW, or be a licensed psychologist.
3. Have a minimum of two years of pertinent professional counseling experience in the specialty area in which the student is enrolled;
4. Have knowledge of the program's expectations, requirements, and evaluation procedures for students.
5. Have relevant training in counseling supervision
6. Supervisors must submit a copy of their current resume/vitae and a copy of their current state license and/or certifications before beginning supervisory duties. **Hours may not be accrued before these documents are obtained.**

Clinical Internship Requirements (CACREP [2016] Standard III, J-M)

1. 600 clock hours in a Clinical Mental Health placement.
2. 240 clock hours of direct service.
3. 1 hour of weekly individual or triadic on-site supervision.
4. Opportunity to become familiar with a variety of professional activities and resources, in addition to direct services (e.g., record keeping, assessment instruments, supervision, information and referral, in-service and staff meetings).
5. An average of 1 ½ hours per week of group supervision performed by a program faculty member (CED 610).

Internship Site Criteria: School Counseling

Students in the school-Counseling track are required to do all 600 hours of Internship in a school setting under the supervision of a certified school counselor. Internship may be completed in one or two semesters. Internship students who are teachers or working in other capacities in schools may not do their internship experience in one semester or in their normal roles, they must fill counseling

duties during the hours being counted toward internship. This internship is built upon the four quadrants of the ASCA National Model (See American School Counselor Association @ www.schoolcounselor.org.) and requires that students are able to demonstrate the ability to execute all of the roles and functions of a professional school counselor in a school setting under the supervision of a licensed school counselor who has a minimum of two years' experience as a certified school counselor in a school setting (K-12).

The intern will complete a minimum of 600 hours, with 240 hours of direct service to students (implementing developmental classroom counseling activities linked to the academic curriculum), running groups to enhance resilience and prevent risk factors pertaining to learning, career, and social-emotional development, and providing direct service (student academic-career planning, and responsive services).

Site Supervisor Requirements (CACREP [2016] Section 3, P)

1. Have a Master's degree, preferably in counseling, or a related profession;
2. Have a AA or AAA teaching license with a guidance endorsement.
3. Have a minimum of two years of pertinent professional experience in the specialty area in which the student is enrolled;
4. Have knowledge of the program's expectations, requirements, and evaluation procedures for students;
5. Have relevant training in counseling supervision;
6. Supervisors must submit a copy of their current resume/vitae and a copy of their current state license before beginning supervisory duties. **Hours may not be accrued before these documents are obtained.**

School Internship Requirements (CACREP [2016] Standard 3, J-M)

- 600 clock hours in a K-12 school placement
- 240 clock hours of direct service.
- 1 hour of weekly individual or triadic on-site supervision.
- Opportunity to become familiar with a variety of professional activities and resources, in addition to direct services (e.g., record keeping, assessment instruments, supervision, information and referral, in-service and staff meetings).
- An average of 1 ½ hours per week of group supervision performed by a program faculty member (CED 619).

Beginning Field Placement

Practicum placement and hours may not start until after the conclusion of the Pre-Practicum semester. Internship placement and hours may not begin until after the conclusion of the Practicum semester. If your site requires you to begin before courses begin for the semester, please speak to your track coordinator.

Field Placement During Semester Breaks

Students maintaining a field placement site from one semester to another may continue to work with clients/students at the request of the host field placement site. They may do so only under the

supervision of the field placement site supervisor. Hours accrued during this time will NOT count toward their internship.

Professional Liability Insurance Requirement

Professional liability insurance is required for participation in pre-practicum, practicum, and internship. Clinical supervisors for field placements, including faculty, will require proof of insurance coverage. In arranging for field placements, students should determine from their clinical supervisor the agency's policy regarding professional liability insurance. You must upload your professional liability insurance to Supervision Assist prior to accumulating hours in your field experience courses.

Distance Field Experience

Counseling interns may complete their internships at a distance site. A distance site is defined as any site located a minimum of 100 miles away from the Delta State University campus. To establish a distance site internship, the student must make preliminary contact with a qualifying supervisor and then obtain approval from the program faculty members. Approvals must be collected in the following order: (1) the university supervisor; (2) the student's advisor; and, (3) the program coordinator. If completing a field experience at a distance site, counselors in training will have the option of 1) meeting face-to-face with their classmates during regularly scheduled field experience meetings or 2) meeting via a videoconferencing program with their classmates during regularly scheduled field experience meetings. If choosing to meet via a video conferencing program, it is the responsibility of the counselor in training to provide the necessary technology and quiet, confidential space during the meeting. You may not be driving during a class meeting if you are attending class with videoconferencing technology.

Approval must be obtained BEFORE accepting a distance site.

Roles and Responsibilities

On-Site Supervisor

Overview. The on-site supervisor will serve as consultant and supervisor for the Practicum and Internship student. Regular, face-to-face planning, evaluation, and/or consultation sessions between the on-site supervisor and the Internship student are essential and required (a minimum of 1 hour per week is required). Additionally, the on-site supervisor will be required to participate in the final evaluation of the Internship student.

The clinical supervision for the Practicum and Internship student is conducted collaboratively by the university and the on-site supervisor. This process requires the Practicum and Internship student regularly present samples of their counseling for review in the form of an audio or videotape of a counseling session. The tapes submitted are reviewed by the university and site supervisor only for the purpose of assessing the student's counseling skill level. Problems concerning the taping of counseling sessions should be addressed to the university supervisor prior to entering into the practicum/internship agreement.

Training Opportunities. Training opportunities are made available to our site supervisors through continuing education events sponsored by the Counselor Education Program. Each spring semester, on the second Wednesday in April, the F.E. Woodall Annual Spring Conference for the Helping Professions is held in Ewing Hall on the Delta State University campus. Current and past site supervisors are invited to attend the conference and current supervisors have the conference fee waived. The conference provides an opportunity for counseling students and professionals to make professional presentations on a wide range of important topics. Additional opportunities for training in supervision and ethics are offered throughout the year.

Opportunities for continuing education are also offered through the regular courses taught by program faculty. Program faculty also frequently provide in-service training for site staff on important topics such as crisis intervention, working with special populations, program development and much more.

How Site Supervisors Assist in Training Counselors. University supervisors will visit site supervisors at least once a semester to evaluate the progress of practicum students and interns' during the field experience. As requested by the site supervisor, the university supervisor will visit more frequently and/or can establish phone or email consults as necessary. The objectives during these visits are

1. to assess practicum student and intern progress;
2. to be introduced into the working environment of the practicum student/intern and learn more about the field experience site;
3. to act as a support for the practicum student/intern and the site supervisor; and
4. to update the site supervisor on essential aspects of the counseling program and upcoming events.

Responsibilities of the On-Site Supervisor and Site.

1. Complete and sign the Practicum/Internship Agreement between the University and the Site before the start of the Field Experience in Supervision Assist.
2. Provide supervision for the Practicum/Internship student for a minimum of 1 hour per week.
3. Provide an opportunity to have counseling sessions/experiences video-recorded in Supervision Assist as required by the Counselor Education program at Delta State University. If the site is unable to accommodate this requirement, the site will arrange for one live supervision session to be completed by the University supervisor at the Practicum/Internship Site.
4. Share in the evaluation of the Practicum/Internship student's professional growth by completing evaluation forms at the end of each semester of Practicum and/or Internship by the deadline requested by the University Supervisor.

University Supervisor

Responsibilities of the University Supervisor.

1. Provide supervision and consultation for the Practicum/Internship student and meet in group seminar to average 1 ½ hours per week;

2. On request, provide the site school and/or agency with consultation services from the Counselor Education faculty;
3. Share in the evaluation of the Practicum/Internship student's professional growth.

Graduate Counseling Practicum/Intern Students

Prior to placement in field experience (practicum/internship), the student explores choices in placement locations. School counselors must complete their School Internship field placements in a K-12 school setting in an approved school district.

Placement in field-based experiences is usually made on the basis of available locations and the agreement of the student and faculty advisor. *Some sites may not be allowable sites to complete the field experience.* While some paid clinical and school internships are occasionally available, *students are encouraged to select sites based upon the quality of the internship experience rather than on monetary reimbursement.*

While On-Site, the Practicum and Internship student shall be responsible for:

1. Functioning as a full-time staff member for the required minimum contact hours and participating in all various aspects of the program of services;
2. Participating in staff meetings, workshops, and in-service meetings;
3. Leading or co-leading counseling groups;
4. Providing counseling to individual clients;
5. Participating in and possibly conducting various community and/or educational programs;
6. Assisting in the design, data collection, and evaluation of research in areas of concern to the agency;
7. Maintaining a daily log of activities for evaluation by supervisors;
8. Keeping accurate case notes concerning on-going individual and group clients;
9. Organizing activities (groups or individual counseling sessions) for observation by the University supervisor, and on request, for the on-site supervisor;
10. Maintaining client files and related paperwork of acceptable quality in a timely manner.
11. Meet group seminar to average 1 ½ hours per week.
12. Providing taped counseling sessions as assigned by the university and/or on-site supervisor.
13. Have valid liability insurance. Proof must be provided to the University and/or site supervisor by end of first week of the semester.

All counseling Pre-Practicum, Practicum, and Internship students are required to carry professional liability insurance for participation in field placements.

Getting a Field Experience Site

Obtaining a field experience placement site (i.e. Practicum and/or Internship site) is an important step in your educational process. It is as important as locating a job site. You must start early, you must plan, and you want to choose a site that will help further your education. Therefore, there are several steps and requirements that must be met. Remember, this experience is not a ‘hoop’ for you to jump through to get a degree – it is a training experience that will prepare you for working with your future clients.

Steps to Choosing a Practicum/Internship Site

1. The semester before you intend to begin Practicum/Internship, consider your potential Practicum/Internship sites (check out the site directory in Supervision Assist to get you started).
2. Choose your top three (3) choices for a Practicum/Internship Site.
3. Discuss potential site choices with your faculty advisor during your advising meeting. Discuss your sites. Choose the one most appropriate to suit your needs and attain approval from your Faculty Advisor BEFORE approaching your potential field experience site.
4. Prepare for this meeting by gathering information about each site, including why you would choose a particular site, your professional goals, etc. Do not show up to this meeting with no sites chosen, no information for the sites, etc. You will be asked to come back later.
5. Upon receiving approval from your Faculty Advisor, contact your potential site supervisor to arrange a formal interview. The student should request to speak to the Human Resources Director, Clinical Supervisor, or the individual in charge of interns for the school/agency.
6. During the interview, in which the student is expected to present themselves as a professional, if agreeable to both the site supervisor and the student, the student complete a “Practicum/Internship Application” and will ask the site supervisor to fill out an agreement form between the site supervisor (as the representative of the organization or agency) and the Counselor Education program as a formal contract for the internship. Please note: Some sites may not make an immediate decision/offer of placement. This is normal and to be expected.
7. The advisor will tentatively approve students for field experience enrollment, and will then submit the application and site agreements to the professor teaching the field experience.
8. Provide proof of liability insurance to the Practicum/Internship in Supervision Assist by the end of the first week of the semester in which the field experience is being completed. It is the responsibility of the student to provide this documentation.

NOTE: Each student, before beginning Practicum/Internship must complete the following forms in Supervision Assist:

- Return a Site Agreement/Site Survey
- Practicum/Internship Application
- Obtain Liability Insurance

Note: **Important Dates**

- Meet with Faculty Advisor for Approval of Site: **during advising**

Required Field Experience Agreements and When are they Due?

Note: No agreements, no passing the class. You will not be given credit until all required agreements are completed and submitted. All agreements are electronically signed in Supervision Assist.

Due Before Class Starts

1. Site Supervisor Resume/
2. Site Supervisor License/Credentials
3. Site Agreement

Due the Day Class Starts (Or Before)

1. Student Information Form
2. Confidentiality Agreement
3. Ethics Agreement
4. Consent for Audio/ Visual Recording (Blank Copy, Supervisor Signature. Completed Copy when Sessions Begin)
OR
5. Live Observation Summary Sheet
6. Verification of Liability Insurance (Documentation Required)
7. Distance Field Experience Form (if site is more than 100 miles from campus and you are requesting to utilize videoconferencing)

Due at the End of the Semester

PRACTICUM AGREEMENT

Outlined below are the terms of the agreement, which will exist between the Counselor Education Program (Clinical/School Counseling tracks), Division of Counselor Education and Psychology, Delta State University and _____ (Agency Name). Terms of the agreement are subject to amendment and/or modification if all parties involved are in accord.

This agreement will exist between, _____ (Practicum student);

_____ (On-Site Supervisor);

and _____ (University Supervisor).

Responsibilities of the Practicum Student

The Practicum student shall be responsible for:

1. Functioning as a part-time staff member (for a minimum of 100 clock hours, 40 of which must be spent in direct service to clients), participating in all various aspects of the program of services.
2. Participating in staff meetings, workshops, and in-service meetings;
3. Leading or co-leading counseling groups;
4. Providing counseling to individual clients;
5. Participating in and possibly conducting various community and/or educational programs;
6. Assisting in the design, data collection, and evaluation of research in areas of concern to the agency;
7. Maintaining an activity log in Supervision Assist for evaluation by supervisors;
8. Keeping accurate case notes concerning on-going individual and group clients;
9. Organizing activities (groups or individual counseling sessions) for observation by the University supervisor, and on request, for the on-site supervisor;
10. Maintaining client files and related paperwork of acceptable quality in a timely manner.
11. Meet group seminar to average 1 ½ hours per week.
12. Providing taped/streamed counseling sessions as assigned by the university and/or on-site supervisor via Supervision Assist.
13. Have valid liability insurance. Proof must be uploaded to Supervision Assist by end of first week of the semester.

Responsibilities of the On-site Supervisor

The on-site supervisor will serve as consultant and supervisor for the Practicum and Internship student. Regular, face-to-face planning, evaluation, and/or consultation sessions between the on-site supervisor and the Internship student are essential and required (a minimum of 1 hour per week is required). Additionally, the on-site supervisor will be required to participate in the final evaluation of the Internship student.

The clinical supervision for the Practicum and Internship student is conducted collaboratively by the university and the on-site supervisor. This process requires the Practicum and Internship student regularly present samples of their counseling for review in the form of an audio or videotape of a counseling session. The recordings submitted are reviewed by the university and site supervisor only for the purpose of assessing the student's counseling skill level. Problems concerning the

recording or streaming of counseling sessions should be addressed to the university supervisor prior to entering into the practicum/internship agreement.

Responsibilities of the On-Site Supervisor and Site.

1. Complete and sign the Practicum Agreement between the University and the Site before the start of the Field Experience in Supervision Assist.
2. Provide proof of relevant licensure in Supervision Assist.
3. Provide supervision for the Practicum student for a minimum of 1 hour per week.
4. Provide an opportunity to have counseling sessions/experiences video-taped or live-streamed as required by the Counselor Education program at Delta State University. If the site is unable to accommodate this requirement, the site will arrange for one live supervision session to be completed by the On-Site supervisor at the Practicum Site.
5. Share in the evaluation of the Practicum student's professional growth by completing evaluation forms at the end of each semester of Practicum and/or Internship by the deadline requested by the University Supervisor.

Responsibilities of the University Supervisor

The university supervisor will:

1. Provide supervision and consultation for the practicum student and meet in group supervision to average 1 ½ hours per week;
2. On request, provide the cooperating agency with consultation services from the Counselor Education faculty;
3. Share in the evaluation of the practicum student’s professional growth.

Internship Services Distribution

Direct Services

Direct hours are comprised of time spent in direct contact with clients in a counseling situation. This includes family sessions, group sessions, individual sessions, etc. Specific examples of direct hours include face-to-face:

- Case consultation with a client or approved individuals (ie. for whom a release form has been signed) when related to the review of or progress towards goal achievement
- Testing/Assessment – suicide assessment, career testing, personality or other risk assessments as applicable
- Group Counseling – counseling with two or more clients with specific goals or a mutual direction
- Marriage, Family, Couples Counseling
- Individual Counseling
- Intake/Interviews with clients – intake interview, psychosocial history, etc. with client and/or family
- Career Counseling
- Co-counseling
- Crisis/Hotline Counseling
- Face-to-face student scheduling
- Classroom guidance/psychoeducation
- Other activities as approved by your University supervisor prior to the activity taking place

Indirect Services

Indirect hours consist of time spent preparing for or processing after delivery of clinical services, as well as supervision.

Indirect contact includes:

- Case Notes – Preparation of case notes for client files
- Staffing – Staffing cases with other staff at your on-site facility
- Session Preparation – Session preparation may include creating activities for clients, locating credible resources, preparing homework assignments, etc.
- Workshops/trainings related to clinical work
- Phone contact with a client or related to client services
- On the job training
- Research and readings as it relates to internship duties
- On-site, individual, and group supervision
- Presentations
- Travel from one site location to another (travel between your site and home is not considered indirect hours)
- Other activities related to client services that are relevant to internship duties
- Other activities as approved by your University supervisor prior to the activity taking place
- Shadowing and Observing

Remember: Only time that is spent engaging in work typical of a professional counselor while ‘on the clock’ is considered allowable. As professionals, you are expected to be honest and uphold a strong philosophy of integrity when including your hours of service delivery.

Non-Allowable Contact

While potentially related to your educational experience and preparation as a counselor, these activities are not directly related to your practicum and/or internship duties, and therefore do not count as direct or indirect services, nor towards your 100/600 required hours.

- Drive-by supervision – a few minutes ‘here and there’ of contact with a supervisor
- Travel to and from your site
- Time spent engaged in class work
- Time spent in any class

Live Observation Summary Sheet

This form is designed to assist you with processing the information you receive from your Site Supervisor or University Supervisor after a live observation of your clinical work. Additionally, if you are unable to utilize audio/video recording on-site, this observation/sheet will take the place of the audio/video recording. The information received from the live observation should be used to assist with the development of your clinical skills as well as your professional development (e.g. goals and objectives identified in regard to your Internship experience). The completed form should be submitted to your Delta State University Supervisor.

Note: Be sure to protect the identity of your client(s) when filling out all sections of this form.

Grading Rubric for Case Studies

Criteria	Description	Assessment
Demographics	Client: (“name”) Session #: Age: Anticipated Sessions: Gender: Race:	/5pts
Presenting Problem	Describe why the client is seeking or referred for counseling. Briefly describe your initial assessment including client presentation (affect, mood, level of functioning, etc.), complaints, and clinical impressions. This should include symptoms (what they are, frequency, and duration). Is the client currently taking medication; if so, what is it and what is it for? Be sure and address level of intellectual functioning or alcohol and drug history if applicable.	/10pts
Family History Social & Cultural Contexts	Describe family of origin and family of creation (where appropriate) including current living situation. Describe client resources and support systems. Explore the social and cultural contexts that are considerations and/or potential factors in the individual's presenting condition.	/10pts
Assessment Instruments	Include a list (3 minimum) of assessment instruments that you would like to use with this client or the clients family. Remember you can use the Mental Measurements Yearbook to help you decide on assessments. Describe why you might consider this assessment, are there any cultural considerations around this assessment, and what impressions that you may confirm or discard as a result of using the assessment. If you have an opportunity to use an assessment with the permission and supervision of your site supervisor, include the assessment and your interpretation of it. Remember that you cannot ask a client to do an assessment without giving the client feedback.	/10pts
Diagnostic Impression	What is this client’s diagnosis or what is your impression of a diagnosis that is appropriate for this client? Why is this diagnosis appropriate? If more than one diagnosis should be ruled in or out explain what they are and how you will know if the criteria are met.	/10pts
Clinical Focus	Describe your focus of clinical attention, what will you treat first, including specific interventions and rationale. Will this client be on any psychotropic medications? If so, what are they? What are your treatment goals? Use your theoretical orientation to case conceptualize. How do the needs of this client fit your theoretical orientation? Will you need to use a different theoretical approach?	/10pts
Professional Consultation	Discuss this case with at least TWO professionals outside of your faculty and on-site supervisor. Describe who you consulted with and how these consults have affected your treatment plan. What were the suggestions and why are you choosing to implement them?	/10pts

Research	Use at least one counseling research article from the last 10 years to support and/or enhance your comprehension, conceptualization, and/or treatment. You are demonstrating your ability to use counseling research to enhance your practice. You may select research that is out of your current scope of practice (ex. specialization methods) and exhibit your aspirational training and supervision goals. You may use more than one article to help build your competence in working with this client. You may use a book as a second reference. Use an in text citation and include a References page at the end of the document.	/10pts
Anticipated Results	Describe what you <i>reasonably</i> expect from your treatment interventions. What are you looking for to know if this client is improving?	/5pts
Formatting	Followed formatting directions and had a minimum of a paragraph (4-6 sentences) per section. Added a References page.	/5pts
Class Presentation	Display readiness and consideration of the material (not reading from the paper). Printed a copy for each classmate and the professor. Openly receive new perspectives from classmates.	/15pts

Instructions

This form is designed to help you evaluate your own performance as a practicum or internship student. It is essentially identical to the one given to your supervisor and consists of two sections. The first section is an assessment of your professional performance. The second section looks at specific skills and practices required by graduates of all Council for Accreditation of Counseling and Related Educational Programs (CACREP) accredited programs. All items are rated on a scale of 1-4, and some provide specific examples for guidance. Please note that while practicum students may not have an opportunity to demonstrate all the criteria listed, interns should. This form will become part of your record for this course and may be considered when assigning grades. Additional space is provided for specific comments. Thank you for completing this form.

INTERN EVALUATION OF INTERNSHIP SITE AND SITE SUPERVISOR

(Adapted from Baird, B.N. (2002). The internship, practicum, and field placement handbook: A guide for the helping professions. (3rd ed.). Upper Saddle River, New Jersey: Prentice Hall.)

Name	Date of Evaluation	CED: _____ Field Experience Class
Semester/Year	Faculty Supervisor	
Internship Site	Site Supervisor	

This form is designed to give interns the opportunity to provide feedback about the supervision they receive during their internship. This information will be useful in discussions with supervisors and will help your faculty instructor evaluate the learning opportunities at various internship sites.

INSTRUCTIONS

Each item that follows asks you to indicate the frequency with which activities of supervision occurred, your satisfaction with the activities, or both frequency and satisfaction. Please rate frequency based on percentage from 0 to 100 with 0 meaning that something never happened, and 100 indicating that the activity happened each time there was an opportunity as described in the item. Please rate satisfaction on a rating scale from 0 to 100 with 0 indicating that you were completely dissatisfied and 100 signifying that you were completely satisfied. Frequency and satisfaction ratings need not be the same. For example, if you met for fewer than the agreed upon times for supervision, you might rate the frequency at 75 percent. Your satisfaction might be anywhere from 0 to 100 depending on what you felt about this issue. Please try to evaluate each item separately from other items. Space is provided at the end for general comments.

PRELIMINARY REMARKS

If you think it will be useful to preface your responses with any introductory comments, please feel free to do so here. Additional space is available at the end of this form for general evaluative comments.

Delta State University Counseling Program SUPERVISOR EVALUATION OF COUNSELING INTERN

Name	Date of Evaluation	CED: _____ Field Experience Class
Semester/Year	Faculty Supervisor	
Internship Site	Site Supervisor	

Instructions

This form is designed to help supervisors provide feedback about the performance of practicum and internship students. The evaluation consists of two sections. The first section is an assessment of the student’s professional performance. The second section looks at specific skills and practices required by graduates of all Council for Accreditation of Counseling and Related Educational Programs (CACREP) accredited programs. All items are rated on a scale of 1-4, and some provide specific examples for guidance. Please note that while practicum students may not have an opportunity to demonstrate all the criteria listed, interns should. This form will become part of the student’s record for this course and may be considered when assigning grades. Additional space is provided for specific comments. Thank you for your work with our student this semester.

Confidentiality Agreement

Students are expected to maintain confidentiality of all information related to clients, as well as all information related to cases presented in practicum/internship classes. This is the student's responsibility regardless of procedures in place at the site. Students are responsible to know and follow legal and ethical confidentiality practices of the field placement site, as well as applicable codes of ethics. Knowledge of HIPAA and/or FERPA is expected. In addition, students shall not use any client identifying information in any practicum/internship documentation, including tapes. Students shall secure tapes and other client information that may be necessary for class in a way that is secure, legal, and ethical. Tapes, transcripts, case studies, or other client information used for class shall be destroyed in an appropriate manner (i.e., shredding) as soon as they have been evaluated unless it is the policy of the site to maintain and secure all tapes. Any questions regarding confidentiality must be discussed with the university instructor as well as the site supervisor.

As a practicum/internship student at Delta State University, I understand the importance of confidentiality and agree to uphold its practice. This includes work with clients, records, class case discussions, and related material. In the event that I feel confidentiality must be breached for the safety of the client or others, I will consult with my site supervisor, university instructor, or both. I understand that breaches of confidentiality may result in dismissal from my site.

Ethics Agreement
CED 601/619 Internship

Student is to complete this agreement in Supervision Assist before beginning field experience.

1. I hereby attest that I have read and understood the American Counseling Association ethical standards and will practice my counseling in accordance with these standards. Any breach of these ethical standards or any unethical behavior on my part may result in my removal from practicum/internship and a failing grade, and documentation of such behavior will become part of my permanent record. These ethical standards can be located at <http://www.counseling.org/Resources/CodeOfEthics/TP/Home/CT2.aspx>
2. I agree to adhere to the administrative policies, rules, standards, and practices of the practicum/internship site.
3. I understand that my responsibilities include keeping my practicum/internship instructor(s) and supervisor(s) informed regarding my practicum/internship experiences.
4. I understand that I will not be issued a passing grade in practicum/internship unless I demonstrate the specified minimal level of counseling skill, knowledge, and competence and complete course requirements as required.

Delta State University Distance Field Experience Form

Internship (CED 610 and CED 619) students must obtain a minimum of one-hour of individual, face-to-face supervision per week, in addition to obtaining the equivalent of 1 ½ hours of group supervision on a weekly basis during the time they are accumulating their internship hours. At Delta State University, the one-hour of individual, face-to-face supervision is met via on-site supervision, while the CED 610: Clinical Mental Health Internship and CED 619: School Counseling Internship courses provide the required group supervision on the Delta State University campus.

For students completing the Internship (CED 610 or CED 619) at a distance of 100 or more miles away from Delta State University, group supervision may be completed via videoconferencing, upon application and approval.

Note:

- 1) *ONLY students who are completing their CED 610 or CED 619 Internship (Field Experience) 100 miles or further away from Delta State University will be eligible to apply for approval to complete their group internship supervision via video conferencing.*
- 2) *This option is not applicable to practicum students! Practicum students must attend group supervision face-to-face.*

I, _____, am requesting to complete my internship at the following agency and location, which is a minimum of 100 miles from the Delta State University campus:

_____.

I am requesting permission to complete my required group supervision via video conferencing. I understand that I am responsible for providing any necessary educational and/or technological components needed to participate in video conferencing. I further understand that technological issues are NOT an excuse for failing to participate in a required class meeting via video conferencing, and failing to participate will be equivalent to a class absence. If I am unable to attend class meetings via video conferencing, I will be required to meet with the class face-to-face.

For approval, please meet with, and obtain signatures from, the following people in the following order:

Student

Internship Instructor

Academic Advisor

Program Coordinator
