

# COVID-19 WHAT TO DO IF...

The Mississippi State Department of Health defines “close contact” as:

- spending 15 minutes within 6 feet or less of someone infectious with COVID-19, with or without a mask. The 15-minute timeframe is not required to be continuous; rather cumulative throughout the day.
- providing care at home to someone who is sick with COVID-19.
- having direct physical contact (touched, hugged, or kissed) with someone who has COVID-19.
- shared eating or drinking utensils with someone who has COVID-19.
- having had someone who has COVID-19 to sneeze, cough, or somehow get respiratory droplets on you.
