Tanner helps his dad take care of the cows on their ranch. A bad storm is coming. Tanner and his dad ride horses out to the field. They use their horses to herd the cows. The cows go into the corral. Tanner counts the cows and new calves. One calf is missing. Tanner looks for the calf. He rides along the fence line. Tanner finds the calf. Its leg is stuck in a hole. Tanner ties a rope around the calf. He ties the other end to his horse. Tanner tells his horse to move back slowly. This frees the calf's leg. Tanner holds the rope. He and his horse walk the calf back to the corral. Tanner's dad is proud of him for finding the calf.

1. Where does the story take place?
   A. on Tanner's ranch
   B. at Tanner's school
   C. in Tanner's room

2. What is the problem in the story?
   A. Tanner rides horses.
