Unit Goals

CCSHS 2014_01: GLS grant (External Resources) which connects to Sp4.Ind.03

Start: 7/1/2013

End: 6/30/2014

Unit Goal

To implement the Garret Lee Smith Suicide Prevention Grant as cohort-6 for SAMHSA.

Evaluation Procedures

Referral data sheet will be tracked and collated monthly by the counselors in the Counseling Center totaling the number of student referrals for suicide prevention consultation or assessment.

Actual Results of Evaluation

July 1, 2013 - June 30, 2014 tracking period. 6 students were referred directly for suicidal concerns. 4 of them were referred off campus for crisis treatment. 2 were deemed nonlethal and treated on campus.

Use of Evaluation Results

The results will be included in the quarterly and yearly reports to SAMHSA for audit of GLS grant and to determine effectiveness of advertisement, programming and training in Suicide Prevention resources. The 6 individuals were successfully treated with no fatalities. 3 of them were referred by faculty that had been trained in suicide awareness. 2 of them by students who were also trained. The last 1 was referred by a faculty member who was in Psychology but had not been in the training. We need to continue to encourage faculty to take the Kognito training and continue to expand the student training.

CCSHS 2014_02: GLS grant Kognito Training (External Resources) which connects to Sp4.Ind.03

Start: 7/1/2013

End: 6/30/2014

Unit Goal

Kognito will be used to train DSU (students, faculty, staff) in how to be "gatekeepers" in Suicide Prevention.

Evaluation Procedures

The number of completed trainings will be tracked to determine the ratio of Suicide Awareness presentations to the percentage that are additionally trained.

Actual Results of Evaluation

34 Suicide Awareness trainings were presented to 1448 individuals.
443 individuals completed the additional training online using Kognito.
That is a 30.5% completion rate.

Use of Evaluation Results

The percentages will be evaluated to determine if the awareness presentations are contributing to an increased percentage of additional training completions. A 30.5% completion rate is acceptable to Kognito, especially since DSU ranked in the top 10 of nationwide users of the Kognito training. However, we need to emphasize the Kognito training as a "Booster" for confidence in making a suicide referral.
