Brief Description

Judgment

Narrative

The Division of Accountancy, Computer Information Systems, and Finance offers four programs leading to the Bachelor of Business Administration (BBA): the BBA in Accountancy, the BBA in Computer Information Systems, the BBA in Finance, and the BBA in Insurance and Real Estate. The Division offers night courses, online courses, and workshops to serve the needs of both traditional and nontraditional students.

Accountancy Programs

The Accountancy program prepares students for careers in public, management, governmental, and tax accounting and for advanced study in Accountancy and Business. Students have the opportunity to gain practical experience by working as interns with approved, cooperating companies in their senior year. The traditional program of study in Accountancy requires 30 hours of Accounting and Computer Information Systems courses. The program includes financial accounting, cost accounting, auditing, fund and tax accounting. The program includes courses required to be eligible to sit for the Certified Public Accountant (CPA) examination, although additional courses (150 college hours) are required to sit for the exam. All Accountancy majors must earn a grade of C or better in all accountancy and computer information systems courses. In addition, they must have earned a C in all prerequisite courses before enrolling in a course.

Computer Information Systems Programs

The Computer Information Systems area is the major field in which students are taught to use technology to create a comparative advantage for an organization they will learn to analyze, design, develop, and support computerized information systems. The program uses extensive laboratory work to enhance students' understanding of the subject matter. Advanced courses provide opportunities for students to design and implement real-life information systems. Internship opportunities are available to upper-level students. A number of freshman and sophomore-level courses within the Division are available for credit by examination. If students have had high school courses or work experience which they believe qualifies them in a subject, they may see the Division Chair for information about the examination. To meet graduation requirements, CIS majors must earn a grade of C or better in each course in their field of concentration. Further, CIS majors may not enroll in a course in their field of concentration without first earning a grade of C or better in its prerequisite course(s).

Finance Programs

The Finance Program is designed to provide students with a thorough knowledge of the financial institutions of the modern economy, with special emphasis on application of techniques in financial decision making. The purpose of the program is to prepare students to become effective financial managers. All finance majors must earn a grade of C or better in each course in their field of concentration.

Insurance and Real Estate Programs

The Insurance and Real Estate Program is designed to provide the student with a theoretical as well as a practical base for understanding the principles and practices in insurance and real estate. The student will understand the operation of the theory of real property valuation, the theoretical base for insurance as practiced in the economy, and a rich application of practicality in sales, management, and the total support systems. The purpose of the program is to prepare a student to perform effectively in any one of the many jobs in insurance and real estate industries. All insurance and real estate majors must earn a grade of C or better in each course in their field of concentration.

Financial Planning

This program is registered with the Certified Financial Planner (tm) Board of Standards. Successful completion of the program will qualify participants to sit for the national CFP (tm) Certification Exam. NOTE: CFP (tm), CERTIFIED FINANCIAL PLANNER (tm), and CFP (tm) marks are certification marks owned by the Certified Financial Planner Board of Standards, Inc. These marks are awarded to individuals who successfully complete the CFP Board's initial and ongoing certification requirements. Delta State University does not certify individuals to use the CFP (tm), CERTIFIED FINANCIAL PLANNER (tm), and CFP (tm) certification marks. CFP certification is

granted only by the Certified Financial Planner Board of Standards to those persons who, in addition to completing an educational requirement such as this CFP Board-Registered Program, have met its ethics, experience, and examination requirements.

Professional Financial Studies Program

Successful completion of FIN 403 will qualify participants to sit for the national Certified Treasury Professional exam. Delta State University does not award the CTP designation. The right to use the mark CTP is granted by the Association of Financial Professionals.
