Unit level report 2013
Department: Counselor Education and Psychology

Unit Missions

CEDP Mission Statement

Mission statement

Counseling Program Mission Statement

The faculty and staff of the Delta State University Counselor Education Program through teaching, training, supervision, and experiential activity, develop ethical, competent counselors who are prepared to work in school or community settings. Program faculty seek to foster within students a life-long disposition toward respecting, caring for, and valuing individuals in all stages of development, cultural sensitivity, continued growth and learning, interpersonal openness, and practical application of sound principles and practices in their work as professional counselors.

Psychology Program Mission Statement

The Delta State University Psychology Program consists of committed, knowledgeable, and engaging faculty who represent a diverse selection of the subfields of psychology. The Program emphasizes excellence in instruction by providing a friendly environment, small classes and opportunities for students to develop intellectually, professionally and socially. The Psychology Program encourages significant student-faculty interactions which promote intellectual, cultural, ethical, and social development, allowing students to develop the ability to respect and evaluate the thoughts of others; to develop, assess, and express their own thoughts effectively; and to use the techniques of research and performance associated with the discipline of psychology. Through challenging coursework and one-on-one empirical research opportunities with faculty, students have the opportunity to develop the skills and competence in psychology needed for post baccalaureate careers or graduate school.

Learning Outcomes

BA-PSY 01: LO Learning and Cognition
Start: 7/1/2012
End: 6/30/2013

Learning Outcome
Students will recognize and apply terminology of the major concepts and theories in learning and cognition.

Data Collection (Evidence)

Course assessments in PSY 402 Learning and Cognition (a core course) and a standardized assessment from the Major Field Test in Psychology (given in PSY 490 Senior Seminar [a core course]) are used to measure student learning in the area of learning and cognition.

PSY 402 Learning and Cognition course assessments are conducted through two unit tests, a final exam (FE) and reflection papers (RP). Average proportion scores were recorded for 2011-2012.

PSY 490 (Senior Seminar) Capstone Course Assessment:

MFT PSY Assessment Data

MFT PSY Assessment Indicator (Mean Percent Correct based on 15 students) for Memory and Cognition = 32 (national average = 44). There was a 3-point improvement from 2012 to 2013.

National average is based on 167 institutions and 4,603 students taking the test from September 2010 to April 2012.

Note – Mean MFT Memory and Cognition student scores are below the national average.

Note – Due to the number of courses transferred to DSU and course scheduling issues, some transfer students take PSY 490 before taking PSY 402. This adversely affects their Memory and Cognition scores on the MFT PSY. We continue to explore ways to resolve this problem.

Note - Average TOTAL MFT PSY score:
15 PSY students = 150 out of a possible 200. National average is 156. This is a 6-point improvement from 2012. Two area assessment indicators on the MFT PSY (i.e., clinical/abnormal and social psychology) are not required core courses at DSU, so they have been excluded from evaluation. The sub-scores from these areas may adversely affect the total MFT PSY score.

Note – Course grade and standardized test (MFT PSY) score distributions indicate that there are two different populations of DSU psychology students: Those who are capable of and plan on attending graduate school and those who plan on starting a post-baccalaureate career. It is important to note that DSU students who plan on attending graduate school averaged a score of 165.5 on the MFT PSY (above the national average of 156). Two students scored as high as 179 and 172, respectively.

</table>

National average is based on 167 institutions and 4,603 students taking the test from September 2010 to April 2012.

#### Use of Evaluation Results

Program faculty review results of the MFT PSY in formal faculty meetings and discuss changes to curriculum within the program and in specific courses in order to increase student learning.

Tests are periodically revised to reflect current course content.

Due to the four-year MFT PSY trend data and the fact that many students have limited writing skills, faculty have provided more scaffolding in their courses.

The PSY program continued to host writing and plagiarism workshops to address noticeable student writing weaknesses.

#### PSY 402 Learning and Cognition

In order to increase student learning, the topical reflection paper selections were refined.

MFT PSY Assessment Data
MFT PSY Assessment Indicator (Mean Percent Correct based on 15 students) for Sensory and Physiology = 51 (national average = 49). There was a 6-point improvement from 2012 to 2013.

National average is based on 167 institutions and 4,603 students taking the test from September 2010 to April 2012.

Note – Mean MFT PSY Sensory and Physiology student scores increased this year and are two points ABOVE the national average.

Note - Average TOTAL MFT PSY score:
15 PSY students = 150 out of a possible 200. National average is 156. This is a 6-point improvement from 2012. Two area assessment indicators on the MFT PSY (i.e., clinical/abnormal and social psychology) are not required core courses at DSU, so they have been excluded from evaluation. The sub-scores from these areas may adversely affect the total MFT PSY score.

Note – Course grade and standardized test (MFT PSY) score distributions indicate that there are two different populations of DSU psychology students: Those who are capable of and plan on attending graduate school and those who plan on starting a post-baccalaureate career. It is important to note that DSU students who plan on attending graduate school averaged a score of 165.5 on the MFT PSY (above the national average of 156). Two students scored as high as 179 and 172, respectively.

Tests are periodically revised to reflect current course content.

Due to the four-year MFT PSY trend data and the fact that many students have limited writing skills, faculty have provided more scaffolding in their courses.

The PSY program continued to host writing and plagiarism workshops to address noticeable student writing weaknesses.

PSY 409 Biological Psychology

In order to increase student learning the following were carried out in PSY 409 Biological Psychology:

- Introduced detailed semester writing assignment on topic of interest to students that was pertinent to the content of the course.

- Provided systematic feedback to students on papers throughout the semester and assisted them in formulating an outline for their paper.

- Introduced detailed rubric in syllabus that listed all expected paper components and the grading scale associated with each component (see attached).

National average is based on 167 institutions and 4,603 students taking the test from September 2010 to April 2012.

**Use of Evaluation Results**
Program faculty review results of the MFT PSY in formal faculty meetings and discuss changes to curriculum within the program and in specific courses in order to increase student learning.

Tests are periodically revised to reflect current course content.

Due to the three-year MFT PSY trend data and the fact that many students have limited writing skills, faculty have provided more scaffolding in their courses.

The PSY program continued to host writing and plagiarism workshops to address noticeable student writing weaknesses.

**PSY 307 Developmental Psychology**
In response to student performance on unit tests and the MFT assessment indicator, the instructor incorporated more group work and group discussions in the course meetings. Students suggested that more activities be incorporated wherein they could be more active learners. Consequently, these activities are designed to allow students to engage in more peer-to-peer dialogue, incorporate more real-world scenarios into the discussions, and apply more of the text information to their specific disciplinary interests.

**BA-PSY 04: LO Statistics**
**Start:** 7/1/2012  
**End:** 6/30/2013

**Learning Outcome**
Students will produce and interpret descriptive and inferential statistics.

**Data Collection (Evidence)**
Course assessments in PSY 331 Statistics (a core course) are used to measure students’ abilities to produce and interpret descriptive and inferential statistics.

PSY 331 Statistics course assessments are conducted through six tests and homework assignments. Average proportion scores were recorded for 2011-2012.

**Results of Evaluation**
**PSY 331 Statistics Assessment Data**
PSY 331 has been on a six-test system since fall 2010. Average proportion scores from 2012-2013 are reported below. All tests are strongly correlated with each other. This suggests reliability at minimum. $N = 35$, 2 sections, one taught in each semester.
Homework did not predict Tests 3, 5, 6. Homework was scored more leniently, either 8/10 or 10/10 if they did it. Average of .82 is factoring in a lot of zeroes. Note - 2011-2012 data are also report to provide trend data.

See attached file for additional analyses and interpretation.

Use of Evaluation Results

PSY 331 Statistics

In order to improve student learning, additional "Screencasting" was implemented. "Screencasting," in which a professor narrates over static or changing content on a screen, was used to demonstrate computer applications of statistics as they are done on SPSS. "Screencasting" allows the professor to demonstrate without affecting a lab setting. While the class itself is chiefly about the concept of statistical processes, computer-approaches therein are an important component.

BA-PSY 05: LO Research Design Writing

Start: 7/1/2012
End: 6/30/2013

Learning Outcome

Students will be able to demonstrate effective research design and scientific writing skills using APA style which culminates in an executable research proposal.

Data Collection (Evidence)

Course assessments in PSY 330 Research Methods I (formerly 102) and PSY 332 Research Methods II (formerly 201) (both core courses) and a standardized assessment from the Major Field Test in Psychology (given in PSY 490 Senior Seminar [a core course]) are used to measure student learning in the areas of research design and writing skills.

Detailed assessments in PSY 330 and PSY 332 were implemented in fall 2010. Comparison data was first available in spring 2012 after the redesign had been fully implemented.

PSY 330 and PSY 331 course assessments are conducted through tests and structured graduated writing assignments. Average proportion scores were recorded for 2011-2012.
PSY 490 Capstone Course Assessment: MFT PSY assessment indicator for Measurement and Methodology was used to measure student learning of research design.

Student research and presentation production was also recorded. Students incorporate conceptual learning in professional research presentations that require students to present concepts to professionals in the area of psychology.

Results of Evaluation

Research Methods Redesign. Grade distribution data from 2006 to 2009 compared to data from 2010 to fall 2011 indicate that the redesign has been ineffective in increasing student pass rates (pre-redesign 75% pass rate compared to post-redesign 73% pass rate). However, the spring 2012 pass rate increased to 79% and the fall 2012 pass rate increased to 90%. The pass rate for spring 2013 was 75%.

PSY 330 Research Methods I Assessment Data

PSY 330 assessment trend data (i.e., unit tests, research topic proposal, annotative bibliography [Bib], rough draft [Draft], final literature review [Lit R] and final exam [FE]) for spring 2011 to spring 2013 are reported below:

</tbody>
</table>

PSY 332 Research Methods II Assessment Data

PSY 332 has been on the four-test system since fall 2006. Average proportion scores from 2012-2013 are reported below. There is an early-semester talk to peers designed to pressure them for the details for their project. There is also an annotated bibliography, first draft, and second draft.

The 2012-2013 tests were not always correlated with each other this year ($n = 17$). The grades for Test 1 did not predict later tests. However, Test 2 and Test 3 did strongly predict later tests, which may show that the better students recalibrated. This suggests reliability at minimum.

The tests also strongly predicted draft performance (second table). The students performed similarly on these, a suggestion that the class was drawing on the same constructs. One thing that leverages in favor of finding strong correlations is the incredibly wide range of student raw ability. The best student is literally four times as capable was the worst student and outperforms the worst student on every conceivable facet. Note - 2011-2012 data are also report to provide trend data.
MFT PSY Assessment Data

MFT Assessment Indicators for Measurement and Methodology (Mean Percent Correct) demonstrated a 9-point improvement from 2012 to 2013:

2010: 44 (52 national average)
2011: 49 (52 national average)
2012: 45 (55 national average)
2013: 54 (55 national average)

National average is based on 167 institutions and 4,603 students taking the test from September 2010 to April 2012

Note – Mean MFT PSY Measurement and Methodology student scores improved dramatically from 2012 to 2013 and are now just one point below the national average. This is the highest score in the four years of administering the MFT PSY.

Note - Average TOTAL MFT PSY score:
15 PSY students = 150 out of a possible 200. National average is 156. This is a 6-point improvement from 2012. Two area assessment indicators on the MFT PSY (i.e., clinical/abnormal and social psychology) are not required core courses at DSU, so they have been excluded from evaluation. The sub-scores from these areas may adversely affect the total MFT PSY score.

Note – Course grade and standardized test (MFT PSY) score distributions indicate that there are two different populations of DSU psychology students: Those who are capable of and plan on attending graduate school and those who plan on starting a post-baccalaureate career. It is important to note that DSU students who plan on attending graduate school averaged a score of 165.5 on the MFT PSY (above the national average of 156). Two students scored as high as 179 and 172, respectively.

Student Research and Presentation Production

Psychology students conducted a good number of research projects. Dr. Hutchens’ PSY 315 (Social Cognition) students presented three professional research presentations in 2012 at The Mid-South Psychology Conference (one student was awarded first place for Best Research Poster). One of Dr. Drury’s students also presented a professional research presentation at The Mid-South Psychology Conference in 2012.

National average is based on 167 institutions and 4,603 students taking the test from September 2010 to April 2012.

**PSY 330 Research Methods Data Analyses**

**Use of Evaluation Results**
Program faculty review results of the MFT PSY in formal faculty meetings and discuss changes to curriculum within the program and in specific courses in order to increase student learning.

Tests are periodically revised to reflect current course content.

Due to the fact that many students have limited writing skills, faculty have provided more scaffolding in their courses.

The PSY program continued to host writing and plagiarism workshops to address noticeable student writing weaknesses.

**PSY 330 Research Methods I**
In order to increase student learning the following were carried out:

- Changed topical selections of papers to focus on topics students were interested in studying (e.g., false memories and attention).

- Refined the structure of the writing components of the course to make the criteria for evaluation consistent across all assignments.

- Provided systematic feedback to students on papers throughout the semester and assisted them in formulating an outline for their paper.

- Introduced a detailed rubric in syllabus that listed all expected components of student paper preparations (this rubric is attached).

**PSY 332 Research Methods II**
The following grading changes were carried out:

- The annotated bibliography was re-weighted from .06 to .08 and the weight of the final draft of the paper was increased by .02.

- Tests were reduced to less than .50 the final grade.

**Research Methods Redesign:**
The redesign has been ineffective in increasing student pass rates. It was determined that students are taking PSY 330
(Research Methods I) too early in the course sequence to have appropriate knowledge to begin a research paper. Thus, the redesign has been recalibrated again by changing the course sequence of PSY 330 (Research Methods I), 331 (Statistics), and 332 (Research Methods II). Now, students take PSY 331 (Statistics) first, and then take PSY 330 and 332. Pushing PSY 330 back a semester allows students to take other topical psychology courses and learn more about psychology before taking PSY 330.

Note – Around ten years ago PSY 493 (Independent Research) was developed to give students an opportunity to take a course solely devoted to conducting research and writing an APA research paper. The course was productive in the past. However, the intensive nature of the course is not conducive to an enrollment of 10 or more. As a result, due to budget constraints over the last five years, PSY 493 has only been offered sporadically to a few students over the last five years for per-head faculty pay.

Rubric for PSY 330 Literature Review

EDD-COU 01: LO Mastery of Prior Knowledge
Start: 7/1/2012
End: 6/30/2013

Learning Outcome
Content and Pedagogical Content Knowledge: Demonstrate mastery of the prior knowledge needed to be successful in the Doctor in Education program.

Data Collection (Evidence)
1. A Doctoral Admission Portfolio will be used. The portfolio will include a professional resume/vita, writing samples, personal philosophy of education/theory of teaching and learning, self-evaluation aligned with personal and professional goals, evidence of leadership ability, and a statement of purpose for pursuing doctoral study. A 4-point rubric is used to evaluate the portfolio.

2. The portfolio will be submitted within the first six hours in the program.

3. Average scores and pass rate percentages will be calculated.

Results of Evaluation
One candidate submitted a portfolio in Fall 2011 for the EDD, counseling track. This was the candidate’s second submission and it was not accepted. There were no submissions in Spring 2012 or Fall of 2012.

Use of Evaluation Results
Because no new Counseling Track students were admitted in this reporting period, no data was collected. Thus, no program changes were made. In the event that students apply and are admitted, assessment data is collected and evaluated in order to make necessary changes.

Efforts to recruit more qualified students for the Counseling Track of the Ed.D. program are ongoing.

Faculty have explored online/hybrid delivery methods for the program in order to better market the program to nontraditional students.

The initiation of the Ed.S. program may create a better pipeline for more students to enter the Counseling Track of the Ed.D.
Related Items

EDD-COU 02: LO Content Knowledge
Start: 7/1/2012
End: 6/30/2013

Learning Outcome
Program Specific Content: Demonstrate mastery of the knowledge associated with content in Counselor Education.

Data Collection (Evidence)
1. Comprehensive Examinations: Comps will be taken at the end of the program by all candidates and must be passed in order to register for ELR 888 (Dissertation Seminar). They will be divided into 3 sections: research, curriculum, and supervision and based upon the core program courses and scored by program faculty.

2. Results will be compiled and analyzed by program faculty and reported to the Unit Assessment Director and the NCATE Coordinator annually.

3. Results will be analyzed by program faculty by section and overall scores and trends are identified.

Results of Evaluation
There were no counseling track students taking comprehensive exams in this reporting period.

Use of Evaluation Results
Because there were no Counseling Track students taking comprehensive exams in this reporting period, no data was collected. Thus, no program changes were made. In the event that students take comprehensive exams, assessment data will be collected and evaluated in order to make necessary changes.

Efforts to recruit more qualified students for the Counseling Track of the Ed.D. program are ongoing.

Faculty have explored online/hybrid delivery methods for the program in order to better market the program to nontraditional students.

The initiation of the Ed.S. program may create a better pipeline for more students to enter the Counseling Track of the Ed.D.

EDD-COU 03: LO Advanced Counseling Skills
Start: 7/1/2012
End: 6/30/2013

Learning Outcome
Advanced Counseling Skills: Demonstrate advanced skills as a counselor in the current place of counseling practice. Advanced skills include additional knowledge and counseling techniques beyond the master’s degree.

Data Collection (Evidence)
Advanced counseling practicum and internship are times when students are under DSU faculty supervision. Faculty form collaborative consulting relationships with these students to encourage professional growth and assess the students’ application of advanced knowledge and skills in the workplace and in the university classroom.

Results of Evaluation
There were no students in the Advanced Counseling Practicum or Internship Classes for the EDD during the 2012 year.

Use of Evaluation Results
There are evaluative efforts and changes occurring in both the MED and the EDS programs that will impact the EDD experiential classes positively when they are populated.
There were no students in the Advanced Counseling Practicum or Internship Classes for the EDD during the 2012 year. Efforts to recruit more qualified students for the Counseling Track of the Ed.D. program are ongoing.

Faculty have explored online/hybrid delivery methods for the program in order to better market the program to nontraditional students.

The initiation of the Ed.S. program may create a better pipeline for more students to enter the Counseling Track of the Ed.D.

Currently enrolled students are in dissertation stages. Except for counseling practicum, no other Counseling Track Ed.D. courses were offered in this reporting period because there were no students taking coursework. Thus, no other program changes occurred. In the event that courses are offered, assessment data will be collected and evaluated in order to make necessary changes to improve student learning.

EDD-COU 04: LO Research and Writing Techniques

Start: 7/1/2012
End: 6/30/2013

Learning Outcome
Mastery of research techniques and academic writing (dissertation):

Demonstrate the ability to create a research question relevant to the counseling literature; design the appropriate research methodology; collect and analyze the data; and, report the findings in a manner conducive to enhancing the counseling literature.

Data Collection (Evidence)
Students will complete the dissertation. Starting the dissertation process in ELR 888 students will work with faculty to complete a meaningful research project that will contribute to the counseling literature.

Results of Evaluation
One student recently completed a dissertation and graduated from the program. Currently there are four counseling students in various stages of the process.

One student awaits comprehensive exams, but has twice not responded to taking comprehensive exams.

Use of Evaluation Results
Currently there has been no significant progress toward completion. Students have been assigned committees and are expected to interact with their chair and committee.

Efforts to recruit qualified students for the Counseling Track of the Ed.D. program are ongoing:

Faculty have explored online/hybrid delivery methods for the program in order to better market the program to nontraditional students.

The initiation of the Ed.S. program may create a better pipeline for more students to enter the Counseling Track of the Ed.D.

- SP1.Ind06: Advising -- access to improved, comprehensive, and directed/targeted advising

EDS-COU 01: LO Mastery of Prior Knowledge

Start: 7/1/2012
End: 6/30/2013

Learning Outcome
Content and Pedagogical Content Knowledge: Demonstrate mastery of the prior knowledge needed to be successful in Ed.S. program.
Data Collection (Evidence)
The application process for the Ed.S. in counseling – school track includes:

1. Students are currently employed as school counselors and have at least two years’ experience.
2. Students must pass a writing proficiency test and submit a writing sample to be evaluated by the faculty.
3. Students must secure at least 3 letters of recommendation.

The CED faculty will decide collectively on students to be admitted to the program based on writing samples and recommendations.

Results of Evaluation
In Fall 2012, 10 students were admitted as the first class for the EDS program. They began with 2 core courses. These students all met the pre-requisites and came highly recommended.

Use of Evaluation Results
The program committed to going entirely online and thus have recruited students from across the state. Using students who are working as school counselors, through both asynchronous and synchronous class meetings, we have established a learning environment that includes in-depth instruction as well as peer-supervision. We will continue this model in 2013.

Related Items
- SP2.Ind01: Enrollment
In addition, the student will implement the plan created in CED 717 and will document the installation, maintenance and results of the enhancement with suitable evaluation techniques.

Students will receive supervision from DSU faculty who will evaluate advanced skills. In addition, students will complete the paper started in CED 717 showing implementation and results as they have moved their campus counseling program toward the ASCA school counseling model.

**Results of Evaluation**
The major benchmarks for this goal lie in CED 758 Advanced School Counseling and CED 790 Counseling Supervision Theories. These classes are part of the second half of the core EDS classes and will be completed in Spring of 2013.

**Use of Evaluation Results**
As faculty teach the second portion of the core, they are discovering the changes necessary to clarify program goals and requirements for the incoming students. Primarily, helping students adopt the role of scholar-practitioner will be explained with more depth. The intent is to help these students become better program evaluators.

In addition, the supervision class will not only teach principles of counseling supervision, but also will facilitate the adoption of peer supervision habits by providing a synchronous online peer supervision experience. This will be started and refined in 2013.

---

**EDS-COU 04: LO Supervision Skills**

**Start:** 7/1/2012  
**End:** 6/30/2013

**Learning Outcome**
Mastery of Supervision Strategies: Demonstrate knowledge and skills related to performing effective and ethical counselor supervision.

**Data Collection (Evidence)**
Students will demonstrate knowledge by passing tests within the class semester. Also students will demonstrate ability by providing tapes of counseling supervision processes (a rubric will be developed).

The instructor of record will be the primary evaluative source for this. However, the entire faculty assist in supervising counselor supervisors and will have evaluative input.

**Results of Evaluation**
Since this is a new program, no students have advanced to this stage in the process yet.

**Use of Evaluation Results**
Students will take the first comprehensives in spring of 2013. At that time, faculty will review results and make changes to improve student learning accordingly.

**MED-COU 01: LO CACREP Knowledge Base**

**Start:** 7/1/2012  
**End:** 6/30/2013

**Learning Outcome**
Counseling students will demonstrate knowledge in the eight CACREP core areas.*

*Professional Identity  
Helping Relationships
Assessment

Group Work

Career Development

Human Growth and Development

Social and Cultural Diversity

Research and Program Evaluation

Data Collection (Evidence)

1. The two assessment instruments used in determining acquisition of content knowledge in the program are the CPCE (Counselor Preparation Comprehensive Exam) and the NCE (National Counselor Exam). The CPCE is offered every semester, and students are eligible to sit for the exam after taking CED 609. The NCE is offered each spring and fall semester, and students are eligible to sit for the exam while they are in their last semester of coursework in the program or within six months of their graduation from the program.

2. Scores from the CPCE are generated through the Center for Credentialing in Education (CCE), an affiliate with the National Board of Certified Counselors (NBCC) which generates the scores for the NCE. The CPCE scores are generated each semester, and the NCE scores are generated twice a year in the spring and fall. The CPCE test summary provides descriptive statistical data to compare program results with national results; the NCE also has national data with comparisons with CACREP and non-CACREP programs.

3. Data from test results are distributed to faculty for review in preparation for a discussion in a faculty meeting (or multiple faculty meetings as needed). At these faculty meetings, strategies are developed that will help students perform better on these instruments, including program preparation workshops, professionally prepared test prep materials, and curricular changes within targeted courses.

Results of Evaluation

Recently, the majority of the students have passed the CPCE. Based on the past 7 years (see summary tables), CPCE pass rates have been on an upward trend. In comparing aggregate data from 2011-2009 to 2008-2006, it is evident that first time pass rates have significantly increased by 30% (2011-2009 = 76%, 2008-2006 = 46%). However, this year’s first time pass rate was significantly lower than in recent years. One explanation is that a culture of taking the test prematurely has developed where students take it without sufficient review and knowing they can take it again. Noting that 97% of students retesting this year passed with their second attempt. It should also be noted that the 75 point cutoff score was significantly closer to the mean on the test forms used this year. This means that as our students passed this year they passed at higher percentiles than students taking earlier test forms.

Due to a problem with communication with CCE only 2 students took the graduate student administration of the NCE. One passed and 1 did not.

Note - Please see attached file for Summary of CPCE by Content Areas.

</table>
Use of Evaluation Results
Continued to review courses to adopt better materials and teaching strategies resulting in the continued effort to add additional on-line course interaction as both primary and supplemental teaching methods.

Have continued to add additional online exercises to increase student interaction with the material.

Have begun reviewing the portfolios and the portfolio concept toward modifying its effectiveness in program evaluation and student learning. Feedback from students suggest that more guidance must be taken.

Beginning in Spring 2012, the faculty added a review component into the practicum and internship classes to help students self-assess their strengths and weaknesses relative to the counseling knowledge base and create preparation strategies for the CPCE.

The low number of students taking the CCE is aberrant in our program and therefore resists evaluation this year. However, a significant problem in the costs of the test will mean that some of our students will delay taking the test for the graduate administration and wait until they are closer to licensure meaning this data point will become even more problematic.

  - SP2.Ind03: Graduation Rate

MED-COU 02: LO Counseling Skills
Start: 7/1/2012
End: 6/30/2013

Learning Outcome
Counseling students will be able to apply relationship building skills. Students will form a theoretical orientation while implementing basic therapeutic intervention, and forming case conceptualization.

Data Collection (Evidence)
Counseling students are observed closely in at least five clinical courses (CED 630, 601, 604, 609, and 610 or 619). Documented taped session reviews in 630 and 604 and site supervisor observations reflected in formal evaluations serve to monitor student progress.

Results of Evaluation
For the spring 2012 and fall 2012 semesters, documented observations indicated that 6 students self-selected out in CED 630; 3 students self-selected out of the program or were mandated to repeat the course in CED 604; all students passed CED 609; and all students successfully passed CED 610 or CED 619. This multiple evaluation procedure is determined by program faculty to be an effective “gate keeping” process.

As a result of these requirements, 12,000 hours of counseling services were provided to DSU students and to communities across the Delta.

Use of Evaluation Results
Faculty members meet two times per semester to review videos of students applying relationship building skills and implementing basic therapeutic interventions. Faculty members, as well, provide supervision following each counseling session to address issues related to theoretical orientation, case conceptualization, and related issues.

Students, following each faculty meeting to review counseling skills videos, are given the opportunity to meet with a faculty member to discuss faculty feedback.
Following evaluation by faculty members, counseling students not meeting the expected level of performance are provided various forms of remediation by faculty via additional clients, continued supervision throughout the semester, and/or repeating the course for additional experience.

Faculty have updated documentation and evaluations. This includes the addition of a required form in the absence of tape review in the CED 609, 610, 619 classes. This form requires either the site supervisor or the university supervisor to observe the student live and give immediate feedback.

---

**MED-COU 03: LO Dispositions**

**Start:** 7/1/2012  
**End:** 6/30/2013

**Learning Outcome**

Counseling students will demonstrate professional proficiencies as evaluated by core faculty members through the Professional Proficiencies Rubric. Professional proficiencies include qualities such as ability to establish cooperative relationships with others, ability to accept and implement feedback, ability to deal with conflict effectively, tolerance for differences, and proficiency in written and oral communication.

**Data Collection (Evidence)**

As part of the clinical observations (documented taped session reviews and site supervisor observations reflected in formal evaluations), faculty review and discuss student progress in the areas of professional and ethical conduct and an appreciation for diversity; multicultural issues are covered in all coursework with the foundational course as CED 616; experiential and didactic experiences serve to develop a disposition toward appreciating diversity.

In addition to the above observations, in 2010, the counseling faculty decided to pilot a counselor dispositions rubric. This rubric has been court-tested and used for several years at the College of William & Mary in Maryland.

The faculty implemented it in spring 2011 and adopted it policy in fall 2011. As a result, all 60 CED students undergo evaluation of professional dispositions twice each semester with feedback given to them either by the instructor of CED 604 Counseling Pre-practicum or their advisor.

**Results of Evaluation**

Analysis of faculty and site supervisor observations indicated that all interns adequately demonstrated minimal competency in developing and demonstrating the ability to work effectively with diverse populations and exhibiting professional and ethical conduct.

The faculty has adopted the Professional Proficiencies Rubric as a regular opportunity to evaluate students in terms of fitness for our program. As a result of this adoption, all students in both the MEd and the EdS program have been evaluated.

**Use of Evaluation Results**

Faculty continue to discuss didactic and experiential activities that enhance the curriculum in student acquisition of knowledge of skills. Faculty have implemented the substantial revisions to the CED curriculum in 2012 reflecting the changes made in 2012 toward the 2009 CACREP standards. Current strategies include incorporating suggestions made by the CACREP Site Visit Team. Specific strategies related to this goal include intensifying the internship experience with more taped and live observations and creating more awareness in applicants for admission to the program.

- SP1.Ind08: Curriculum Development and Revision

---

**MED-COU 04: LO Appreciation of Research**

**Start:** 7/1/2012  
**End:** 6/30/2013
Learning Outcome
Counseling students will demonstrate an alignment with the counseling profession through proof of membership in a professional organization. Counseling students will demonstrate familiarity with research and present at professional conferences.

Data Collection (Evidence)
Students are required as part of their internship experiences (CED 610 or 619) to present at a professional conference. Many take the opportunity to present at the F.E. Woodall Annual Spring Conference or the state’s Mississippi Counseling Association (MCA) conference.

Results of Evaluation
Students are observed and/or required to submit documentation of these presentations; during 2012, 10 students presented or co-presented at the F.E. Woodall Spring Conference.

Use of Evaluation Results
This continues to be an ongoing requirement in the program. Faculty actively recruit students to become members of state and national professional organizations (MCA, ACA).

Students are now required to have faculty sponsors as they submit materials for consideration as presentations for professional conferences.

After the 2012 conference, faculty decided to add poster sessions as an acceptable option during the Woodall Conference beginning in 2013.

Gen Ed Learning Outcomes

**PSY_101_GE 01: Critical and Creative Thinking**

*Start: 7/1/2012*  
*End: 6/30/2013*

**Gen Ed learning outcome (competency)**

Outcome 01 (Critical and Creative Thinking): Developing sound analytical and reasoning skills and the ability to use them to think critically, solve problems, analyze logically and quantitatively, and effectively respond to change

**Data Collection**

Specific Objectives: Solve critical thinking exercises from textbook.  
Recognize and describe aspects of the scientific method.  
Recognize or describe essential features of descriptive, correlational, and experimental research

Content will be specifically taught in each PSY 101 course section when covering the research methods chapter (e.g., scientific method, essential features of descriptive, correlational, experimental research).

The competency will be specifically assessed using a uniform multiple-choice quiz in the Blackboard/Canvas course shells for all PSY 101 sections. Each quiz consists of 20 items. Students must obtain a score of 75% or higher to achieve satisfactory attainment (75% is a conventional criteria of competency in a content area).

**Results of Evaluation**

In the fall of 2012, 168 students took the research methods quiz. Mean percentage scores on the Outcome 01 competency quiz were: fall 2012 = 78% (N=168).

Specifically, 63 students did not score > 75% while 105 did score > 75%.

In the spring of 2013, 110 students took the research methods quiz. This time the average score was spring 2013 = 81% (N=110).

Specifically, 32 students scored < 75% while 78 students scored > 75%.

The average scores in fall 2012 and spring 2013 exceeded the 75% satisfactory attainment criteria.

Data spreadsheet is attached.

**Use of Results**

A uniform assessment for Outcome 01 in all PSY 101 sections was implemented in fall 2012. The mean percentage scores for fall 2012 and spring 2013 indicate satisfactory attainment of the Outcome 01 competency.

Each semester, the Psychology Program Curriculum Committee systematically tracks the assessment process and mastery/understanding of the competency.

Psychology faculty were encouraged to see a 3%-point increase from fall 2012 to spring 2013.

The following changes are being considered:

1) In order to increase competency scores and completion rates, the psychology faculty have decided to make the Outcome 01 competency quiz a course requirement rather than a bonus point opportunity. Getting all students to complete the quiz in a timely manner will assist the faculty in assessing their ability to implement Outcome 01.

2) Additionally, faculty must adjust their syllabi to give importance to the chapter on research methods in psychology. This chapter encourages critical thinking and use of the scientific method in examining psychological theories and research.

3) Faculty are considering designing a standalone module to accompany the quiz instead of relying on textbook information.
4) Faculty will encourage student participation in research studies conducted in the department.

GE 01: Critical and Creative Thinking

PSY_101_GE 05: Self
Start: 7/1/2012
End: 6/30/2013

Gen Ed learning outcome (competency)
Outcome 05 Self – Developing a fundamental understanding of the intricate nature of humans and the knowledge, interests, and skills to promote well-being and health

Data Collection
Specific Objectives: Recognize and describe the nature of human beings according to psychodynamic, behavioral, cognitive, or humanistic models.

Understand issues in personal development and apply these to present situations.

Content will be specifically taught in each PSY 101 course section when covering the human development chapter.

The competency will be specifically assessed using a uniform multiple-choice quiz in the Blackboard/Canvas course shells for all PSY 101 sections. Each quiz consists of 20 items. Students must obtain a score of 75% or higher to achieve satisfactory attainment (75% is a conventional criteria of competency in a content area).

Results of Evaluation
Mean percentage scores on the Outcome 05 competency quiz were:

fall 2012 = 80% (N=170 )
spring 2013 = 88% (N=111)

In the fall of 2012, 170 students took the Outcome 05 competency quiz. Of these, 54 students scored < 75% while 116 scored > 75%. In the spring of 2013, 164 took the Outcome 05 competency quiz. Of these, 29 scored < 75% while 82 scored > 75%.

The average scores in fall 2012 and spring 2013 exceeded the 75% satisfactory attainment criteria.

Data spreadsheet is attached.

PSY 101 General Education Competency Data Fall 12 and Spring 13

Use of Results
A uniform assessment for Outcome 05 in all PSY 101 sections was implemented in fall 2012. The mean percentage scores for fall 2012 and spring 2013 indicate satisfactory attainment of the Outcome 05 competency.

Each semester, the Psychology Program Curriculum Committee systematically tracks the assessment process and mastery/understanding of the competency.

Psychology faculty were encouraged to see an 8%-point increase from fall 2012 to spring 2013.

In light of this data, the following changes are being considered to the program:

1) In order to increase competency scores and completion rates, the psychology faculty have decided to make the Outcome 05 competency quiz a course requirement rather than a bonus point opportunity. With more students completing the quiz, faculty will be in a better position to evaluate the psychology program.

2) Faculty need to adjust their syllabi to make sure that the chapter on development is covered each semester.
3) Faculty are considering using a standalone module for this outcome instead of relying on a textbook chapter.

4) Faculty are considering using more interactive materials for covering this material, such as videos or research experiences.

GE 05: Self
Unit Goals

CEDP 2013_01: Division Increase Enrollment
Start: 7/1/2012
End: 6/30/2013

Unit Goal
Increase enrollment in Counselor Education and Psychology Programs by a minimum of 1% (through expanded/new [Ed.S.] programs and innovative program/course offerings, as well as vigorous recruiting practices) and retain quality students.

Evaluation Procedures
Review of enrollment and retention reports from Institutional Research and Planning. Track the number and type of productive recruitment efforts.

Actual Results of Evaluation
1. Total CED enrollment over the past three years was 155 in 2010-11, 170 in 2011-12, and 182 in 2012-13. Three-year and two-year trend data indicate that CED enrollment increased 15% from 2010-11 to 2012-13 and increased 7% from 2011-12 to 2012-13. In order to increase retention, the CED program increased the fall and spring new student orientation from three hours to a day-long orientation and included a workshop on writing and plagiarism in order to address noticeable weaknesses in student writing. The orientation also gives students a clear program description in the spirit of thorough informed consent in order for the students to gain a better understanding of the nature of the program and expectations concerning rigor. The CED program also implemented a new EDS counseling program which has helped increase enrollment. Even though trend data indicates that enrollment is increasing, the CED program will continue to have some attrition due to the gate-keeping function inherent in the ethics of counselor education. Total PSY enrollment over the last three years was 204 in 2010-11, 192 in 2011-12, and 151 in 2012-13. Three-year and two-year trend data indicate that PSY enrollment decreased 26% from 2010-11 to 2012-13 and decreased 21% from 2011-12 to 2012-13. As a result of this decreasing enrollment trend, the division has started engaging in more vigorous recruiting practices. In fall 2011, the division implemented an enrollment and retention plan developed by CEAC. This involves academic advisors personally contacting all advisees for early registration and then following up with advisees who do not sign up for advising. The practice is continued every semester. Moreover, another CEAC enrollment plan to better recruit students from community colleges was launched in 2012. This involved personally contacting school counselors at Mississippi community college, making personal connections, and providing the counselor with recruitment materials (i.e., the professional brochures). Additionally, the Psychology program created and submitted a proposal to develop a 2+2 Online Degree Program with Holmes Community College. If this proposal is approved and implemented, it will help increase enrollment. Division faculty attended several recruitment functions. All recruitment functions were productive. In particular, the Memphis Area College Night Fair was large and well attended by serious students from the Memphis area. The division plans to attend this fair on an annual basis.

Comparison of Enrollment by Major
### Use of Evaluation Results

Results will be used to evaluate effective methods of recruitment in order to strengthen the Counselor Education and Psychology Programs. The division will work closely with the Graduate Office and Admissions to develop recruitment plans and develop retention plans through advisement and monitoring.

---

**CEDP 2013_02: Division Increase CHP**

**Start:** 7/1/2012  
**End:** 6/30/2013

**Unit Goal**

Increase credit hour production (CHP) in Counselor Education and Psychology Programs by a minimum of 1% (through expanded/new [Ed.S.] programs and innovative program/course offerings, as well as vigorous recruiting practices).

**Evaluation Procedures**

Review of CHP reports from Institutional Research and Planning.

**Actual Results of Evaluation**
CED CHP three-year trend data indicate a 4% increase from 2009 (1563) to 2012 (1635): two-year trend data indicate a 10% increase from 2011 (1467) to 2012 (1635). The increase of CHP in CED is associated with an increase in enrollment. PSY CHP three-year trend data indicate a 12% decrease from 2010 (2961) to 2012 (2610): two-year trend data indicate a 3% decrease from 2011 (2694) to 2012 (2610). The PSY three-year and two-year trend data may be due to the fact that students are taking fewer hours due to the current economic climate. EPY CHP three-year trend data indicate a 17% decrease from 2010 (1134) to 2012 (945): two-year trend data indicate an 8% decrease from 2011 (1032) to 2012 (945). The EPY trend data is related to enrollment in undergraduate and graduate programs outside of the Division. As a result of the PSY decreasing CHP trend, the division has started engaging in more vigorous recruiting practices. In fall 2011, the division implemented an enrollment and retention plan developed by CEAC. This involves academic advisors personally contacting all advisees for early registration and then following up with advisees who do not sign up for advising. The practice is continued every semester. Moreover, another CEAC enrollment plan to better recruit students from community colleges was launched in 2012. This involved personally contacting school counselors at Mississippi community colleges, making personal connections, and providing the counselor with recruitment materials (i.e., the professional brochures). Additionally, the Psychology program created and submitted a proposal to develop a 2+2 Online Degree Program with Holmes Community College. If this proposal is approved and implemented, it will help increase CHP. Division faculty attended several recruitment functions. All recruitment functions were productive. In particular, the Memphis Area College Night Fair was large and well attended by serious students from the Memphis area. The division plans to attend this fair on an annual basis.

Use of Evaluation Results
Results will be used to evaluate effective methods of recruitment in order to strengthen the Counselor Education and Psychology Programs. The division will work closely with the Graduate Office and Admissions to develop recruitment plans and develop retention plans through advisement and monitoring. The division will focus on market analysis and course offerings to ensure strategic delivery of courses.

Annual Report_AY2013_Counselor Education and Psychology 28 of 62
CEDP 2013_03: Division Increase Graduates  
**Start:** 7/1/2012  
**End:** 6/30/2013  

**Unit Goal**  
Increase the number of graduates for Counselor Education and Psychology Programs by a minimum of 1% (through expanded/new [Ed.S.] programs and innovative program/course offerings, as well as vigorous recruiting practices).

**Evaluation Procedures**  
Review of graduation numbers reported by Institutional Research and Planning.

**Actual Results of Evaluation**

1. Note – Overall division graduation numbers increased from 2011-2012 (29) to 2012-2013 (38). This is an overall 24% increase. The implementation of the new EDS counseling program resulted in 8 additional CED graduates. CED increased from 12 to 20 (40%) while PSY increased from 17 to 18 (5%). CED three-year trend data indicate a 20% increase from 2010-2011 (16) to 2012-2013 (20). PSY three-year trend data indicate a 28% increase from 2010-2011 (13) to 2012-2013 (18). Trend data indicate that graduate numbers are increasing despite the fact that the division experiences a significant amount of attrition due to the rigor of the psychology and counselor education programs. In order to help increase retention, the CED program increased the fall and spring new student orientation from three hours to a day-long orientation and included a workshop on writing and plagiarism in order to address noticeable weaknesses in student writing. The orientation also gives students a clear program description in the spirit of thorough informed consent in order for the students to gain a better understanding of the nature of the program and expectations concerning rigor. However, the CED program will continue to have some attrition due to the gate-keeping function inherent in the ethics of counselor education. The PSY program also continues to host a writing and plagiarism workshop (fall 2012) to address noticeable student writing weaknesses. Also, the PSY research methods and statistics redesign project should help increase graduation rates in the future. Additionally, the Psychology program created and submitted a proposal to develop a 2+2 Online Degree Program with Holmes Community College. If this proposal is approved and implemented, it will help increase graduate rates in the future. Division faculty attended several recruitment functions. All recruitment functions were productive. In particular, the Memphis Area College Night Fair was large and well attended by serious students from the Memphis area. The division plans to attend this fair on an annual basis.

**Use of Evaluation Results**

Results will be used to evaluate effective methods of recruitment in order to strengthen the Counselor Education and Psychology Programs. The division will work closely with the Graduate Office and Admissions to develop recruitment plans and develop retention plans through advisement and monitoring. Note - Immediate impact on graduation numbers will likely not be seen as candidates who are not currently on track for graduation may not meet requirements even with enhanced advisement. It will, also, take time (i.e., at least two years) to measure the effect of vigorous recruitment efforts on graduation rates.

- **SP1.Ind06: Advising -- access to improved, comprehensive, and directed/targeted advising**
- **SP2.Ind03: Graduation Rate**
Evaluation Procedures
Qualitative assessment outcomes will be discussed with each division faculty member after an in-class observation and annual chair evaluation.

Actual Results of Evaluation
All division faculty were observed at least once in the academic year. Subsequently, they met with the chair and received detailed feedback/recommendations about their teaching and classroom management skills. Faculty were encouraged to use the feedback/recommendations to increase their teaching effectiveness as they progressed toward tenure and promotion. This should ensure teaching quality and rigor and ultimately lead to more faculty obtaining tenure and promotion. In the last two years, two faculty members were granted tenure and promotion.

Use of Evaluation Results
1. The Chair In-Class Observation and Mentorship Program will continue to be used to develop and strengthen the division faculty and promote effective and innovative teaching. Division faculty will be observed every academic year.

CEDP 2013_05: Division External Funding
Start: 7/1/2012
End: 6/30/2013

Unit Goal
Division faculty will continue to examine external funding sources to supplement program initiatives.

Evaluation Procedures
Number of grant-writing workshops attended by faculty and number of faculty in attendance; meetings with the DSU grant office; number of grant applications.

Actual Results of Evaluation
1. Some division faculty met with Robin Boyles in the DSU Grant Office to seek information about applying for discipline-related grants several times throughout the year. The International Baxter Foundation grant to create a play therapy training clinic was funded in 2011 and the play therapy training clinic opened in fall 2012. The development of the play therapy training clinic has benefited the community. Moreover, all division faculty and staff applied for and received six funded awards for professional development from the Dulce Fund supported by Dr. Leila Wynn and the Bryce Griffis President’s Endowment Fund. The combined amount funded was $4,075. The funds were used to purchase an iWorx Physiological Teaching Kit (EEG) ($2,500) and a Diversity Video Series ($1,575).

Use of Evaluation Results
The Division will continue to seek additional funds from potential grants and other funding sources.

Related Items
- SP4.Ind03: External resources

CEDP 2013_06: Division Data Integrity
Start: 7/1/2012
End: 6/30/2013

Unit Goal
The Division will research what needs to be done for it to be in compliance with the University’s “Data Integrity” Policy and provide the appropriate procedures and training for data entry and use in order to insure that the data are good, secure, and used appropriately.

Evaluation Procedures
Provide training for all personnel who enter, collect, and analyze data. Provide confidentiality training for all who have access to confidential information. Maintain training session agendas and sign-in sheets.

Actual Results of Evaluation
1. The Division Data Integrity Committee was formed (Drs. Shuttlesworth, Simmons, and McCormick). The Committee met and developed a draft for division data integrity and procedures (see attached file). Some of the recommendations have already been implemented (i.e., storing student files and information in a secure location in a lockable file cabinet). Other recommendations are currently being implemented. This goal will be continued for next year.

Use of Evaluation Results
1. Division capacity will be increased through effective use of data to make date-driven decisions.

**CEDP 2013_07: CED Hire Train Faculty**

**Start:** 7/1/2012  
**End:** 6/30/2013

**Unit Goal**  
Hire, train, and support one new CED faculty to replace faculty departing spring 2012.

**Evaluation Procedures**  
Course evaluations, in-class chair observations, annual chair evaluations, weekly meetings with program coordinator, and mentorship meetings with division chair.

**Actual Results of Evaluation**  
One new faculty member began in fall 2012 and has become a strategic faculty member in both the MED program and the EDS and EDD programs.

**Use of Evaluation Results**  
Continue to develop and strengthen the program faculty. Continue to improve all CED faculty in teaching, scholarship, and service. The program needs to look for ways to diversify its faculty.

**Related Items**

---

**CEDP 2013_08: CED CACREP Reaccreditation**

**Start:** 7/1/2012  
**End:** 6/30/2013

**Unit Goal**  
Prepare for the CACREP reaccreditation site visit in fall of 2012.

**Evaluation Procedures**  
Addendum accepted; Site visit scheduled and completed with the CACREP board voting for reaccreditation in January of 2012.

**Actual Results of Evaluation**  
Site visit was completed in mid-October. A rejoinder to the site visit was completed in December for the CACREP Board meeting to vote in January. In 2013, the program was notified that both master’s degree programs received the maximum years of reaccreditation, eight years.

**Use of Evaluation Results**  
A map to program evaluation was submitted as a continuing program assessment plan for Counselor Education. That plan will be implemented in 2013.

**Related Items**  
- SP1.Ind08: Curriculum Development and Revision
  - SP4.Ind09: Institutional review process / Accreditations/IE

---

**CEDP 2013_09: CED EDS Student Admission**

**Start:** 7/1/2012  
**End:** 6/30/2013

**Unit Goal**  
Program faculty will admit students to the EdS in counseling with school concentration beginning in fall 2012.

**Evaluation Procedures**  
Course curriculum, admissions process, and enrollment

**Actual Results of Evaluation**  
Students were admitted to the EdS program in Fall 2012. They took at least six hours of the core courses and will continue toward the remaining core in Spring of 2013.

**Use of Evaluation Results**

1. The first students in the program are providing us feedback relative to our communication of program goals and priorities. Also, as the program is fully online the program is learning new ways of teaching through the electronic medium.

**Related Items**  
- SP1.Ind08: Curriculum Development and Revision
  - SP2.Ind01: Enrollment
CEDP 2013_10: CED Scholarship Efforts  
**Start:** 7/1/2012  
**End:** 6/30/2013  

**Unit Goal**  
Program faculty will continue to engage in regular discussions about current research and publication efforts including but not limited to: Journal article submissions and potential submissions, conference presentations, book chapters, and involvement of students in scholarly efforts.

**Evaluation Procedures**  
Minutes of bi-weekly faculty meetings, presentations, and publication submissions.

**Actual Results of Evaluation**  
There has not been any substantial journal article submissions during this year.

**Use of Evaluation Results**  
The program will engage in the refinement of the support system in order to facilitate individual and collaborative scholarship efforts. CACREP, a new program, and faculty turnover have required existing faculty to focus on program strengthening and maintenance.

**Related Items**  
- SP3.Ind09: Professional development

CEDP 2013_11: CED Online Hybrid Course Offerings  
**Start:** 7/1/2012  
**End:** 6/30/2013  

**Unit Goal**  
Program faculty will identify at least two courses that are suitable for hybrid or fully online offerings and will have syllabi and peer-review for offerings in coming semesters.

**Evaluation Procedures**  
Scheduling and review of at least two hybrid or on-line courses.

**Actual Results of Evaluation**  
The program saw three courses created online for the MEd program and two courses established for the EdS program. The EdS program has two additional courses created for the EdS program in Spring 2013.

**Use of Evaluation Results**  
1. Feedback from current students in the newly developed classes showed evidence that appropriate learning environments were created and students in both the MEd and EdS programs are asking for more courses to be taught this way. The program faculty has entered a discussion about creating a hybrid/online MEd in counseling program.

CEDP 2013_12: CED Play Therapy Center  
**Start:** 7/1/2012  
**End:** 6/30/2013  

**Unit Goal**  
Program faculty will assist in working with Dr. Mistie Barnes to implement a Play Therapy Community Counseling Center using grant funds from the Baxter International Corporation.

**Evaluation Procedures**  
The number of community children and their families seen in the play therapy counseling center.

**Actual Results of Evaluation**  
1. Two students completed their practicum and one-half of their internships in the play therapy lab. The grant paid tuition and stipends for these two interns who completed at least 480 hours of direct services to over 30 Delta children and their communities.

**Use of Evaluation Results**
The need for an ongoing establishment of a community counseling facility serving the children and the families of the Delta region has been established by this important play therapy clinic. An important piece of information relative to this effort is the inappropriateness of the space for a community counseling lab. The program will interact with University officials in an effort to find more appropriate space and funding for a community counseling lab.

**CEDP 2013_13: PSY Hire Train Faculty**

**Start:** 7/1/2012  
**End:** 6/30/2013

**Unit Goal**
Hire, train, and support a new PSY faculty member to replace faculty member who departed in spring 2011.

**Evaluation Procedures**
Course evaluations, in-class chair observations, annual chair evaluations, weekly meetings with program coordinator, and mentorship meetings with division chair.

**Actual Results of Evaluation**
One new faculty member began in fall 2012 (Dr. Zangaro). She has been fully integrated into our program as evidenced by responses and evaluations from students, faculty, and staff.

**Use of Evaluation Results**
Continue to develop and strengthen the program faculty. Continue to improve all division faculty in teaching, scholarship, and service.

**Related Items**
- SP3.Ind01: Faculty and staff hiring

---

**CEDP 2013_14: PSY Research Methods Redesign**

**Start:** 7/1/2012  
**End:** 6/30/2013

**Unit Goal**
Continue the process of assessing the redesign of PSY 102 (Psychological Tools) and PSY 201 (Research Methods). The redesign needs to be recalibrated and more comparative data are needed.

**Evaluation Procedures**
Grade distributions of PSY 332 (formerly PSY 201) in fall 2012, spring 2013, fall 2013, spring 2014, and fall 2014 as compared to previous semesters.

**Actual Results of Evaluation**
1. The redesign of PSY 102 (Psychological Tools) and PSY 201 (Research Methods) took place in spring 2010 and was partially implemented in fall 2010 with PSY 330 (Research Methods I) PSY 331 (Statistics) in spring 2011 and PSY 332 (Research Methods II) in fall 2011. Grade distribution data from 2006 to 2009 compared to data from 2010 to fall 2011 indicate that the redesign has been ineffective in increasing student pass rates (pre-redesign 75% pass rate compared to post-redesign 73% pass rate). However, the spring 2012 pass rate increased to 79% and the fall 2012 pass rate increased to 90%. The pass rate for spring 2013 was 75%. Due to the fact that PSY 330 and PSY 332 require intense writing and research components and the fact that many students have limited writing skills, the redesign was recalibrated to narrow the field of possible research topics for student research proposals. By doing so, students were provided with more scaffolding needed to write a research proposal. Since this was largely ineffective, the redesign has been recalibrated by changing the course sequence of PSY 330, 331, and 332. PSY 331 (Statistics) will be offered at the beginning of the sequence in order to allow students to take more topical psychology courses to learn more about psychology before being required to initiate a research proposal in PSY 330 (Research Methods I).

**Use of Evaluation Results**
Results will be used to modify the curriculum and PSY program in the future to improve student learning.

**Related Items**

**Start:** 7/1/2012  
**End:** 6/30/2013  

**Unit Goal**  
Encourage faculty to increase the number of online course offerings.  

**Evaluation Procedures**  
Number of online courses offered  

**Actual Results of Evaluation**  
1. There were three additional online courses (i.e., EPY 341, PSY 101, PSY 425) offered this year than last year.  

**Use of Evaluation Results**  
1. Results will be used to consider offering more online courses in order to make it more convenient for nontraditional students and distance students to take psychology courses.  

**Related Items**

CEDP 2013_16: PSY Scholarship Efforts  
**Start:** 7/1/2012  
**End:** 6/30/2013  

**Unit Goal**  
PSY Program faculty will engage in regular discussions about current research and publication efforts, including but not limited to: Journal article submissions and potential submissions, conference presentations, book chapters, and involvement of students in scholarly efforts.  

**Evaluation Procedures**  
Minutes of faculty meetings, presentations, and publication submissions.  

**Actual Results of Evaluation**  
1. Faculty presented at various professional conferences this year. While publications remain few, the regular research discussions at program meetings have made the faculty members more aware of actively pursuing publication opportunities. These discussions led to an idea to secure funding to purchase an iWorx Physiology Teaching Kit (EEG) in order to enrich the learning environment and increase in engagement in psychology classes. In a collaborative effort, the psychology faculty will use the kit to teach course material and collect data on the scholarship of teaching and learning. Collaborative presentations and publications should result from this effort. Dr. Drury and Dr. Hutchens have also continued to involve undergraduate psychology majors in faculty-mentored research. Dr. Hutchens' fall 2011 PSY 315 (Social Cognition) students conducted 5 empirical research projects. Three were presented as professional research presentations in 2012 at The Mid-South Psychology Conference (one student was awarded first place for Best Research Poster). One of Dr. Drury’s students also conducted a research project in 2011 and presented it as a professional research presentation at The Mid-South Psychology Conference in 2012.  

**Use of Evaluation Results**  
The program will engage in the refinement of the support system in order to facilitate individual and collaborative scholarship efforts.

CEDP 2013_17: PSY Quality Online Hybrid Courses  
**Start:** 7/1/2012  
**End:** 6/30/2013  

**Unit Goal**  
Continue to peer-review all online and hybrid courses using the Quality Matters rubric.  

**Evaluation Procedures**  
*Quality Matters* rubric (www.qualitymatters.org) will be used to peer-review all online and hybrid courses.  

**Actual Results of Evaluation**  
1. The *Quality Matters* rubric (www.qualitymatters.org) has continued to be used to peer-review all online and hybrid courses. This process has become standard practice. Faculty were given recommendations for improvement and course redesign. One major recommendation given to all faculty was to use the “Learning Module” tool in Blackboard to organize course materials.
assessments, assignments, and discussions. As a result, the PSY online/hybrid curriculum has become stronger and more organized.

**Use of Evaluation Results**
Results will be used to continue to modify online and hybrid curriculum in the future.

Brief Description

Judgment
☐ Meets Standards  ☐ Does Not Meet Standards  ☐ Not Applicable

Narrative

Counseling Program Mission Statement
The faculty and staff of the Delta State University Counselor Education Program through teaching, training, supervision, and experiential activity, develop ethical, competent counselors who are prepared to work in school or community settings. Program faculty seek to foster within students a life-long disposition toward respecting, caring for, and valuing individuals in all stages of development, cultural sensitivity, continued growth and learning, interpersonal openness, and practical application of sound principles and practices in their work as professional counselors.

Psychology Program Mission Statement
The Delta State University Psychology Program consists of committed, knowledgeable, and engaging faculty who represent a diverse selection of the subfields of psychology. The Program emphasizes excellence in instruction by providing a friendly environment, small classes and opportunities for students to develop intellectually, professionally and socially. The Psychology Program encourages significant student-faculty interactions which promote intellectual, cultural, ethical, and social development, allowing students to develop the ability to respect and evaluate the thoughts of others; to develop, assess, and express their own thoughts effectively; and to use the techniques of research and performance associated with the discipline of psychology. Through challenging coursework and one-on-one empirical research opportunities with faculty, students have the opportunity to develop the skills and competence in psychology needed for post baccalaureate careers or graduate school.

Note – Total CED enrollment over the past three years was 155 in 2010-11, 170 in 2011-12, and 182 in 2012-13. Three-year and two-year trend data indicate that CED enrollment increased 15% from 2010-11 to 2012-13 and increased 7% from 2011-12 to 2012-13. In order to increase retention, the CED program increased the fall and spring new student orientation from three hours to a day-long orientation and included a workshop on writing and plagiarism in order to address noticeable weaknesses in student writing. The orientation also gives students a clear program description in the spirit of thorough informed consent in order for the students to gain a better understanding of the nature of the program and expectations concerning rigor. The CED program also implemented new EDS counseling program which has helped increase enrollment. Even though trend data indicates that enrollment is increasing, the CED program will continue to have some attrition due to the gate-keeping function inherent in the ethics of counselor education. Total PSY enrollment over the last three years was 204 in 2010-11, 192 in 2011-12, and 151 in 2012-13. Three-year and two-year trend data indicate that PSY enrollment decreased 26% from 2010-11 to 2012-13 and decreased 21% from 2011-12 to 2012-13. As a result of this decreasing enrollment trend, the division has started engaging in more vigorous recruiting practices. In fall 2011, the division implemented an enrollment and retention plan developed by CEAC. This involves academic advisors personally contacting all advisees for early registration and then following up with advisees who do not sign up for advising. The practice is continued every semester. Moreover, another CEAC enrollment plan to better recruit students from community colleges was launched in 2012. This involved personally contacting school counselors at Mississippi community college, making personal connections, and providing the counselor with recruitment materials (i.e., the professional brochures). Additionally, the Psychology program created and submitted a proposal to develop a 2+2 Online Degree Program with Holmes Community College. If this proposal is approved and implemented, it will help increase enrollment. Accomplishing the following goals will help increase enrollment by major: CEDP 2014_01, CEDP 2014_05, CEDP 2014_07, and CEDP 2014_09.

The doctoral track in Counselor Education has been operational for several years and currently there are six students

Transfer Orientations

Total 321 525 1635 29 42 of 62

Note – CED CHP three-year trend data indicate a 4% increase from 2009 (1563) to 2012 (1635); two-year trend data indicate a 10% increase from 2011 (1467) to 2012 (1635). The increase of CHP in CED is associated with an increase in enrollment. PSY CHP three-year trend data indicate a 12% decrease from 2010 (2961) to 2012 (2610); two-year trend data indicate a 3% decrease from 2011 (2694) to 2012 (2610). The PSY three-year and two-year trend data may be due to the fact that students are taking fewer hours due to the current economic climate. EPY CHP three-year trend data indicate a 17% decrease from 2010 (1134) to 2012 (945); two-year trend data indicate an 8% decrease from 2011 (1032) to 2012 (945). The EPY trend data is related to enrollment in undergraduate and graduate programs outside of the Division. As a result of the PSY decreasing CHP trend, the division has started engaging in more vigorous recruiting practices. In fall 2011, the division implemented an enrollment and retention plan developed by CEAC. This involves academic advisors personally contacting all advisees for early registration and then following up with advisees who do not sign up for advising. The practice is continued every semester. Moreover, another CEAC enrollment plan to better recruit students from community colleges was launched in 2012. This involved personally contacting school counselors at Mississippi community college, making personal connections, and providing the counselor with recruitment materials (i.e., the professional brochures). Additionally, the Psychology program created and submitted a proposal to develop a 2+2 Online Degree Program with Holmes Community College. If this proposal is approved and implemented, it will help increase CHP. Accomplishing the following goals will help increase CHP: CEDP 2014_01, CEDP 2014_05, CEDP 2014_07, and CEDP 2014_09.

Division Graduates by

Note – Overall division graduation numbers increased from 2011-2012 (29) to 2012-2013 (38). This is an overall 24% increase. The implementation of the new EDS counseling program resulted in 8 additional CED graduates. CED increased from 12 to 20 (40%) while PSY increased from 17 to 18 (5%). CED three-year trend data indicate a 20% increase from 2010-2011 (16) to 2012-2013 (20). PSY three-year trend data indicate a 28% increase from 2010-
2011 (13) to 2012-2013 (18). Trend data indicate that graduate numbers are increasing despite the fact that the division experiences a significant amount of attrition due to the rigor of the psychology and counselor education programs. In order to help increase retention, the CED program increased the fall and spring new student orientation from three hours to a day-long orientation and included a workshop on writing and plagiarism in order to address noticeable weaknesses in student writing. The orientation also gives students a clear program description in the spirit of thorough informed consent in order for the students to gain a better understanding of the nature of the program and expectations concerning rigor. However, the CED program will continue to have some attrition due to the gatekeeping function inherent in the ethics of counselor education. The PSY program also continues to host a writing and plagiarism workshop (fall 2012) to address noticeable student writing weaknesses. Also, the PSY research methods and statistics redesign project should help increase graduation rates in the future. Additionally, the Psychology program created and submitted a proposal to develop a 2+2 Online Degree Program with Holmes Community College. If this proposal is approved and implemented, it will help increase graduate rates in the future. Accomplishing the following goals will help increase graduation rates: CEDP 2014_01, CEDP 2014_05, CEDP 2014_07, and CEDP 2014_09.

Section IV.c

Diversity Compliance Initiatives and Progress

Judgment
☐ Meets Standards  ☐ Does Not Meet Standards  ☐ Not Applicable

Narrative
Both the Counselor Education and Psychology programs continue to infuse diversity and a multicultural orientation within its students throughout the curriculum. Students have rich experiences in practicum, internship and service coursework to incorporate principles learned within didactic portions of their programs. The division has been intentional about developing diversity within the faculty. The division actively recruited candidates from diverse backgrounds during the spring 2010 and 2013 search and interview processes for counselor education faculty and one counseling laboratory director. However, several minority candidates declined interviews due to insufficient salary. Ms. Jemecia Calvin (African American female) accepted the counseling laboratory director position that started in August 2010 and Ms. Chaiqua Harris accepted a faculty position that started in spring 2013. CACREP standards dictate that the Counselor Education Program continues to adequately and comprehensively address diversity issues throughout the curriculum. In the spring 2012 faculty search, the Psychology program offered a psychology faculty position to a Chinese female, but she declined the offer due to insufficient salary. Also, an African American male interviewed on campus but later withdrew his name from consideration for similar reasons.
Section IV.d

Economic Development Initiatives and Progress

Judgment
☐ Meets Standards  ☐ Does Not Meet Standards  ☐ Not Applicable

Narrative
The Division of Counselor Education and Psychology is involved in economic development as it prepares students for careers in the helping professions and further graduate training. Currently, informal partnerships exist between Region I, Region V, and Region VI Community Mental Health Centers and the CED graduate program to offer advanced training for bachelor's level mental health workers within these agencies. As of this year, the majority of employed professionals within these Mental Health Centers are DSU Counselor Education program graduates. Anecdotal reports indicate that agency administration boast of the program being high quality. Master's level clinicians have substantial salary increases and with licensure, which is typically obtained by CED graduates two years beyond their degree (LPC – Licensed Professional Counselor), are able to remain competitive with other mental health professionals in the state. Assessments of employers of program graduates indicate that employers are extremely favorable toward the quality of graduates from this program.

School and Clinical Mental Health Counselor Education interns provide an invaluable contribution though their service in numerous K-12 schools (as school counseling interns) and mental health agencies (as clinical mental health counseling interns) as counselors as they practice skills and procedures learned during their formal training. Often, interns are hired into positions right out of their internship experiences. This service has a direct economic impact on the region because of the labor (largely at no cost) provided to school and agency recipients and for the value added to these institutions from well-trained employees.

The doctoral track in Counselor Education has been operational for several years and currently there are six students at various stages of study.

Both the Counselor Education and Psychology programs greatly enhance the literacy and communication skills of students in the written and spoken forms of communication. Critical thinking through rigorous research practices is also a skill and disposition students possess when exiting CED and PSY programs.

Narrative

- Internships – Counselor Education Program Faculty
  - CED students served at least 12,000 hours as interns in clinical mental health and school settings in 2012.
  - Over 180 counselors, social workers, teachers attended. The conference is held on the first Wednesday of April each year and has been named in memorial to Fred Woodall, who served as faculty and program coordinator for Counselor Education for many years.
  - 35 EDS and MA graduate student volunteers X average of 6 hours = 210 total hours
  - Student volunteer job duties
    - Conference preparation committee (create booklets & bags), set-up committee members, conference greeters, session moderators, post conference clean up committee, solicitors for door prizes, decorating committee, registration table workers, CSI sales workers, and banquet hosts
  - Accomplishments
    - With approximately 180 participants, the Woodall Conference set a new record of success. Attendees provided positive feedback before, during, and after the conference. Evaluations were on average marked for excellence. The student volunteers assisted in making the conference a seamless effort.

- PSY 425 Service Learning in Psychology – Dr. Scott Hutchens - Psychology Program
  - 13 PSY students served a total of 780 hours volunteering in the Delta community in fall 2012.

- The 32nd Annual F.E. Woodall Spring Conference for the Helping Professionals was held at DSU. The keynote speaker was the president of the American Counseling Association, Dr. Bradley Erford. – Counselor Education Program Faculty

Committees Reporting To Unit
Each unit includes in the annual plan and report a list of the committees whose work impacts that unit or any other aspect of the university; along with the list will be a notation documenting the repository location of the committee files and records. Committee actions affecting the unit’s goals may be noted in other applicable sections of the annual reports. Not required to be included in the unit’s annual plan and report, but required to be maintained in the repository location, will be a committee file that includes, for each committee: Mission and by-laws, Membership, Process, Minutes.

Judgment
☐ Meets Standards  ☐ Does Not Meet Standards  ☐ Not Applicable

Narrative
Committees Reporting to the Unit (Committee records archived in program coordinators’ computers and shared drive):
There are a few standing committees that regularly report to the division chair and are accountable to academic programs. These committees include the Counselor Education Curriculum Committee and the Psychology Curriculum Committee which review curricula, render decisions regarding course content and pedagogy, and submit course changes for program, division chair, CEAC and Academic Council review and ratification. The Counselor Education Retention Committee is convened in cases where students may not be progressing in an acceptable manner or demonstrate that dispositions are not in harmony with the values of the counseling profession. The Spring Conference Planning Committee is convened each year for the purpose of planning and executing the spring conference and meets in conjunction with faculty meetings which are held at least twice monthly. Chi Sigma Iota and Psi Chi, both student honor societies and advised by respective program faculty, each have student governed committees that oversee their work. All committees except the student honor committees keep minutes of their meetings which can be found in the division office and are housed electronically within the program coordinators’ computers and a shared drive.

Ms. Jemeca Calvin, Counseling Lab Director – Resigned August 2012  
Dr. Scott Drury, Psychology  
Ms. Chaiqua Harris, Counselor Education – Started January 2013  
Mr. John Hawkins, Counselor Education – Terminal Contract, May 2012  
Dr. Scott Hutchens, Psychology  
Dr. Christine McNichols, Counselor Education – Resigned December 2012  
Dr. Duane Shuttlesworth, Psychology  
Dr. Temika Simmons, Psychology  
Mrs. Becky Steed, Senior Secretary  
Dr. Karl Witt, Counselor Education – Resigned December 2012  
Dr. Sally Zengaro, Psychology – Started August 2012

**Noteworthy Activities and Accomplishments (administrators, faculty, sta):**

The Division of Counselor Education and Psychology has undergone significant transitions regarding personnel. But, during these changes, the Division has continued to make progress in strengthening existing pedagogy and developing resourceful approaches to teaching, research and scholarship, and service. Division faculty and staff are professionally active and dedicated to serving students and colleagues. The following presents highlights of division accomplishments and activities for the year:

**Counselor Education:**

- October 2012 - The Counselor Education Program had a successful CACREP reaccreditation site visit.  
- November 2012 - The Counselor Education Program submitted an extensive rejoinder in response to the CACREP accreditation report.  
- January 14, 2013 - The Council for Accreditation of Counseling and Related Educational Programs (CACREP), a specialized accrediting body recognized by the Council for Higher Education Accreditation (CHEA), has again granted accreditation to two master’s degrees in the Division of Counselor Education and Psychology at Delta State University. First accredited as a Master’s in Community Counseling in April of 1991, DSU’s renamed Clinical Mental Health Counseling degree (M.Ed.) has been accredited again until October 2020. DSU’s Master’s in School Counseling (M.Ed) has also been accredited until October 2020. The School Counseling Program was first accredited in April of 1997.

Delta State University’s Counseling Program, which is housed in the College of Education and Human Sciences, holds a statewide and regional reputation for excellence and looks forward to continuing its tradition of training new counselors as an accredited program for the next eight years.

- Dr. Barnes and Dr. McNichols submitted and were awarded an International Baxter Foundation grant.
  - Over 150 counselors, social workers, teachers, and other helping professionals attended the 31st Annual F.E. Woodall Spring Conference for the Helping Professions. The conference is held on the first Wednesday of April each year and has been named in memorial to Fred Woodall, who served as faculty and program coordinator for Counselor Education for many years. The event offered up to 6.5 continuing education hours for helping professionals and included a keynote address by the ACA president.
  - Over 180 counselors, social workers, teachers attended. The conference is held on the first Wednesday of April each year and has been named in memorial to Fred Woodall, who served as faculty and program coordinator for Counselor Education for many years.

Position(s) requested/replaced with justification

Judgment
☐ Meets Standards  ☐ Does Not Meet Standards  ☐ Not Applicable

Narrative
Two vacant positions will be filled for year 2013-2014:

Ms. Chaiqua Harris (Mississippi State University) was hired in spring 2013 to replace Dr. Karl Witt as Assistant Professor of Counselor Education (position #173)

A search is currently ongoing for the other Counselor Education position to replace Dr. Christine McNich as Assistant Professor of Counselor Education (position #1020). Note - The position has been changed to a 12-month Assistant/Associate Professor and Coordinator and Assessment Director of Counselor Education. If this position is filled from within the program, a new search for an Assistant Professor of Counselor Education 9-month faculty position will be initiated.
Section V.e

Recommended Change(s) of Status

Judgment
☐ Meets Standards  ☐ Does Not Meet Standards  ☐ Not Applicable

Narrative
Duane Shuttlesworth was granted tenure and promoted from the rank of Associate Professor to Professor Psychology. This will be effective during the 2013-2014 contract year.
Section VI.a

Changes Made in the Past Year

Judgment

☐ Meets Standards  ☐ Does Not Meet Standards  ☐ Not Applicable

Narrative

Faculty in both Counselor Education and Psychology programs continue to review and refine course curriculum. Psychology Program and curriculum changes continue to occur with the research methods redesign and the assimilation of one new faculty member. These changes continue to evolve and will continue to maintain high standards of teaching and research for the program.

Specific changes were:

- **Counselor Education Program**
  
  - CACREP Site Visit Completed and accreditation awarded.
  - Master’s Program made changes to meet 2009 CACREP Standards
    - Proposal for curriculum changes to the school counseling master’s program to bring it in alignment with the 2009 CACREP Standards (Proposal was submitted to MDE in summer 2011 and approved in late spring 2012. Changes will go into effect in the 2012-2013 academic year)
      - Addition of CED 620 (Human Growth and Development) to the list of required core courses
      - Removal of EPY 601 (Psychology of Learning), CUR 609 (Historical Foundations of Educational Thought and Curriculum Development), and CSP 616 (Behavioral and Instruction Management) from the list of required course courses.
      - Addition of two additional counseling electives
        - Electives to choose from are CED 622, 714, 715, 713, 718, and 770.
    - Course change proposals (submitted in spring 2012)
      - Cross list CED 801 (Advanced Counseling Theory) as CED 801/701
      - Change CED 622 (Play Therapy) to CED 722
    - Developed portfolio assessment for the counseling master’s program.
    - Developed Ed.S. student handbook.
    - Developed a play therapy training center.

- Barnes, M. D. & McNichols, C. (Submitted June 24, 2011; Awarded December 2011) *Play Therapy Training Clinic*. International Baxter Foundation. Awarded amount was $70,038 for the period of January 2012 – December 2013:
  - Enforced university admissions requirement policy of passing the CAAP test.

- **Psychology Program**
  
  - The research methods redesign (PSY 330, PSY 331, and 332) was recalibrated.
    - Narrowed field of possible research projects.
    - Explored the use of canned research projects to ensure that students conduct appropriate doable projects.
Section VI.b

Recommended Changes for the Coming Year

Judgment

☐ Meets Standards  ☐ Does Not Meet Standards  ☐ Not Applicable

Narrative

• Counselor Education Program
  - Develop assessments according to NCATE standards for the new Ed.S. counseling program.
    - Syllabi
    - Assignments
    - Rubrics
  - Create at least three more hybrid/online classes. Continued development of portfolio assessment for the counseling master’s program.
    - Instructions
    - Rubrics
    - TaskStream
  - Hire a 12-month program coordinator and assessment director.
  - Program Evaluation of the first full year and graduates of the Ed.S. school counseling track

• Psychology Program
  - Continued recalibration or research methods redesign (PSY 330, 331, and 332)
    - Explore the use of canned research projects to ensure that students conduct appropriate doable projects.
    - Change the sequence of PSY 330, 331, 332 to PSY 331, 330, 332. That is, PSY 331 (statistics) will be taken before PSY 330 in order to allow students be exposed to more psychology topical courses before having to beginning a research proposal in PSY 330.
