DID YOU KNOW?

- October 30th is National Candy Corn [Day](#)
- [M&Ms](#) were introduced to American GIs in 1941 during WWII. The candy didn't receive its "M" imprint until 1950. The first color was brown, while yellow, green, red, and orange followed, but the color blue wasn't released until 1995.
- The [Hershey Kiss](#) is believed to have gotten its name from the sound the machine makes when producing the tiny candy.
