Alternative Courses:

You may not register or drop required courses without permission from your advisor. Failure to schedule or drop these courses without concurrence of your advisor may result in suspension of web registration privileges and priority in registering.

Delta State uses EFT (Electronic Fund Transfer), which automatically posts approved financial aid towards your student account. If you pre-register and do not intend to return to Delta State for the pre-registered semester, you must drop your classes online or notify the registrar, student business services, or financial aid office in writing. You must also notify housing for your housing refund. Failure to do so will result in charges to your account.

Do not "NO SHOW" in your classes. If you do not attend classes in which you are enrolled, you will be responsible for the charges incurred on your account.
