A BROADCAST SERVICE OF DELTA STATE UNIVERSITY

88.1 WDSW THE TRAIL

- A BROADCAST SERVICE OF DELTA STATE UNIVERSITY -

WHAT IS UNDERWRITING? IS IT ADVERTISING?

Underwriting is different from advertising. Since WDSW is a non-commercial radio station, by law we are not able to advertise in the manner you hear on television or commercial radio stations above 92mhz on your FM dial. The closest similarity you can find is on National Public Radio stations with how they handle underwriting. We must do it in a very similar manner.

Underwriting has slightly different nuances in how your message is crafted. However, you can be just as effective in getting your message out to your target audience for a fraction of the cost.
