DELTA STATE UNIVERSITY

Unit Strategic Plan and Annual Report – Calendar Year 2015-16

___X___Academic Unit _____ Administrative/Support Unit

I. Unit Title: Division of Counselor Education and Psychology

School/College or University Division: College of Education and Human Sciences

Unit Administrator: Dr. Sally A. Zengaro

Program Mission:

Counseling Program Mission Statement

The faculty and staff of the Delta State University Counselor Education Program through teaching, training, supervision, and experiential activity, develop ethical, competent counselors who are prepared to work in school or community settings. Program faculty seek to foster within students a life-long disposition toward respecting, caring for, and valuing individuals in all stages of development, cultural sensitivity, continued growth and learning, interpersonal openness, and practical application of sound principles and practices in their work as professional counselors.

Psychology Program Mission Statement

The Delta State University Psychology Program consists of committed, knowledgeable, and engaging faculty who represent a diverse selection of the subfields of psychology. The Program emphasizes excellence in instruction by providing a friendly environment, small classes and opportunities for students to develop intellectually, professionally and socially. The Psychology Program encourages significant student-faculty interactions which promote intellectual, cultural, ethical, and social development, allowing students to develop the ability to respect and evaluate the thoughts of others; to develop, assess, and express their own thoughts effectively; and to use the techniques of research and performance associated with the discipline of psychology. Through challenging coursework and one-on-one empirical research opportunities with faculty, students have the opportunity to develop the skills and competence in psychology needed for post baccalaureate careers or graduate school.

sit for the exam while they are in their last semester of coursework in the program or one year of their graduation from the program.

2. Scores from the CPCE are generated through the Center for Credentialing in Education (CCE), an affiliate with the National Board of Certified Counselors (NBCC) which generates the scores for the NCE. The CPCE scores are generated each semester. and the NCE scores are generated twice a year in the spring and fall. The **CPCE** test summary provides descriptive statistical data to compare program results with national results: the NCE also has national data with comparisons with CACREP and non-CACREP programs. **3.** Data from test results are distributed to faculty for review in preparation for a

discussion in a faculty

meeting (or multiple

Thirteen students took the graduate student administration of the NCE. Seven passed and six did not for a 54% pass rate. This is a slight decrease from last year's 67% pass rate (where only three took the test with two passing). However, it is higher than the 2013-14 pass rate of 40%.

Supervision Assist for the 2016-17 academic year. Supervision Assist will provide comprehensive access to site placement, supervision, and document uploading. Taskstream was difficult for students to use effectively because students were not able to upload elements each semester for their portfolio. The portfolio had to be uploaded as one document at the end of their counseling coursework. In the meantime, data are kept in spreadsheets.

To address pass rates, the faculty have created a Canvas classroom for students to prepare on the CPCE and the NCE. Faculty are also conducting two review sessions per month. Students are asked to purchase an NCE/CPCE preparation book as a text for the classes. Without requiring the test prep book, students reported they did not review for the test.

	In addition to the above	evaluated.	The didactic portion of the

observations, in 2010, the counseling faculty decided to pilot a counselor dispositions rubric. This rubric has been court-tested and used for several years at the College of William & Mary in Maryland. The faculty implemented it in Spring 2011and adopted it in Fall 2011. As a result all CED students undergo evaluation of professional dispositions twice each semester with feedback given to them either by the instructor of CED 604 Counseling Pre-practicum or their advisor.

internship is also being increased.

In Spring 2015, the program made program adjustments to move to a cohort model with CED 600, CED 601 and CED 630 as the first semester courses. However, the faculty determined that delaying CED 601 Counseling Theory until after the first semester was better so that students had a better grasp of the profession before studying theory. Therefore, the cohort model of CED 600, CED 630, and CED 635 as the first semester courses will be used going forward. This should make the semester schedule more predictable and keep students on pace with their peers as they progress through the program.

MED-COU 04. Counseling students will demonstrate an alignment with the counseling profession through proof of membership in a professional organization. Counseling students will demonstrate familiarity with research and present at professional conferences.

SP - 1.05; QEP - 1, 3, 4

Students are required as part of their internship experiences (CED 610 or CED 619) to present at a professional conference. Many take the opportunity to present at the F.E. Woodall Annual Spring Conference or the state's Mississippi Counseling Association (MCA) conference.

Students are observed and/or required to submit documentation of these presentations. This year, there was a large number (34) in CED 609, 610, and 619, so Flashtalks were incorporated this year. They are designed to be brief talks similar to TED talks. In 2016, 28 students presented Flashtalks. In addition, one student presented at the Mississippi Counseling Association annual meeting, and one student conducted an in-service presentation at the agency where she was working.

This continues to be an ongoing requirement in the program. Faculty actively recruit students to become members of state and national professional organizations (MCA, ACA).

Students are now required to have faculty sponsors as they submit materials for consideration as presentations for professional conferences.

Faculty decided to add poster sessions as an acceptable option during the Woodall Conference in 2013 and Flashtalks in 2016.

Students will receive supervision from DSU faculty who will evaluate advanced skills. In addition, students will complete the paper started in CED 717 showing implementation and results as	enhancement. All students passed their counseling practica. Evaluations of examinations and research project proposals in both core classes (CED 717 and CE 735) showed that students were viewing program enhancement through the lens of the ASCA model.	One challenge to be faced is a requirement by MDE upon the local school districts. A new Professional School Counselor evaluation was created and piloted around the state during the school year. Most of the PSCs in the Delta were not trained on the evaluation due to
	the installation, maintenance	<u> </u>	

	they have moved their campus counseling program toward the ASCA school counseling model.		training cancellations because of inclement weather. The evaluation, the M-CAR, is scheduled to go live for the 15/16 year. Most remain untrained. A training is offered in July at a cost per participant of \$50 and will be at the Beau Rivage in Biloxi, making this an unobtainable option for DSU students due to cost of training and associated travel. Faculty have adapted the program to address the M-CAR and to help students understand the process of evaluation, which should help prepare them.
EDS-COU 04. Mastery of Supervision Strategies: Demonstrate knowledge and skills related to performing effective and ethical counselor supervision. SP – 1.03, 1.05, 1.06	Students will demonstrate knowledge by passing tests within the class semester. Also students will demonstrate ability by providing tapes of counseling supervision processes (a rubric will be developed).	Students were not able to tape and submit videos that would ensure HIPAA compliance. They submit case studies in CED 790 and engage in ex-post facto supervision where they see students and then discuss the cases with the	Results of comprehensive exams for the Ed.S. for Fall 2015 and Spring 2016 continue to be excellent. Students have grown in writing ability and in the ability to conceptualize larger programmatic and school issues that impact

The instructor of record will be the primary evaluative source for this. However, the entire faculty assist in supervising counselor supervisors and will have evaluative input.	faculty member. All students (7) passed the course in 2015-16. All students received 100% on the case studies.	closing the gap on student achievement. They can speak well to their abilities regarding program evaluation and interventions. The Ed.S. program, in its encompassing nature, allows the student to build toward the comprehensive through all four core courses. The comprehensive exam is research/practice based and has worked well as a measure of professional growth.

Describe how the data from these tools and/or methods will be/have been collected. 3. Explain the procedure to analyze the data.	unuiysis!	2. Describe changes in curriculum, courses, or procedures that are proposed or were made/ are being made as a result of the program learning outcome assessment process.

EDD-COU 01. Content and Pedagogical Content Knowledge: Demonstrate mastery of the prior knowledge needed to be successful in the Doctor in Education program. SP – 2.01	1. A Doctoral Admission Portfolio will be used. The portfolio will include a professional resume/vita, writing samples, personal philosophy of education/ theory of teaching and learning, self-evaluation aligned with personal and professional goals, evidence of leadership ability, and a statement of purpose for pursuing doctoral study. A 4- point rubric is used to evaluate the portfolio. 2. The portfolio will be submitted within the first six hours in the program. 3. Average scores and pass rate percentages will be calculated.	One candidate submitted a portfolio in Summer 2015 for the Ed.D. Counseling track. It was accepted. One student who had been taking coursework while working on her portfolio was denied admission. There was only one more student who continued taking three hours each semester.	With one student, no program changes were made. With one student, no new assessment data were collected or evaluated in order to make necessary changes. Efforts to recruit more qualified students for the Counseling Track of the Ed.D. program resulted in three applicants to the program in 2014-15 who took courses in the spring while working on their portfolios. Two students were subsequently admitted while one was denied admission due to her GRE score. There are no plans to admit anyone else until a cohort forms.
EDD-COU 02. Program Specific Content: Demonstrate mastery of the knowledge associated with content in Counselor Education. SP – 1.03, 1.05, 1.08	1. Comprehensive Examinations: Comps will be taken at the end of the program by all candidates and must be passed in order to register for ELR 888 (<i>Dissertation Seminar</i>). They will be divided into 3	One counseling student took comprehensive exams in this reporting period and passed to become ABD.	Since only one student took comprehensive exams, no program changes were made. Program evaluations will be more appropriate when more students take comps.

	sections: research, curriculum, and supervision and based upon the core program courses and scored by program faculty. 2. Results will be compiled and analyzed by program faculty and reported to the Unit Assessment Director and the NCATE Coordinator annually. 3. Results will be analyzed by program faculty by section and overall scores and trends are identified.		Efforts to recruit more qualified students for the counseling track of the Ed.D. program have been suspended. Faculty have explored online/hybrid delivery methods for the program in order to better market the program to nontraditional students. The initiation of the Ed.S. program has created a better pipeline for more students to enter the counseling track of the Ed.D.
EDD-COU 03. Advanced Counseling Skills: Demonstrate advanced skills as a counselor in the current place of counseling practice. Advanced skills include additional knowledge and counseling techniques beyond the master's degree. SP – 1.05, 1.08	Advanced counseling practicum and internship are times when students are under DSU faculty supervision. Faculty form collaborative consulting relationships with these students to encourage professional growth and assess the students' application of advanced knowledge and skills in the	There were two students in the Advanced Counseling Practicum and Internship Classes for the Ed.D. during the 2015-16 year.	There are evaluative efforts and changes occurring in both the M.Ed. and the Ed.S. programs that have impacted the Ed.D. experiential classes. However, only one student was enrolled in each course, so program evaluation is difficult to conduct based on one person.

	workplace and in the university classroom.		Two counseling track Ed.D. courses were offered in this reporting period. The courses were offered Spring 2016 and were stacked with other courses to make a full load. No other program changes occurred because of the low number of students.
EDD-COU 04. Mastery of research techniques and academic writing (dissertation): Demonstrate the ability to create a research question relevant to the counseling literature; design the appropriate research methodology; collect and analyze the data; and, report the findings in a manner conducive to enhancing the counseling literature. SP – 1.03, 1.05, 1.06	Students will complete the dissertation. Starting the dissertation process in ELR 888, students will work with faculty to complete a meaningful research project that will contribute to the counseling literature.	Currently, there are three counseling students in various stages of the process. One student awaits comprehensive exams, but has not responded to repeated inquiries about taking comprehensive exams. One expects to defend soon.	Students have been assigned committees and are expected to interact with their chair and committee. Efforts to recruit qualified students for the counseling track of the Ed.D. program have been suspended because of low enrollment in the program.

II.d. Student Learning Outcomes Assessment Plan / User Outcomes Assessment Plan (Psychology B.A. Program)

Table I: Learner Outcomes identified for the major and for student services and support.

Note – The Psychology Program Curriculum Committee discontinued the use of the GRE to assess student progress. As of Spring 2010, the Major Field Test in Psychology (MFT PSY) has been used to assess students in PSY 490 (Senior Seminar). The MFT PSY assessment is more accessible (i.e., administered online at DSU) and is a more precise and useful indicator because sub-scores and assessment indicators for different areas of psychology are provided and compared to national data.

	Student Research and Presentation Production	
	Psychology students conducted a good number of research projects. Five students	Tests were reduced to
	registered for PSY 493 Independent Research. This year, seven undergraduate	less than .50 the final
	students attended the Southeast Psychological Association (SEPA) annual meeting	grade.
	and presented their perspectives on the shooting which took place at DSU.	
		In spring 2016, the
		course was further

	changed to place more
	weight on research
	projects that were
	carried out and reported
	on.
	Research Methods
	Redesign:
	The redesign has been
	ineffective in
	increasing student pass
	rates. It was determined
	that students were
	taking PSY 330
	(Research Methods I)
	too early in the course
	sequence to have
	appropriate knowledge
	to begin a research
	paper. Thus, the
	redesign has been
	recalibrated again by
	changing the course
	sequence to PSY 331
	(Statistics) first, and
	then take PSY 330 and
	332. Pushing PSY 330
	back a semester allows
	students to take other
	topical psychology
	courses and learn more
	about psychology
	before taking PSY 330.
 •	

	However, putting PSY
	331 Statistics first has
	not resulted in
	increased pass rates in
	this class, and students
	are receiving the lowest
	grades historically in
	statistics now.
	Note – Around ten
	years ago PSY 493
	(Independent Research)
	was developed to give
	students an opportunity
	to take a course solely
	devoted to conducting
	research and writing an
	APA research paper.
	The course was
	productive in the past.
	However, the intensive
	nature of the course is
	not conducive to an
	enrollment of 10 or
	more. As a result, due
	to budget constraints
	over the last six years,
	PSY 493 has not been
	able to be offered as
	part of a faculty
	member's course load.
	Thus, PSY 493 has
	only been offered

---	--	---

III. Goals

-- For the Current Year (2016)

Division Goals (2016)

CEDP 2016_01: The division, through targeted recruitment and innovative course/program offerings, will increase overall enrollment in the undergraduate and graduate program by 1%. The division will continue to

monitor market demand and trends, and recruit strategically through the university admissions office, the community college system, and interest meetings for targeted populations. Retention efforts will focus on the advisement system, with the practice of contacting advisees to encourage them to register for courses and following up with students who did not register and providing need support. This will involve tracking student enrollment in a semester by semester practice. - Goal modified and continued from previous year.

- 1. Institutional Goal(s) supported by this goal: SP Goals #1.03, 1.06, 2.01, & 2.02, 2.03, QEP Goal # 1, 2, 3, & 4, and COE Strategic Plan: #3 Enrollment, Recruitment, and Retention.
- **2. Evaluation Procedure(s):** Review of enrollment from Institutional Research and Planning and retention reports. Track the number and type of productive recruitment efforts.
- 3. Actual Results of the Evaluation: Total CED enrollment over the past three years is 260 in 2013-14, 279 in 2014-15, and 221 in 2015-16. Three-year trend data indicate that CED enrollment decreased 15% from 2013-14 to 2015-16; however, total CED enrollment has increased 21% since 2012-13, when enrollment was 182. In order help increase retention, the CED program increased the fall and spring new student orientation from three hours to a day-long orientation and included a workshop on writing and plagiarism in order to address noticeable weaknesses in student writing. The orientation also gives students a clear program description in the spirit of thorough informed consent in order for the students to gain a better understanding of the nature of the program and expectations concerning rigor. The CED program has also refined the first two semesters of course work so that students enter with a cohort and take the same classes. The CED program also implemented an EDS counseling program which has helped increase enrollment. Even though trend data indicates that enrollment is increasing, the CED program will continue to have some attrition due to the gate-keeping function inherent in the ethics of counselor education and as students begin their practica courses. However, even though enrollment for CED appears flat from Fall 2015 to Spring 2016, this does not take into account that 15 graduated in December, so there was an increase of 16 students in from Fall 2015 to Spring 2016, although this is not as large as the December 2013 to January 2014 enrollment increase.

Total PSY enrollment over the last three years was 151 in 2012-13, 173 in 2013-14, 175 in 2014-15, and 172 in 2015-16. Three-year and two-year trend data indicate that PSY enrollment increased 14% from 2012-13 to 2015-16 and decreased 2% from 2013-14 to 2015-16. Because of a past decreasing enrollment trend, the division has engaged in more vigorous recruiting practices. In Fall 2012, the division continued an enrollment and retention plan developed by CEAC. This involves academic advisors personally contacting all advisees for early registration and then following up with advisees who do not sign up for advising. The practice is continued every semester. Additionally, the Psychology program created and submitted a proposal to develop a 2+2 Online Degree Program with Holmes Community College. The proposal has been approved and implemented; however, no one has signed

up for any courses to date. Also, faculty have been active at all recruitment fairs on and off campus. One past trend to note is that in years when there are larger numbers of graduates, the following years often see a temporary decline in enrollment. In addition to recruiting efforts, faculty began examining curriculum in an effort to identify roadblocks to student success. Faculty have been looking at ways to make the curriculum more applied. A Certificate of Applied Industry has been added to help majors become more employable in the business field. Accomplishing the following goals will help increase enrollment by major: CEDP 2016_01, CEDP 2016_04, CEDP 2016_06, and CEDP 2016_11.

4. Uses of Evaluation Results: Results are used to evaluate effective methods of recruitment in order strengthen the Counselor Education and Psychology Programs. The division works closely with the Graduate Office and Admissions to develop recruitment plans and develop retention plans through advisement and monitoring.

CEDP 2016_02: The Division will continue to implement the recommendations from the Division Data Integrity Committee concerning data integrity policy and process. In doing so, the division will be in compliance with the University's "Data Integrity" Policy. – Goal modified and continued from previous year.

- 1. Institutional Goal(s) supported by this goal: SP Goal # 4.10 and COE Strategic Plan: # 1 Quality.
- **2. Evaluation Procedure(s):** Maintain minutes from the Division Data Integrity Committee and agendas/sign-in sheets from training session.
- **3. Actual Results:** The division implemented a policy for managing sensitive data in accordance with the University's "Data Integrity" Policy and integrity in data collection, analysis, and use. The policy will be maintained each semester. According to the policy, student files are to be kept in a file cabinet in a room off the main office. Advisors are to keep files in the file cabinet.
- **4. Uses of Evaluation Results:** Division capacity will be increased through effective use of data to make data-driven decisions.

Counselor Education Program Goals (2016).

CEDP 2016_03: Continue assessment and planning for ongoing CACREP and CAEP reaccreditation. Specifically, continue to implement and evaluate assessment plan submitted to CACREP after the Fall 2012 site visit.

- 1. Institutional Goal(s) supported by this goal: SP Goals # 1.08 & 4.09, QEP Goals # 1 & 4, and COE Strategic Plan: # 1 Quality.
- **2. Evaluation Procedures:** Accreditation was certified by CACREP in spring 2013. Clear concise means of self-study through and ongoing assessment plan for both the MEd Programs and the EdS program.

- 3. Actual Results A review of Taskstream shows that most data have been collected, but students continued to struggle with the uploading of documents. Therefore, data have continued to be collected through both Taskstream and spreadsheets. Complete implementation of Taskstream has been difficult, particularly with the comprehensive assessment of the program portfolio. There is not an option to upload documents to the portfolio as they are completed in the program; students must retain them to the end of the program, and portfolios must be uploaded as one document upon completion of the program. Supervision Assist will assist in the collection of data for the portfolio because it is also a central repository for portfolios in addition to being a central repository for verification of field experiences.
- **4. Use of Evaluation Results:** Reports are available for program evaluation by program faculty, DSU administration, and outside stakeholders. Faculty continue to gather data and report in Taskstream, Canvas, and to the Program Coordinator and Division Chair.

CEDP 2016_04: Program faculty matriculate students through the Ed.S. in Counseling with school concentration. Program Enhancement and Evaluation.

- 1. Institutional Goal(s) supported by this goal: SP Goals # 1.08, 2.01, & 2.04, QEP Goals # 1 & 4, and COE Strategic Plan: # 1 Quality and # 3 Enrollment, Recruitment, and Retention.
- 2. Evaluation Procedure(s): Course curriculum, admissions process, and enrollment
- 3. Actual Results: The goal was to continue populating the Ed.S. program with cohorts of 10 to 12 students taking the four core courses. During 2014-15, four students were admitted to courses in the fall, and six were admitted in the spring. In order to maximize faculty efforts, the decision was made to accept students only during fall enrollment. This meant that six continued in Fall 2015, but no new students were admitted in the spring so that the Fall 2016 class would be large enough for faculty to teach without having small loads or stacking classes. The Fall 2016 class is already 50% larger than Fall 2014.
- **4. Uses of Results:** Faculty meeting minutes and data collected in databases and on Taskstream reflect discussions to enhancement program enrollment. These discussions resulted in the change to admitting students once a year so that classes would be large enough to sustain the program. Program projects continue to show success in meeting learning objectives in transforming schools.

CEDP 2016_05: Program faculty will continue to engage in regular discussions about current research and publication efforts including but not limited to: Journal article submissions and potential submissions, conference presentations, book chapters, and involvement of students in scholarly efforts. – Goal continued and modified from previous year.

- 1. Institutional Goal(s): SP Goal # 3.09, QEP Goals # 1 & 3, and COE Strategic Plan: # 1 Quality, # 2 Research, and # 5 Identity.
- 2. Evaluation Procedures: Minutes of bi-weekly faculty meetings, presentations, and publication submissions.
- **3. Actual Results:** Faculty were involved in 20 publications and presentations. Drs. Beals, Westfall, and Zengaro had a joint presentation at the Southeastern Psychological Association with several psychology students. Dr. Pannel successfully defended her dissertation Spring 2016.
- **4. Uses of Results:** The program will engage in the refinement of the support system in order to facilitate individual and collaborative scholarship efforts.

CEDP 2016_06: Program faculty will review at least two more courses that are suitable for hybrid or fully online offerings and will have syllabi and peer-review for offerings in coming semesters. The program will consider a marketable alternative hybrid program as it continues to grow in online technology.

- **1. Institutional Goals:** SP Goals # 1.08, 2.01, & 5.01, QEP Goal # 2, and COE Strategic Plan: # 3 Enrollment, Recruitment, and Retention.
- 2. Evaluation Procedures: Scheduling and review of at least two hybrid or on-line courses.
- **3. Actual Results**: Faculty offered two fewer online options Fall 2015 compared with Fall 2014. There was concern among Counselor Education faculty that increased online course offerings would not only represent a major program change for CACREP but also would dilute the quality of the program since faculty would have fewer opportunities to physically see students in their classrooms.
- **4. Uses of Results:** While more master's courses will not be moved online, EDS courses are online. Increased recruitment for the EDS will emphasize online options for this degree.

CEDP 2016_07: Program faculty will assist in working with Dr. Mistie Barnes to implement a Play Therapy Community Counseling Center.

- 1. Institutional Goal(s) supported by this goal: SP Goals # 4.03 & 5.06, QEP Goals # 1 & 4, and COE Strategic Plan: # 1 Quality.
- **2. Evaluation Procedure(s):** The number of counseling hours provided to community children and their families in the play therapy counseling center.
- **3. Actual Results:** Counseling interns will complete hours sufficient for their community counseling internship requirements which will provide at least 480 hours of direct services to Delta children, families, and individuals. The division did not apply for grant funds to establish a community counseling center; however, counselor education faculty continue to have an increased role in supervising interns in the play therapy center.

4. Uses of Evaluation Results: The ongoing establishment of a funded community counseling facility serving the children, and the families of the Delta region.

CEDP 2016_08: Hire, train, and support three new CED faculty to replace faculty departing Fall 2014 and Spring 2015.

- 1. **Institutional Goal(s) supported by this goal:** SP Goal # 3.01, QEP Goals # 1 & 4, and COE Strategic Plan: # 1 Quality.
- 2. **Evaluation Procedure(s):** Course evaluations, in-class chair observations, annual chair evaluations, weekly meetings with program coordinator, and mentorship meetings with division chair.
- 3. **Actual Results of the Evaluation:** Three new faculty members were hired for Fall 2015. They have become fully integrated and supported members of the program faculty.
- 4. **Use of Evaluation Results:** Experienced faculty continue to develop and support the newly hired program faculty. New faculty were mentored through the COEHS and the division.

Psychology Program Goals (2016)

PSY 2016_09: Continue the process of assessing the Research Methods Redesign. The redesign will be recalibrated by changing the course sequence of PSY 330, 331, and 332. PSY 331 (Statistics) will be offered at the beginning of the sequence in order to allow students to take more topical psychology courses to learn more about psychology before being required to initiate a research proposal in PSY 330 (Research Methods I). — Goal modified and continued from previous year.

- 1. Institutional Goal(s) supported by this goal: SP Goals # 1.08, 2.02, & 2.03, QEP Goals # 1 & 4, and COE Strategic Plan: # 1 Quality.
- **2.** Evaluation Procedure(s): Grade distributions of PSY 332 in fall 2013, spring 2014, fall 2014, spring 2015, and fall 2015 spring 2016 as compared to previous semesters.
- 3. Actual Results: The PSY program recommended using Statistics at the beginning of the sequence. The redesign implemented in fall 2010 was recalibrated fall 2014. It was predicted that it will be a year and a half until representative comparative data are available. However, at the moment, there does not appear to be a clear pathway for student success. The overall grades in the last course in the sequence (PSY 332) have increased as well as have the scores on the Methodology portion of the MFT (an increase of nine points in six years). However, the grades on both PSY 330 and PSY 331 have declined over the past three years. The grades in PSY 331 have gone from 79% in 2013-14 to 0.68 in 2015-16. The grades in PSY 330 have decreased from 80% to 76% from 2014-15 to 2015-16.

4. Uses of Evaluation Results: The Psychology Curriculum Committee is continuing to examine ways to improve performance in these classes since they are a required core to other courses.

PSY 2016_10: PSY Program faculty will engage in regular discussions about current research and publication efforts, including but not limited to: Journal article submissions and potential submissions, conference presentations, book chapters, and involvement of students in scholarly efforts. – Goal continued from previous year.

- **1. Institutional Goal(s):** SP Goal # 3.09, QEP Goals # 1 & 3, and COE Strategic Plan: # 1 Quality, # 2 Research, and # 5 Identity.
- 2. Evaluation Procedures: Minutes of faculty meetings, presentations, and publication submissions.
- 3. Actual Results: Psychology faculty had a total of 12 presentations and publications for the academic year.
- **4. Uses of Results:** The program continues to encourage student participation in research through courses and independent research.

PSY 2016 11: Implement one new certificate or concentration for students majoring in psychology.

- 5. **Institutional Goal(s) supported by this goal:** SP Goals # 1.08, 2.01, & 5.01, QEP Goal # 2, and COE Strategic Plan: # 3 Enrollment, Recruitment, and Retention.
- 6. **Evaluation Procedure(s):** New certificate appears in course catalog.
- 7. **Results of the Evaluation:** The psychology presented and received approval for the certificate in Applied Psychology of Industry.
- 8. Use of Evaluation Results: Faculty continue to examine career paths for students receiving a B.A. in psychology.

For Coming Year(s) (2017)

Division Goals (2017)

CEDP 2017_01: The division, through targeted recruitment and innovative course/program offerings, will increase overall enrollment in the undergraduate and graduate program by 1%. The division will continue to monitor market demand and trends, and recruit strategically through the university admissions office, the community college system, and interest meetings for targeted populations. Retention efforts will focus on the advisement system, with the practice of contacting advisees to encourage them to register for courses and following up with students who did not register and providing need support. This will involve tracking student enrollment in a semester by semester practice. - Goal modified and continued from previous year.

- 1. Institutional Goal(s) supported by this goal: SP Goals #1.03, 1.06, 2.01, & 2.02, 2.03, QEP Goal # 1, 2, 3, & 4, and COE Strategic Plan: # 3 Enrollment, Recruitment, and Retention.
- **2. Evaluation Procedure(s):** Review of enrollment from Institutional Research and Planning and retention reports. Track the number and type of productive recruitment efforts.
- **3. Expected Results:** Enrollment and retention will increase.
- **4. Anticipated/Intended Uses of Evaluation Results:** Results will be used to evaluate effective methods of recruitment in order strengthen the Counselor Education and Psychology Programs. The division will work closely with the Graduate Office and Admissions to develop recruitment plans and develop retention plans through advisement and monitoring.

CEDP 2017_02: The Division will continue to implement the recommendations from the Division Data Integrity Committee concerning data integrity policy and process. In doing so, the division will be in compliance with the University's "Data Integrity" Policy. – Goal modified and continued from previous year.

- 1. Institutional Goal(s) supported by this goal: SP Goal # 4.10 and COE Strategic Plan: # 1 Quality.
- **2. Evaluation Procedure(s):** Maintain minutes from the Division Data Integrity Committee and agendas/sign-in sheets from training session.
- **3.** Expected Results: The division will be in compliance with the University's "Data Integrity" Policy and integrity in data collection, analysis, and use will increase and be maintained.
- **4. Anticipated/Intended Uses of Evaluation Results:** Division capacity will be increased through effective use of data to make date-driven decisions.

Counselor Education Program Goals (2017).

CEDP 2017_03: Continue assessment and planning for ongoing CACREP and CAEP reaccreditation. Specifically, continue to implement and evaluate assessment plan submitted to CACREP after the Fall 2012 site visit.

- 1. Institutional Goal(s) supported by this goal: SP Goals # 1.08 & 4.09, QEP Goals # 1 & 4, and COE Strategic Plan: # 1 Quality.
- **2. Evaluation Procedures:** Accreditation was certified by CACREP in spring 2013. Clear concise means of self-study through and ongoing assessment plan for both the M.Ed. Programs and the Ed.S. program.
- **3.** Expected Results A complete review of syllabi and implementation of appropriate databases, TaskStream, and Supervision Assist that shows adequate data collection. Analysis of available data toward an enhanced learning environment. Supervision Assist will assist in the collection of data for the portfolio because it is also a central repository for portfolios in addition to being a central repository for verification of field experiences.

4. Anticipated/Intended Use of Evaluation Results: Reports are available for program evaluation by program faculty, DSU administration, and outside stakeholders. Faculty will continue to gather data and report in Taskstream, Canvas, and to the Program Coordinator and Division Chair.

CEDP 2017_04: Program faculty matriculate students through the Ed.S. in Counseling with school concentration. Program Enhancement and Evaluation.

- 1. Institutional Goal(s) supported by this goal: SP Goals # 1.08, 2.01, & 2.04, QEP Goals # 1 & 4, and COE Strategic Plan: # 1 Quality and # 3 Enrollment, Recruitment, and Retention.
- 2. Evaluation Procedure(s): Course curriculum, admissions process, and enrollment
- **3.** Expected Results: The goal was to continue populating the Ed.S. program with cohorts of 8 to 10 students taking the four core courses. Program faculty in concert with other counselor education faculty will evaluate program outcomes and teaching methods in order to enhance student learning and practicum experiences.
- **4. Anticipated/Intended Uses of Results:** Faculty meeting minutes and data collected in databases and on Taskstream will reflect discussion to enhancement program enrollment. Program projects will continue to show success in meeting learning objectives in transforming schools.

CEDP 2017_05: Program faculty will continue to engage in regular discussions about current research and publication efforts including but not limited to: Journal article submissions and potential submissions, conference presentations, book chapters, and involvement of students in scholarly efforts. – Goal continued and modified from previous year.

- **1. Institutional Goal(s):** SP Goal # 3.09, QEP Goals # 1 & 3, and COE Strategic Plan: # 1 Quality, # 2 Research, and # 5 Identity.
- 2. Evaluation Procedures: Minutes of bi-weekly faculty meetings, presentations, and publication submissions.
- **3. Expected Results:** There will be an increase in submissions of journal articles and presentations. There will be evidence of student involvement in faculty scholarship.
- **4. Anticipated/Intended Uses of Results:** The program will engage in the refinement of the support system in order to facilitate individual and collaborative scholarship efforts.

Psychology Program Goals (2017)

CEDP 2017_08: Continue the process of assessing the Research Methods Redesign. The redesign will be recalibrated by changing the course sequence of PSY 330, 331, and 332. PSY 331 (Statistics) will be offered at the beginning of the sequence in order to allow students to take more topical psychology courses to learn more

about psychology before being required to initiate a research proposal in PSY 330 (Research Methods I). – Goal modified and continued from previous year.

- 1. Institutional Goal(s) supported by this goal: SP Goals # 1.08, 2.02, & 2.03, QEP Goals # 1 & 4, and COE Strategic Plan: # 1 Quality.
- **2. Evaluation Procedure(s):** Grade distributions of PSY 332 in fall 2013, spring 2014, fall 2014, spring 2015, and fall 2015 spring 2016 as compared to previous semesters.
- **3.** Expected Results: The PSY program and curriculum will become stronger and more organized. The redesign implemented in fall 2010 was recalibrated fall 2014. Since the three courses have a prerequisite sequence, it will be a year and a half until representative comparative data are available.
- **4. Anticipated/Intended Uses of Evaluation Results:** Results will be used to modify the curriculum and psychology program in the future.

CEDP 2017_09: PSY Program faculty will engage in regular discussions about current research and publication efforts, including but not limited to: Journal article submissions and potential submissions, conference presentations, book chapters, and involvement of students in scholarly efforts. – Goal continued from previous year.

- 1. Institutional Goal(s): SP Goal # 3.09, QEP Goals # 1 & 3, and COE Strategic Plan: # 1 Quality, # 2 Research, and # 5 Identity.
- 2. Evaluation Procedures: Minutes of faculty meetings, presentations, and publication submissions.
- **3. Expected Results:** There will be an increase in submissions of journal articles and presentations. There will be evidence of students engaging in faculty-mentored research.
- **4. Anticipated/Intended Uses of Results:** The program will engage in the refinement of the support system in order to facilitate individual and collaborative scholarship efforts.

PSY 2017_10: Implement academic and career pathways for students majoring in psychology.

- 1. **Institutional Goal(s) supported by this goal:** SP Goals # 1.08, 2.01, & 5.01, QEP Goal # 2, and COE Strategic Plan: # 3 Enrollment, Recruitment, and Retention.
- 2. **Evaluation Procedure(s):** Course evaluations, in-class chair observations, annual chair evaluations, weekly meetings with program coordinator, and mentorship meetings with division chair.
- 3. **Expected Results of the Evaluation:** One new faculty member will begin in fall 2014 and become fully integrated and supported member of the program faculty.
- 4. **Anticipated/Intended Use of Evaluation Results:** Continue to develop and strengthen the program faculty. Continue to improve all PSY faculty in teaching, scholarship, and service.

IV. Data and Information for Department:

Brief Description and/or Narrative of programmatic scope:

Counselor Education Program

The Counselor Education graduate program offers a Master of Education degree in Counseling with two tracks: School Counseling and Clinical Mental Health Counseling. An Ed.S. in Counseling with a School Counseling concentration and Ed.D. degree in Professional Studies with an area of concentration in Counseling are also offered. The Counselor Education graduate program emphasizes excellence in instruction by providing a friendly environment, small classes and opportunities for students to develop intellectually, professionally and socially. Faculty provide a rich experiential base with an exposure to a wide variety of client populations and creative teaching environments. Students develop competence in all essential aspects of professional counseling and specialization in their particular fields of interest.

Psychology Program

The Psychology undergraduate program offers a Bachelor of Arts degree in Psychology. The Psychology undergraduate program consists of committed, knowledgeable, and engaging faculty who represent a diverse selection of the subfields of psychology. Through course work and one-on-one research opportunities with faculty, students have the opportunity to develop the skills and competence in psychology needed for graduate school or post baccalaureate employment.

Comparative Data (enrollment, CHP, majors, graduation rates, etc.). Add all Strategic Plan indicators as applicable to your unit (identify them with SP goal numbers).

Total	78	172	168	78	156	159

Note—Total CED enrollment over the past three years was 260 in 2013-14, 247 in 2014-15, and 221 in 2015-16. Three-year and one-year trend data indicate that CED enrollment decreased 15% from 2013-14 to 2015-16 and decreased 11% by from 2014-15 to 2015-16. However, the present enrollment represents a 21% increase from 2012-13. There has been sustained increased enrollment since 2012-13, although the present trend is a slow decrease. In order help increase retention, the CED program increased the fall and spring new student orientation from three hours to a day-long orientation and included a workshop on writing and plagiarism in order to address noticeable weaknesses in student writing. The orientation also gives students a clear program description in the spirit of thorough informed consent in order for the students to gain a better understanding of the nature of the program and expectations concerning rigor. The CED program also implemented an EDS counseling program which has helped increase enrollment. CED program faculty changed to a cohort design for the master's and Ed.S. so that first-year students take

the same classes. This helps create a cohort atmosphere among students and makes the semester schedule more predictable for faculty and administration. The CED program will continue to have some attrition due to the gate-keeping function inherent in the ethics of counselor education. However, even though enrollment for CED appears flat from Fall 2015 to Spring 2016, this does not take into account that 15 graduated in December, so there was an increase of 16 students in from Fall 2015 to Spring 2016, although this is not as large as the December 2013 to January 2014 enrollment increase.

Note—Total PSY enrollment over the last three years was 173 in 2013-14, 171 in 2014-15, 172 in 2014-15. Three-year and two-year trend data indicate that PSY enrollment has remained steady. There is less that a 1% decrease in enrollment from 2013-14 and a .6% increase from 2014-15 to 2015-16. Because of a sharp enrollment decline from 2011-12 to 2012-13, the division has engaged in more vigorous recruiting practices. In Fall 2012, the division continued an enrollment and retention plan developed by CEAC. This involves academic advisors personally contacting all advisees for early registration and then following up with advisees who do not sign up for advising. The practice is continued every semester. Additionally, the Psychology program created and submitted a proposal to develop a 2+2 Online Degree Program with Holmes Community College. The proposal has been approved and implemented; however, no one has signed up for any courses to date. Also, faculty have been active at all recruitment fairs on and off campus. Faculty are reviewing the curriculum for possible roadblocks in student progress as well as updating it to include applied courses. One past trend to note is that in years when there are larger numbers of graduates, the following years often see a temporary decline in enrollment. Accomplishing the following goals will help increase enrollment by major: CEDP 2016 01, CEDP 2016 04, CEDP 2016 06, and CEDP 2016 11.

^{*}Data associated with remedial course CED 098 Academic Support Labs, CED 400 Introduction to the Counseling Profession, and CED 481 Bereavement in Children and Adolescents.

Note—CED CHP three-year trend data indicate a 5% decrease from 2013-14 (1794) to 2015-16 (1710); one-year trend data indicate an 18% decrease from 2014-15 (2082) to 2015-16 (1710). An unusually large enrollment increase occurred in 2013-14 (106 students in spring 2014). Omitting that figure, CED CHP has been steadily increasing as has enrollment. PSY CHP trend data indicated an increase from 2012-13 (2493) to 2014-15 (2712); however, as predicted, the elimination of PSY 101 General Psychology as a required course has meant a decline in PSY CHP. The one-year trend data indicate a 7% decrease from 2014-15 to 2015-16. In comparison, there was a 5% increase from 2013-14 (2584) to 2014-15 (2712). The PSY three-year trend data reflects a decrease in CHP, largely due to the reduction in general education requirements. In addition, over the previous two years, the increase in PSY CHP was handled with increased reliance on adjunct professors and overloads. In 2012-13, the division lost a tenure-track line which was not filled when a division professor and chair took a job out of state. Having fewer tenure-track lines has impeded the division's ability to offer the same number of PSY 101 sections and psychology electives. EPY CHP three-year trend data indicate a 23% decrease from 2013-14 (741) to 2015-16 (541); this enrollment is subject to the fluctuations in enrollment in graduate and undergraduate education courses. One-year trend data indicate a 23% decrease from 2014-15 (741) to 2015-16 (741). The EPY trend data is related to enrollment in undergraduate and graduate programs outside of the Division since these are service courses for other programs. As a result of previous PSY decreasing CHP trend, the division engaged in more vigorous recruiting practices. In fall 2012, the division implemented an enrollment and retention plan developed by CEAC that has been continued every semester. Additionally, the Psychology program created and submitted a proposal to develop a 2+2 Online Degree Program with Holmes Community College. The

proposal was approved and implemented; however, it has not contributed to the increased CHP because no one has signed up to take the courses. The division added a new certificate for psychology majors (CEDP2016_11) and continues to look for ways to increase applied offerings for students. Accomplishing the following goals will help increase enrollment by major: CEDP 2016_01, CEDP 2016_04, CEDP 2016_06, and CEDP 2016_11.

Division Graduates by Major

Total	44	53	48	42	46	29	29	38	39	46	49

Note – Overall division graduation numbers increased from 2014-2015 (46) to 2015-16 (49). This is an overall 7% increase. The implementation of the EDS counseling program resulted in 8 additional CED graduates. EDS graduates decreased by eight in 2015-2016, reflecting decreased enrollment in the program. CED graduates increased from 31 to 33 (6%) while PSY increased from 15 to 16 (7%). CED three-year trend data indicate a 14% increase from 2013-14 (29) to 2015-2016 (33). PSY three-year trend data indicate a 60% increase from 2013-14 (10) to 2015-2016 (16). Trend data indicate that graduate numbers are increasing despite the fact that the division experiences a significant amount of attrition due to the rigor of the psychology and counselor education programs. In order to help increase retention, the CED program increased the fall and spring new student orientation from three hours to a day-long orientation and included a discussion on writing and plagiarism in order to address noticeable weaknesses in student writing. The orientation also gives students a clear program description in the spirit of thorough informed consent in order for the students to gain a better understanding of the nature of the program and expectations concerning rigor. The program has also moved to a cohort format for the first year. However, the CED program will continue to have some attrition due to the gate-keeping function inherent in the ethics of counselor education. The PSY program also continues to address noticeable student writing weaknesses and began a psychology lab to address student weaknesses in writing and statistics. Also, the PSY research methods and statistics redesign project may help increase graduation rates in the future. Additionally, the Psychology program created and submitted a proposal to develop a 2+2 Online Degree Program with Holmes Community College. The proposal was approved and implemented; however, no students registered for the class. A certificate of Applied Psychology of Industry was added to increase applied options for

students. Accomplishing the following goals will help increase enrollment by major: CEDP 2016_01, CEDP 2016_04, CEDP 2016_06, and CEDP 2016_11.

Diversity Compliance Initiatives and Progress:

Both the Counselor Education and Psychology programs continue to infuse diversity and a multicultural orientation within its students throughout the curriculum. Students have rich experiences in practicum, internship and service coursework to incorporate principles learned within didactic portions of their programs. The division has been intentional about developing diversity within the faculty. The division actively recruited candidates from diverse backgrounds. However, several minority candidates declined interviews due to insufficient salary. Ms. Catherine Vincent (white Hispanic female) accepted the counseling laboratory director position that started in August 2012. CACREP standards dictate that the Counselor Education program continue to adequately and comprehensively address diversity issues throughout the curriculum.

Economic Development Initiatives and/or Impact:

The Division of Counselor Education and Psychology is involved in economic development as it prepares students for careers in the helping professions and further graduate training. Currently, informal partnerships exist between Region I, Region V, and Region VI Community Mental Health Centers and the CED graduate program to offer advanced training for bachelor's level mental health workers within these agencies. As of last year, the majority of employed professionals within these Mental Health Centers are DSU Counselor Education program graduates. Anecdotal reports indicate that agency administration boast of the program being high quality. Master's level clinicians have substantial salary increases and with licensure, which is typically obtained by CED graduates two years beyond their degree (LPC – Licensed Professional Counselor), are able to remain competitive with other mental health professionals in the state. Assessments of employers of program graduates indicate that employers are extremely favorable toward the quality of graduates from this program.

School and Clinical Mental Health Counselor Education interns provide an invaluable contribution though their service in numerous K-12 schools (as school counseling interns) and mental health agencies (as clinical mental health counseling interns) as counselors as they practice skills and procedures learned during their formal training. Often, interns are hired into positions right out of their internship experiences. This service has a direct economic impact on the region because of the labor (largely at no cost) provided to school and agency recipients and for the value added to these institutions from well-trained employees.

The doctoral track in Counselor Education has been operational for several years, and currently there are five students at various stages of study.

Both the Counselor Education and Psychology programs greatly enhance the literacy and communication skills of students in the written and spoken forms of communication. Critical thinking through rigorous research practices is also a skill and disposition students possess when exiting CED and PSY programs.

Grants, Contracts, Partnerships and Other Accomplishments:

Awarded Grants

Pickens, B., & Beals, G. (October 2015). HRSA Behavioral Health Workforce Grant. Year Two. \$1.3 Million over three year period. Pickens served as PI on grant proposal and grant manager for Year One. Beals took over as PI January 2016.

Zengaro, S. (September 2015). Video Camera and Accessories. Dulce Fund. Awarded \$300.

Service Learning Data (list projects, number of students involved, total service learning hours, accomplishments, etc.):

- Internships Counselor Education Program Faculty
 - 59 CED students served at least 12,000 hours as interns in clinical mental health and school settings in 2015-16.
- The 35th Annual F.E. Woodall Spring Conference for the Helping Professionals was held at DSU. The keynote speaker was the president of the American Counseling Association, Dr. Thelma Duffey. Dr. Duffey held a workshop free to Woodall participants on April 15.
 - Over 270 counselors, social workers, teachers attended with a combined attendance of 400 on both days. There were 35 sessions. The conference was held on the April 14-15, 2016, and has been named in memorial to Fred Woodall, who served as faculty and program coordinator for Counselor Education for many years.
 - o Students conducted Flashtalks, and 28 students participated in these talks.
 - o 34 graduate student volunteers X average of 6 hours = 200+ total hours

- Student volunteer job duties
 - Conference preparation committee (create booklets & bags), set-up committee members, conference greeters, session moderators, post conference clean up committee, solicitors for door prizes, decorating committee, registration table workers, CSI sales workers, and banquet hosts
- Accomplishments
 - With approximately 400 conference and workshop participants, the Woodall Conference set a new record of success. Attendees provided positive feedback before, during, and after the conference. Evaluations were on average marked for excellence. The student volunteers assisted in making the conference a seamless effort.
- DSU Helping Professions Training Series
 - o Funded by HRSA grant.
 - Current Issues in Counseling Workshop (Oct. 2015) Reported on professional development activities faculty participated in through the HRSA grant. Free to public.
 - o 1 workshop presented free to the public with CEs offered to counseling professionals on creativity in counseling offering a total of 6 NBCC CE credits. 134 were in attendance.
 - o 2 supervisor trainings offered free by DSU faculty granting 32 hours of Board Qualified Supervisor training to licensed counselors in July 2015. Over 60 in attendance
 - 4 supervisor trainings offered free by DSU faculty granting 36 hours of Board Qualified Supervisor training to licensed counselors in June 2016. Over 40 in attendance

Committees Reporting to the Unit (Committee records archived in program coordinators' computers and shared drive):

There are a few standing committees that regularly report to the division chair and are accountable to academic programs. These committees include the *Counselor Education Curriculum Committee* and the *Psychology Curriculum Committee* which review curricula, render decisions regarding course content and pedagogy, and submit course changes for program, division chair, CEAC and Academic Council review and ratification. The *Counselor Education Retention Committee* is convened in cases where students may not be progressing in an acceptable manner or demonstrate that dispositions are not in harmony with the values of the counseling profession. The *Spring Conference Planning Committee* is convened each year for the purpose of planning and executing the spring conference and meets in conjunction with faculty meetings which are held at least twice monthly. Chi Sigma Iota and Psi Chi, both student honor societies and advised by respective program faculty, each have student governed committees that oversee their work. All committees except the student honor committees keep minutes of their meetings which can be found in the division office and are housed electronically within the program coordinators' computers and a shared drive.

V. Personnel:

Current full-time division faculty and staff

- Dr. Mistie Barnes, Counselor Education
- Dr. George Beals, Counselor Education
- Dr. Stephanie Bell, Counselor Education
- Dr. Mary Bess Pannel, Counselor Education
- Dr. Bryon Pickens, Counselor Education
- Dr. Duane Shuttlesworth, Psychology
- Dr. Temika Simmons, Psychology
- Dr. Jon Westfall, Psychology
- Dr. Sally Zengaro, Psychology

Ms. Catherine Vincent, Counseling Lab Director

Mrs. Becky Steed, Senior Secretary

Noteworthy Activities and Accomplishments (administrators, faculty, staff):

The Division of Counselor Education and Psychology has undergone significant transitions regarding personnel. But, during these changes, the Division has continued to make progress in strengthening existing pedagogy and developing resourceful approaches to teaching, research and scholarship, and service. Division faculty and staff are professionally active and dedicated to serving students and colleagues. The following presents highlights of division accomplishments and activities for the year:

Counselor Education:

- 4/16 The 35th Annual F.E. Woodall Spring Conference for the Helping Professionals was held at DSU. The keynote speaker was the president of the American Counseling Association, Dr. Thelma Duffey. Dr. Duffey held a workshop free to Woodall participants on April 15, 2016.
 - Over 270 counselors, social workers, teachers attended with a combined attendance of 400 on both days. There were 35 sessions. The conference was held on the April 14-15, 2016, and has been named in memorial to Fred Woodall, who served as faculty and program coordinator for Counselor Education for many years.
 - o Students conducted Flashtalks, and 28 students participated in these talks.
 - o 34 graduate student volunteers X average of 6 hours = 200+ total hours
 - Student volunteer job duties
 - Conference preparation committee (create booklets & bags), set-up committee members, conference greeters, session moderators, post conference clean up committee, solicitors for door prizes, decorating committee, registration table workers, CSI sales workers, and banquet hosts
 - Accomplishments
 - With approximately 400 conference and workshop participants, the Woodall Conference set a new record of success. Attendees provided positive feedback before, during, and after the conference. Evaluations were on average marked for excellence. The student volunteers assisted in making the conference a seamless effort.
 - in making the conference a seamless effort.
- DSU Helping Professions Training Series
 - o Funded by HRSA grant.

- o 1 workshop presented free to the public with CEs offered to counseling professionals on creativity in counseling offering a total of 6 NBCC CE credits. 134 were in attendance.
- o 2 supervisor trainings offered free by DSU faculty granting 32 hours of Board Qualified Supervisor training to licensed counselors in July 2015. Over 60 in attendance
- 4 supervisor trainings offered free by DSU faculty granting 36 hours of Board Qualified Supervisor training to licensed counselors in June 2016. Over 40 in attendance
- Counseling services to DSU students, faculty, and staff in September 2015 after the campus shooting.

• Dr. Mistie Barnes – Counselor Education Faculty

Professional Presentations

Barnes, M.D. (June 2016). *Legal and ethical concepts in supervision*. DSU Helping Professions Training Series/HRSA. Cleveland, MS

Other Noteworthy Activities and Accomplishments

- Attended 32nd Annual Association for Play Therapy Conference in Atlanta, GA, October 2015
- Director, Delta State Play Therapy Training Institute
- Dissertation Committee Member: Sha Terria Warren, Allison Malone, Elois Nicholson
- President, Mississippi Association for Play Therapy
- Coordinator, Mississippi Association for Play Therapy Annual Conference
- Member, Mississippi Licensed Professional Counselor Association (MLPCA)
- CACREP Advisory Committee: College of Psychology and Behavioral Sciences, Argosy University, Sarasota Florida (Member)
- Member, Association of Play Therapy, Inc.
 - Mining Report Contributors Committee: Association for Play Therapy
 - Ethics & Practices Special Task Force: Association for Play Therapy
 - Public Awareness Task Force: Association for Play Therapy
 - Registration & Continuing Education Committee: Association for Play Therapy
- Member, Memphis Area Association for Play Therapy, Inc.
- Member, American Counseling Association
- Member, Mississippi Counseling Association

- Member, Association for Creativity in Counseling
- Member, Delta Counselor Association
- Member, Association for Counselor Education and Supervision
- Member, Southern Association for Counselor Education and Supervision
- Member, Mississippi Association for Counselor Education and Supervision
- Member, Chi Sigma Iota
- Member, Counselor Education Curriculum Program Committee
- Member, F. E. Woodall Spring Conference Committee
- Member, Bolivar County Child Abuse Multi-Disciplinary Task Force (2011-Present)
- Editorial Board Member, The Practitioner Scholar: Journal of Counseling and Professional Psychology
- Guest Journal Reviewer, for APA Journal: International Journal of Play Therapy
- Clinical Supervisor, DSU Counseling Lab CED 604
- Academic Advisor
- Provided counseling services to DSU students after shooting tragedy (September 2015)
- 2nd Annual Kent Wyatt Distinguished Lecture Recognition of Service

• Dr. George Beals - Counselor Education Faculty

- Professional Presentations
- Beals, G. (November, 2015). Remembering the basics: Rediscovering the Rogers' core conditions. Paper presented at the annual meeting of the Mississippi Counseling Association, Biloxi, MS.
- Zengaro, S., Beals, G., Westfall, J., & Zengaro, F. (2016, March). When violence hits home: Perspectives on a campus shooting. Symposium conducted at the meeting for the Southeastern Psychological Association, New Orleans, LA.
 - Other Noteworthy Activities and Accomplishments
 - Graduate Program Coordinator and Director of Assessment
 - Member, Counselor Education Curriculum Program Committee
 - Member, F. E. Woodall Spring Conference Committee
 - Member, Diversity Committee

- Member, Graduate Program Committee
- Member, Grievance Committee
- Member, DSU Institutional Review Board
- Member, four dissertation committees, chairing three
- Member, DSU Research Committee
- Member, Chi Sigma Iota
- Member, Mississippi Counseling Association and Divisions
 - Licensed Professional Counselors
 - Spiritual, Ethical, and Religious Values in Counseling
 - Current President, Counselor Education and Supervision
 - Delta Region Counseling
- Member, American Counseling Association and Divisions
 - Association for Counselor Education and Supervision
 - Association for Gay, Lesbian, Bisexual Issues in Counseling
 - Association for Spiritual, Ethical, and Religious Values in Counseling
 - Association for Specialist in Group Work
 - Counselors for Social Justice
 - Association for Assessment in Counseling and Education
- Academic Advisor
- Fall 2015—Safe Space Training for faculty and staff
- Provided Workshops to Nutrition and Dietetics Students on reducing test anxiety
- Presentation to Student Success Services on relaxation techniques
- Organized "Distressed Students" Workshop to DSU Faculty
- Provided counseling services to DSU students after shooting tragedy (September 2015)
- 2nd Annual Kent Wyatt Distinguished Lecture Recognition of Service

• Dr. Stephanie Bell - Counselor Education Faculty

Professional Presentations

Bell, S. C. (2015). The relationship between the effects of rape, PTSD, complex trauma, and post-attack victim-perpetrator interaction in female college students. Doctoral dissertation. The University of Mississippi, University, Mississippi.

- Bell, S. C. (2015). The relationship between the effects of acquaintance rape, PTSD, and complex trauma in female college students. Presented at The International Society of Traumatic Stress Studies Annual Conference. New Orleans, LA. (Peer reviewed)

Other Noteworthy Activities and Accomplishments

- Provided counseling services to DSU students after shooting tragedy (September 2015)
- 2nd Annual Kent Wyatt Distinguished Lecture Recognition of Service
- Served on the enrollment task force group for strategic visioning (monthly meetings).
- Provided volunteer counseling at the Delta State Counseling and Assessment Center in Fall 2015 (approximately 8 hours per week).
- Conducted presentation to faculty on "Distressed Students"
- Editorial board, *Delta Journal of Education*.
- Reviewer for proposals for the Woodall Conference for the Helping Professions.
- Reviewer for proposals for the Southern Association for Counselor Education and Supervision (SACES) conference
- Member, Counselor Education Curriculum Program Committee
- Member, F. E. Woodall Spring Conference Committee

• Dr. Mary Bess Pannel - Counselor Education Faculty

o Publication

Pannel, M. B. (2016). An exploration and comparison of internalized behaviors and peer relationships in dual enrolled and non-dual enrolled students. Doctoral dissertation. Mississippi State University, Starkville, Mississippi.

o Other Noteworthy Activities and Accomplishments

- Provided counseling services to DSU students after shooting tragedy (September 2015)
- 2nd Annual Kent Wyatt Distinguished Lecture Recognition of Service

- Member, COEHS Strategic Vision Committee
- Represented the department at the Career Discovery Day
- Represented the department at the Bolivar County College Fair
- Member, Counselor Education Curriculum Program Committee
- Member, F. E. Woodall Spring Conference Committee

Dr. Bryon Pickens - Counselor Education Faculty

Other Noteworthy Activities and Accomplishments

- Member, Counselor Education Curriculum Committee
- Chair, Counselor Education Research Committee
- Member, Student Grievance Committee
- Member, Environment and Safety Committee
- Member, University Research Committee
- Director, HRSA Behavioral Health Workforce Grant
- Coordinator, DSU Helping Professions Training Series
- Member, Dissertation Committee (student: Kelly Hale)
- Member, Dissertation Committee (student: Jason McKellar)
- Faculty Representative, Chi Sigma Iota Honor Society in Counseling
- Provided counseling services to DSU students after shooting tragedy (September 2015)
- 2nd Annual Kent Wyatt Distinguished Lecture Recognition of Service

Psychology:

- Faculty continue to develop and teach selected coursework in an online and hybrid format.
- Division Chair and Psychology faculty conducted a psychology major orientation in Fall 2015.
- Program faculty continue to develop and maintain collaborative undergraduate research experiences with students, with joint presentations at state and regional conferences.
- Psi Chi and the Psychology Club continue to be viable and important component of program efforts to develop students.
- Faculty / Student Research Program faculty involved numerous students in research projects. Five students registered for PSY 493 Independent Research.
- Dr. Westfall and Dr. Simmons organized and hosted the Spring 2016 Psi Chi Induction Ceremony.

• Dr. Duane Shuttlesworth - Psychology Faculty

Publications

- Member, Counselor Education Curriculum Program Committee
- Member, Mississippi Counseling Association
- Member, Mississippi Association for Counselor Education and Supervision
- Member, Chi Sigma Iota
- Division Recruiter, College Fairs

New Position(s) Requested, with Justification:

Three vacant positions were filled for year 2015-2016:

- Dr. Stephanie Bell was hired to replace Dr. George Beals as Assistant Professor of Counselor Education (position #1019).
- Dr. Mary Bess Pannel was hired to replace Dr. Chaiqua Harris as Assistant Professor of Counselor Education (position #173).
- Dr. George Beals was hired to replace Dr. Juawice McCormick as Assistant Professor of Counselor Education and Graduate Program Coordinator (position #1120).

One grant-funded position was added for 2015-2016:

Mr. Robert McKinney was hired as a part-time Grant Coordinator for the HRSA grant.

Recommended Change(s) of Status:

Temika Simmons received tenure in psychology.

IV. Degree Program Addition/Deletions and/or Major Curriculum Changes:

Changes Made in the Past Year:

Faculty in both Counselor Education and Psychology programs continue to review and refine course curriculum. Psychology Program and curriculum changes continue to occur with the research methods redesign and the assimilation of one new faculty member. These changes continue to evolve and will continue to maintain high standards of teaching and research for the program.

Specific changes were:

• Counselor Education Program

- One new course was added to the catalog.
 - CED 723 Advanced Play Therapy was added.

• Psychology Program

- The division created the in-house certificate of Applied Psychology of Industry. It is not a stand-alone credential, but it is designed to help majors better position themselves for careers in business.
- o A course fee of \$25 was added to PSY 409 Biological Psychology to allow for the purchasing of sheep's brains for dissecting.

Recommended changes for the coming year(s):

• Counselor Education Program

- o Develop assessments according to CAEP standards for the new Ed.S. counseling program.
 - Syllabi
 - Assignments
 - Rubrics
- o Implement Supervision Assist for portfolio assessment for the counseling master's program.
- o Offer Certificate in Play Therapy.

• Psychology Program

- o Undergo external program review.
- o Create career pathways for students.
- o Update curriculum with core areas instead of individual core courses.
- o Create courses for Applied Behavioral Analysis certification.
