Plan to continue using the rubric for policy paper to ensure students can analyze social policies. Because of results showing grammar deficiencies, plan to start a formal identification of students with writing skills deficiencies. They will receive a grammar booklet in beginning classes SWO 201, 305, 311. Will identify weaknesses early in these courses. They will be referred to writing lab & academic support lab for remedial work. Faculty will copy student’s work to referral and give copy to chair, student, and student file. Student will be identified as having a writing concern and will receive official letter from chair. Student must be able to write well to chart notes, proposals, letters, etc., that are necessary for successful social work practice.
| Learning Outcome # 2 | Alumni survey, based on program objectives of graduates. 2004-05 Survey mailed to students and scores tabulated 4 (Excellent) to 1 (Poor). Mean will be reported. See Appendix A & B. | 2004-05 Mean = 3.40  N = 13  2000-03 Mean = 3.22  N = 18 | No change. Result above threshold of 2.8. Continue assessment, but need to increase response rate. Will start July 07 to send yearly to previous graduating class. |
| Learning Outcome # 2 | Field evaluations 2006 (Appendix C) completed by field instructors at the end of semester and tabulated. Scale 5 (Excellent) to 1 (Poor). Mean will be reported. | 2007 Mean = 4.48  N = 27  2006 Mean = 4.50  N = 25  2005 Mean = 4.16  N = 28  2004 Mean = 4.40  N = 23  2003 Mean = 4.40  N = 15 | No changes needed. Score is well above threshold at 3.5. Will continue to meet with field advisors to allow them an additional avenue to evaluate and express concern. Continue assessment. |
| Learning Outcome # 3 | Demonstrate communication with integrity and respect for individuals as mandated by the Code of Ethics Data Collection: Distribute field evaluation forms on all seniors enrolled in SWO 475 Field Instruction to the field instructors every April. Analysis Procedure: Mean of graduating seniors will be calculated and will be 3.5 or above on 5 – 1 scale. 5 (Excellent) to 1 (Poor). See Appendix C. | 2007 Mean = 4.63  N = 27  2006 Mean = 4.63  N = 25  2005 Mean = 4.58  N = 28  2004 Mean = 4.62  N = 23 | No changes needed. Score is above threshold of 3.5. Will continue to communicate with field instructors by meeting individually and allow them to expand on items that are not necessarily in the evaluation form. This will be recorded on the field evaluation form. Continue assessment. |
| Learning Outcome # 3 | Alumni survey of 2004-05 graduates. Surveys are mailed and tabulated when returned. Scale 4 (Excellent) to 1 (Poor). Mean is reported. The threshold is 2.8 or above. See Appendix B. | 2004-05 Mean = 3.8  N = 13  2000-03 Mean = 3.67  N = 18 | No changes needed. Well above threshold of 2.8. However, will continue to evaluate to maintain integrity of the program. | Learning Outcome # 4 | Illustrate behavior without discrimination and with respect, knowledge, and skills related to clients’ age, class, color, culture, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, and sexual orientation. Data Collection: An alumni survey was sent to 2004-05 graduates. The survey is a Likert Scale with 4 (Excellent) to 1 (Poor). Analysis Procedure: Review survey on question about nondiscrimination, the mean of which will be 2.8 or above. See Appendix B. | 2004-05 Mean = 3.72  N = 13  2000-03 Mean = 3.67  N = 18 | No change needed. Well above threshold. Will continue to monitor. All classes have content on indicated behavior. In curriculum meetings content is reviewed. Beginning July 07, will send out yearly to increase rate of response. |
## III. Division/Department Goals for the Current Year

This is a report on progress towards goals for the current year. These are operational goals for the units that are NOT tied directly to student learning outcomes, which are reported in the table above.

### A. Goal # 1
Increase number of students attending professional conferences to enhance their knowledge base of social work practice through interaction with social work professionals statewide.
1. Institutional Goal which was supported by this goal:
Listed in the Strategic Plan or in the Quality Enhancement Plan. Please note if the unit goal is in support of a Strategic Plan goal (e.g., SP#2) or a Quality Enhancement Plan goal (e.g., QEP#1).

Increase student-student and student-faculty interaction, increase knowledge, practice communication skills, and increase faculty-student communication. QEP 1, 3, 4

2. Evaluation Procedure(s):
How did you determine if this goal is met?

The department will document number of students attending conferences. Numbers will be kept and compared from year to year. Will work to expand number for upcoming years.

3. Actual Results of Evaluation:
Explain if the evaluation is not complete

a. Thirty students and four faculty attended the Alabama/Mississippi Social Work Education Conference (AL/MS) at the University of Alabama, Oct. 2006. Students interacted with students/faculty from social work departments at Alabama & Mississippi colleges and universities. Students attended workshops on various social work topics and social events. The conference helped students with academic career choices as they heard about various fields of social work. Exhibitors, students/faculty from two states, and social work practitioners interacted to help Delta State University students to increase student engagement in free-flowing, multi-directional communication. Students served as conveners.

b. National Association of Social Workers (NASW) Legislative Day, January 2007. Eighteen students and two faculty attended the event. Students met with faculty/students from universities/colleges throughout the state. Students met with their legislators and attended committee meetings.

c. National Association of Social Workers (NASW) Annual Program Meeting, March 2007. Twenty students and five faculty attended the conference. Students and faculty attended various workshops on social work education and practice. Attending conferences increased student-student and faculty-student communication as well as helped students practice a variety of communication skills. Students served as conveners.

d. Delta State University Department of Social Work Conference in March 2007. Seventy students, five faculty and seventy community social workers attended the conference on group work.
4. Use of Evaluation Results:
   How were the results used to improve programs, operation, or services? Indicate if this led to a new goal for the next year.

Plan to continue encouraging students with incentives, because this is an excellent way to address QEP goals 1, 3, 4 and meet students’ needs. Also, attending helps with students’ development of professional use of self. The department was able to provide gas money for students to attend the AL/MS Social Work Education and NASW State Conferences. Students did fundraisers for NASW and AL/MS conferences. Faculty gets $250 travel money for conferences. Students are given extra credit by some faculty for attendance.

B. Goal # 2  Increase success of students’ writing skills by implementing a new identification and referral system.

1. Institutional Goal which was supported by this goal: (QEP 1, 3)
   Increase student-student and student-faculty interaction and increase knowledge and practice or communication skills.

2. Evaluation Procedure(s):
   In outcome evaluation faculty meetings a referral process was developed and faculty discussed which students were referred and how many completed and improved after the process. Students are put on “writing concern” list and work is monitored by faculty teaching student in class.

3. Actual Results of Evaluation:
   Eight students were formally referred to the writing lab/academic support for the year 2006-07. One student improved so much that she was taken off writing concern list. Others were closely monitored by faculty. Chair sent letter to each one regarding deficiency. Grammar handouts were given to classes SWO 201 & 305 and seniors. Ms. Tullos worked each week with the seniors on grammar. Seniors in exit interviews reported improved grammar skills. Faculty report that most of the students referred to the writing lab/academic support have improved. All social work majors in SWO 210 & 305, received handbook, but faculty in SWO 201, 305 did not give the 4 question test. They identified student’s writing problems from their assigned papers.

4. Use of Evaluation Results:
   Faculty discussed procedure at Outcomes Evaluation Faculty Meeting May 8, 2007, and made suggestions for new procedure. Faculty thought there are two kinds of students with writing problems. Some students need help with small points of grammar and others have needs that are beyond the help of the writing lab. The latter students need to be referred for remedial help at the academic support lab. It was decided to give students a writing (SWO 201, 305, 311) and refer appropriate students to the writing lab or academic support lab. Students referred to the academic support lab would receive a letter from the chair emphasizing the importance of increasing written communication skills to be successful in the social work program. Also, faculty member, Margaret Tullos will continue updating a grammar handbook that will be given to students in orientation. These plans will be incorporated into goals for next year.
C. Goal # 3 – Revise SWO 315 & 416 Human Behavior and the Social Environment sequence to cover SWO 315 book in both courses with additional macro content added to SWO 416.

1. Institutional Goal which was supported by this goal: Strategic Plan Goal 1:
   Enhanced academic programs will ensure that graduates are well prepared for successful careers and ready to contribute to the civic life of their communities.

2. Evaluation Procedure:
   To discuss in faculty meeting and curriculum committee meeting.

3. Actual Results of Evaluation:
   In spring, 07, SWO 315 was first taught with above change. The first SWO 416 class will be fall 07. faculty teaching SWO 315 started covering one-half of the book vs. all of it was helpful to students.

4. Use of evaluation results:
   Will continue to assess as SWO 416 changes are made in the fall 07.

D. Goal # 4 – Continue/expand student recruitment process.

1. Strategic plan goal process # 2 – students will enroll in greater numbers and a larger percentage will progress to graduation.

2. Evaluation process: Review success of recruitment activities in outcomes evaluation faculty meeting and other faculty meetings throughout the year.

3. Actual results of evaluation: Faculty recruited students at community colleges and other DSU recruiting events. Faculty coordinated an event where seniors met with the new transfers. Flyers about SWO 201 Introduction to Social Work were distributed during fall and spring pre-registration. Our number of students for 06-07 remains the same as year before.

4. Use of evaluation results: Faculty met and decided that more emphasis was needed on high school recruiting. We will target high school service clubs. Mississippi Delta Community College no longer teaches SWO 201 Introduction to Social Work, so efforts at MDCC will be important. Faculty will present to Sociology class. The decision was made to host an event for declared social work students and other students interested in the social work major. This will be a goal for the 2007-08 school year.
E. **Goal # 5** - Offer workshop with nationally acclaimed speaker to the social work field supervisors, social work practice community, faculty, and students.

1. **Institutional goal** which was supported by this goal: Strategic plan goal # 5. The citizens of the region will benefit from increases in university outreach, service, and partnership initiatives.
2. **Evaluation Procedure:** Count the number of persons that registered for the conference.
3. **Actual Results of Evaluation:** There were 145 participants (68 students, 72 community social workers and field instructors, and social work faculty). Practice community and students gave evaluations of excellent. Students were observed using information learned when working with clients in the field and in discussions in class.
4. **Use of evaluation results:** Will plan another workshop for 2007-08 academic year. This is also a way to thank field instructors for their time and expertise in training students in the field as well as provide extra training for the students and field instructors.

F. **Goal # 6 – Maintain/expand relationships with community agencies in the Delta.**

1. **Institutional goal** which was supported by this goal: Strategic plan goal # 5. The citizens of the region will benefit from increases in university outreach, service, and partnership initiatives.
2. **Evaluation Procedure:** Review of list of field instruction for spring semester and community partners with SWO 101 Volunteering in the Community Habitat class.
3. **Actual Results of Evaluation:** There were thirteen new agencies added to field instruction and one new agency added to Habitat class.
4. **Use of evaluation results:** Continue to find quality social work agencies and field instructors at a convenient locale for the students. This will be a continued goal for 2007-08.

G. **Goal # 7 – Add to SWO 481 Seminar, information regarding community/civic advisory boards in which social workers participate to increase students’ knowledge/awareness.**

1. **Institutional Goal** which was supported by this goal: SP 1. Enhanced academic programs will ensure that graduates are well prepared for successful careers and ready to contribute to the civic life of their communities.
2. **Evaluation Procedure:** View new information in the SWO 481 syllabus and ask faculty re: assignment completed.
3. **Actual Results of Evaluation:** In spring 2007 SWO 481 class community involvement was discussed and students often had opportunity to attend meetings in the community with their field instructor. Assignment added to course outline of activities.
4. **Use of evaluation results:** Continue this assignment in SWO 481 as it helps students to have knowledge of the need for participation in community/civic advisory boards on a macro level.
H. Goal # 8 – Organize a social work alumni reception at the annual State NASW Conference.
   1. Institutional goal supported by this goal: SP4 Friends of Delta State University, along with the general public, will become more aware and more supportive of the institution.
   2. Evaluation Procedure: Note if the alumni event was organized. Have participants sign in to count how many involved. Actual results of evaluation: the event was held March 8, 2007 at the NASW Conference. Alumni Association provided two door prizes and $100 for food. Approximately ________ signed in. Also ________ students and ________ faculty attended. Others said they had to leave and the time was not convenient or they did not enough prior notice.
   3. Use of Evaluation Results: Faculty met May 8, 2007 to evaluate results. It was decided to have another meeting at NASW Conference in 2008. Plan to send out email about the event to alumni association list. Also, will send same group the Department Newsletter.

- In the Human Behavior and Social Environment sequence (SWO 315, 416) a change started spring 07 and will continue.

It has been discussed for several years that there was too much information in the book used for SWO 315 (HBSE) to be covered in one semester. We began to teach this book over two semesters in SWO 315 (HBSE I) and SWO 416 (HBSE II). Starting in spring 07 in SWO 416 (HBSE II) supplemental information on macro content will be added for the fall of 07.

Innovative Teaching

Invited students from South Dakota State University to attend SWO 300 Human Diversity class on March 7, 2006. The SDSU students were in Cleveland for their Spring Break, comparing the poverty and rural lifestyle found in the Mississippi Delta with that of their home state. The DSU students provided southern potluck and the SDSU students shared Norwegian sweets. A lively dialogue among the students broadened the life perspective of all present during the three hour night class. Later, while processing their experiences, the SDSU students reported that this class was the highlight of their trip. DSU students likewise reported an in-depth increase in their knowledge and understanding about people from a different culture and concomitantly about themselves.

Invited Dr. Vicki Hartley to speak to the SWO 300 Human Diversity class on life for persons with disabilities. She brought with her the 12 students from her special education class, for collaborative learning.

- Added role plays to Social Welfare History class to provide students with a vicarious feel of social reform during eras such as the Early Republic, Lost Opportunities: the Frontier, Pre and Post Civil War, Industrialization, the Progressive Era, the New Deal, the Great Society, The Paradoxical Era and so forth.
- Social Welfare History students are assigned sections to read and reflect upon in typed format and must be submitted to professor at the subsequent class meeting. The purpose of this assignment is to prod students to read more.
- A game called the Circling of Differing Gifts is a technique used to facilitate student dialogue in my Child and Community Class. The purpose of the game is to heighten student awareness of how important it is to promote positive comments about each other, specifically in working with children with low self-esteem, foster children and those children experiencing the residue of abuse and neglect. Students leave the classroom with a page of positive comments that are empowering for them and helpful for others.
- I require service-learning students to create a visual for their final project and present to class. The rationale for this activity is to allow the student reflection time regarding the volunteer experience.
- I will invite the East Bolivar County’s Area Social Work Supervisor to my Child and Community Class to engage the students in real life experiences that involve them in documenting information on an Abuse and Neglect Intake Form to complete a pseudo-investigation. Moreover, students will be allowed to speak with pertinent parties involved in an actual investigation such as law enforcement, lawyers, the truancy officer and youth court officer.
