With exception of two instances noted below, data for cohorts, one year retention, and 4,6 and 8 year graduation rates determined using cohort and revised cohort data submitted to IPEDS in the Fall Enrollment, Graduation Rates and Graduation Rates 200% surveys.

*Data does not match IPEDS as one student was incorrectly removed from the IPEDS data.

Per IPEDS Adjusted Cohort definitions, Retention and Graduation Rates have been adjusted for students who are deceased or who have left the university to enter military or church missionary service.
