Browsing the World Literature Collection

Roberts-LaForge Library maintains a substantial collection of world literature sources. Browsing, although serendipitous, may not prove the best way to find what you need. For books on a specific topic such as devotional lyric, Chinese poetry, or literary symbolism, it is much quicker and effective to use the library catalog.

The call number range for world literature extends from PG through PT. Please note this range includes languages as well. In the event that you do not find what you are looking for by simply browsing, please consult the online catalog and perform searches for a particular author, topic, or region.
