During this meeting, the committee looked closely at each element of the SEC action plan and provided tentative charges for each element.

- ♦ David Salinero will write a letter of endorsement to Academic Council supporting the Faculty Technology Institute.
- ♦ Corlis Snow will act as liaison to the Service Learning Committee.

Faculty Development

The committee then focused on specific ideas for future faculty development:

- ♦ Continued ROMEA support

- ♦ Faculty Club? Dr. Hospodor will question Dr. Mark Bonta about Faculty Senate's interest in this type of club.

New Faculty Orientation

The committee discussed whether or not a new faculty orientation should be a one-day seminar or a semester-long course of events. We decided to postpone discussion on new faculty orientation until the entire committee was present.
