COURSE NUMBER, TITLE
MAT 099, Intermediate Algebra.

COURSE TEXT
ISBN #: 9780918091406 (software only)

COURSE DESCRIPTION
MAT 099 serves as the prerequisite to MAT 103 or MAT 104 for students who do not have two years credit of high school algebra. The Mississippi Board of State Institutions of Higher Learning (IHL) requires that all entering freshmen with an ACT math subscore of 16 or below take MAT 099 during their first semester of enrollment at an IHL university. Students are not allowed to withdraw from any 099 course unless that student is completely withdrawing from the university. Additionally, students are required to maintain continuous enrollment in all required 099 courses until the courses have been successfully completed. That is, students are required to pass the 099 class prior to taking any additional courses in that subject area. This course does not satisfy any degree requirements; however, a failing grade in MAT 099 will be included when computing the student’s GPA with regards to full-time status, academic and financial aid, probation or suspension. Any student receiving an F in MAT 099 will automatically be registered for MAT 099 for the next regular term of classes. If a student who has preregistered for MAT 103 or MAT 104 and fails MAT 099, the student will be dropped from the class roll of the upper level math and reinstated in MAT 099.

GENERAL COURSE OBJECTIVES (GOALS)
Students will demonstrate active engagement in their learning experience by interacting with the Hawkes Learning Systems Course Management system software to demonstrate “Mastery” learning of the material in completing homework assignments, and to take quizzes and tests.

GENERAL EDUCATION COMPETENCIES
Students will demonstrate competency in:
GE 1. Critical and Creative Thinking – Developing sound analytical and reasoning skills and the ability to use them to think critically, solve problems, analyze logically and quantitatively, and effectively respond to change.
GE 2. Communication – Developing skills to communicate effectively through reading, writing, speaking, and listening.

SPECIFIC OBJECTIVES
Upon completion of the course, the student will be able to:
1. Find the sum, difference, product, and quotient of any two real numbers.
2. Evaluate, simplify and perform operations with algebraic expressions.
3. Solve linear, quadratic and miscellaneous equations and their applications.
4. Solve linear inequalities.
5. Factor and perform operations with polynomials.
6. Simplify radical expressions and solve equations involving radicals.
7. Find the slope and equations of lines and sketch their graphs.

MAJOR STUDENT ACTIVITIES
1. Regular and punctual class attendance as determined by the regulations of the University and the Department.
2. Students must complete homework by due dates as assigned through the HLS software.
3. Students will take announced and unannounced quizzes in the math lab using the HLS software.
4. Students will take four pre-announced tests in the math lab during the semester.
5. Students must take a comprehensive final exam as scheduled at the end of the semester.

EVALUATION AND GRADING
1. Unannounced quizzes may be given throughout the semester (based on homework assignments).
2. The final homework average will count as a major test grade. Homework (to be done on the computer using Hawkes Learning Systems software) must be done by the due date to get full credit.

   Late homework penalties will be assessed as follows:
   - 10% for homework 1 day late;
   - 25% for homework 2-3 days late;
   - 50% for homework 4-5 days late;
   - 100% for homework more than 5 days late.
3. Four scheduled tests will be given during the semester.

Your final grade will be determined using the following:
1. the homework average;
2. the 3 best scheduled test grades; and
3. the final exam

The homework average and the 3 best scheduled test grades are worth 75% of the final grade and the final exam is 25% of the final grade.

Credit for computer lab attendance will be included in the homework grade.

There will be No Extra Credit or “make-up” work to improve your grade.

Grades will be assigned according to the following scale:
A (93 – 100)  B (85 – 92)  C (77 – 84)  D (70 – 76)  F (Below 70)

PRESENTATION METHODS
1. Lecture with demonstration.
2. Learning by solving problems during class to include small group work.
3. Class discussion and questions and answer period.
4. Practice problems.

ACADEMIC HONESTY POLICY
Cheating and plagiarism are not tolerated. If it is established that a violation has occurred, the instructor may determine the penalty, or he/she may report the offense to the department chair and dean of the school. The usual penalty involves a grade of zero on the test, examination or paper in question.

AMERICANS WITH DISABILITIES ACT
Delta State University is committed to a policy of equal employment and educational opportunity. Delta State University does not discriminate on the basis of race, color, religion, national origin, sex, age, disability, or veteran status. This policy extends to all programs and activities supported by the University. The Office of Disability Services is available for students who require academic accommodations due to any physical, psychological, or learning disability. Any student with a clinically diagnosed disability who desires accommodation under this Act should contact Dr. Richard Houston in the Office of Disability Services at 846-4690.

ADDITIONAL COURSE-SPECIFIC RULES, POLICIES, EXPECTATIONS

CLASSROOM POLICIES AND MAKE-UP TESTS
1. Do NOT go to SLEEP in CLASS!!!
2. Do come to class on time and be prepared to begin class at the scheduled time.
3. Do not ask to leave class early. Schedule all appointments at times that do not conflict with class time.
4. Cell Phones must be turned off during class. Cell Phones may not be used as calculators.
5. Calculator use is permitted during all classes and tests.
6. Take earphones and listening devices out of your ears upon entering the classroom.
7. Scheduled tests will be announced about a week prior to the actual test dates.
8. Be sure to show all work on tests. No partial credit will be given if the work is not shown in detail. “Answers only” will not be accepted.
9. Come to my office for help during scheduled office hours. No appointment is necessary. It is extremely important that you understand the material and are able to complete the homework assignments for each class prior to the next class. Tutoring is also available in the Student Union room 302 B.
10. You must expect to practice assigned problems until you understand them. HLS is a good tool for this purpose.
11. Make-up tests will be given only to those students presenting a written excuse, acceptable by the university. Any absence from scheduled work must be covered by a written excuse by the Vice President for Academic Affairs, the Student Health Service, or a doctor before the student is allowed to make up that missed work. All make-up work must be completed within three days of returning to class. Any exception to this rule must be arranged before the work is missed.
12. Buy a scientific calculator or graphing calculator early in the semester and learn how to use it. Do not expect me to know how to use your calculator without the manual. Please do not ask to borrow a calculator from me or one of your classmates on test day since rarely do two calculators operate exactly the same. BRING YOUR CALCULATOR TO CLASS EVERY DAY.
TENTATIVE SCHEDULE
MAT 099 Intermediate Algebra - PRACTICE HOMEWORK Problems

Students should log on to Hawkes daily to keep up with homework assignments and due dates.

Section 1.3 (Operations with Real Numbers)
Section 1.4 Linear Equations in One Variable
Section 1.5 (Evaluating and Solving Formulas)
Section 1.6 (Applications)
Section 1.7 (Solving Inequalities and Absolute Value Inequalities)

Test #1

Section 2.1 (Cartesian Coordinate System and Linear Equations: Ax + By = C)
Section 2.2 (Slope-intercept Form: y = mx + b)
Section 2.3 (Point-slope Form: y - y₁ = m(x - x₁))
Section 4.1 (Exponents and Scientific Notation)

Test #2

Section 4.2 (Addition and Subtraction with Polynomials)
Section 4.3 (Multiplication with Polynomials)
Section 4.5 (Introduction to Factoring Polynomials)
Section 4.6 (Factoring Trinomials)
Section 4.7 (Special Factoring Techniques)
Section 4.8 (Polynomial Equations and Applications)

Test #3

Section 7.1 (Solving Quadratic Equations)
Section 7.2 (The Quadratic Formula)
Section 7.3 (Applications Quadratic Equations)
Section 7.5 (Graphing Quadratic Functions: Parabolas)

Test #4

Instructor: Dr. Lee I. Virden
Instructor’s Office: WAL 209C
Office Phone: 846-4511  Instructor’s e-mail address: lvirden@deltastate.edu

Instructor’s Office Hours:

<table>
<thead>
<tr>
<th>Monday</th>
<th>Tuesday</th>
<th>Wednesday</th>
<th>Thursday</th>
<th>Friday</th>
</tr>
</thead>
<tbody>
<tr>

Other office hours are available by appointment.
**Student Directions**

*Important Information*

**Course ID:** DELTASTATEIMA

**Instructor Name:** Lee Virden

**Section Name:** MAT 099 – 02

Do NOT purchase a used License Number or Access Code (from other students or online vendors). License Numbers and Access Codes are registered to the original purchaser only.

**Install the Software**

1. Download the software from [www.hawkeslearning.com/download](http://www.hawkeslearning.com/download). OR Insert the installation CD and follow the on-screen directions.
2. When prompted, enter your Course ID.

**Get Your Access Code**

2. Select **Register** if you have already purchased your materials and need to register the License Number on the yellow sticker. Select **Purchase** if you need to buy an Access Code.
3. Fill out the form with your information.
4. Click **Submit** to receive your personalized Access Code.
5. Copy your Access Code so that it can be pasted into the software.

**Enroll in Your Course**

1. Double-click on the round Hawkes Learning Systems icon on your desktop.
2. Type or paste your Access Code into the software and click **OK**.
3. When prompted, save your Access Code to a portable USB drive or to your personal computer for future use. You will be able to use the Load from File option in the future.
4. Select your instructor and section from the drop-down menu and click **Enroll**.

You are now ready to complete assignments for this course!
