

Name _____

Recommendation:

Address each question intelligently (read the question), and move into describing it, when pertinent to the question, feel free to use examples. I will be looking for quality, content, and application. You are required to answer 2 out of 4 questions for this area.

Good luck!

Format double-Spaced and 12-point Times Roman format.

Question 1: In one of our lectures, we discussed quality components in physical education. Assume you are a first-year physical education teacher in a small rural elementary school. Based on your reading, thinking, and knowledge of physical education quality components, how would you go about making sure that your physical education program espoused (support) those curriculum practices?

Question 2: What does inclusion and Least Restrictive Environment mean in Adapted Physical Education? What are the main elements of the IDEA?

Question 3: In your opinion, what domains are most feasible for students to be able to learn while engaged in k-12 physical education? Think in terms of students' age, development, state, or national standards.

Question 4: Thoroughly address the Sport Education Model. Discuss the basic features of this model?
