2020-21 ACADEMIC MAP

BS Biology - Pre-Medical/Pre-Dental

TOTAL HRS: 120

Additional Notes:

- The Biology: Premedical Science concentration is designed for students in pre-health professions programs, such as pre-medical, pre-dental, and pre-pharmacy, which require completion of a baccalaureate degree.
- MAT 104 College Algebra requires a math ACT sub-score of 20 or higher. 19 or below will place a student in co-requisite remediation.
- MAT 105 Trigonometry: Pre-requisite MAT 104 College Algebra **OR** ACT Math sub-score of 23.
- MAT 251 Calculus I: Pre-requisite MAT 104 College Algebra and MAT 105 Trigonometry **OR** ACT Math sub-score of 24 or higher.
- A baccalaureate degree from DSU requires a minimum of 120 credit hours. Of that 120 hours, at least 60 must be taken at a senior college, at least 30 must be taken at DSU, and at least 40 must be 300- or 400-level courses. Courses taken at 2-year schools cannot be counted at the 300- or 400-level. 24 of the last 30 hours must be taken at DSU.
- Enrollment in upper-level BIO courses (BIO 200 and above) requires that you have "Full Admission" status. You have full admission status if you have completed BIO 100, 101, and CHE 101, 102, 103, and 104 with no grades below C. Consult the Catalog or the Division of Mathematics and Sciences website, or see your advisor for more information.
- This program leads to a BS degree with a major in Biology and a minor in Chemistry.
- Advanced (junior/senior level) science courses must be taken at a senior college.
- Some professional schools do not accept credit for online courses or dual-enrollment courses to satisfy any of the math or science pre-requisites.
- IMPORTANT: Application to health professional schools is very competitive. Completion of the minimum requirements will not ensure admission. Admission decisions are based on policies established by the professional school's faculty and admission committee. Successful applicants typically have GPAs and other qualifications well in excess of stated minimums. Talk to your advisor for more information on what is realistically needed to have a good chance of getting into your desired professional school.
