PREFACE

The Delta State University Factbook is an annual publication that provides a ready source of information to answer questions frequently asked about the University. This edition contains a statistical overview of operations for the 1991-92 academic year. Included is information, both past and present, concerning enrollment, student characteristics, faculty characteristics, income, and expenditures. Its primary purpose is to promote understanding for those seeking information about Delta State University.

Most of the information in this edition was obtained from statistical reports published by the Board of Trustees of Mississippi Institutions of Higher Learning. The data submitted to the Board of Trustees for this report represents not only the work of the Office of Institutional Research & Planning but of various administrative offices such as the Office of the Registrar, Admissions, Personnel, Academic Affairs, Financial Affairs, Student Affairs, Data Processing, and the Library. Without their continued assistance and cooperation, this publication would not be possible. We extend to them our sincere appreciation.

The Office of Institutional Research and Planning, in its on-going effort to provide timely management information, encourages your comments and suggestions for improvement. We hope you find this 1992 edition of the Factbook both informative and useful.

DELTA STATE UNIVERSITY

INSTITUTIONAL MISSION

HISTORY OF THE UNIVERSITY

Delta State Teachers College was created by the Mississippi Legislature in 1924 with the following purpose: "to qualify teachers for the public schools of this state, by imparting instruction in the art and practice of teaching in all branches of study which pertain to common school education, and other such studies as the Board of Trustees may from time to time prescribe." Over the years changes in institutional purpose, reflected through increasing enrollment, expanded curriculum, and additional degree offerings resulted in name changes to Delta State College in 1955 and to Delta State University in 1974.

DESCRIPTION OF THE UNIVERSITY

Delta State is a public institution, receiving primary funding from the state; however, it also seeks and receives support from private and federal sources, as well as tuition revenue. The University provides a comprehensive undergraduate curriculum, offering 14 baccalaureate degrees in 44 majors. It also seeks to meet the need for advanced training in certain fields by providing programs of study for four master's degrees, the Educational Specialist degree, and the Doctor of Education degree.

Serving as the cultural and educational center of the region, Delta State University is located in Cleveland. The Mississippi Delta, a twenty-county, northwestern region, which is rich in various ethnic and cultural groups, provides approximately 80 percent of the University's enrollment. Between 10 and 15 percent of the students attend from other parts of the state, while slightly under 10 percent of the students reside outside the state. Accordingly, the University identifies the Delta as its primary public service region, while acknowledging the importance of research and service that will also benefit the state and nation.

PHILOSOPHY AND VALUES

The philosophy of Delta State is best expressed by its commitment to provide educational and cultural experiences designed to enhance and fulfill the potential of all persons without regard to race, religion, national origin, sex, or age. Furthermore, as students have diverse goals, backgrounds, and limitations on their finances, time, and mobility, the University, through its programs and support services, provides a variety of activities and growth opportunities. At the heart of its curriculum, the University provides an undergraduate education in the arts and sciences, business, education, and nursing. Graduate study in education and business and continuing education programs in a variety of areas also prepare the student for leadership roles. A comprehensive student affairs program is designed to support the academic structure of the University.

DESCRIPTION OF STUDENTS

Delta State offers these educational experiences to a student body from a broad range of cultural, socio-economic, and racial backgrounds. Twenty percent of the students belong to racial minority groups. Approximately 75 percent of its students, relatively balanced numerically by gender, attend the institution full-time, with 40 percent living in University housing. While many of its students come from middle socio-economic levels, the institution is committed to providing access and support for qualified students from all backgrounds. The numbers of students pursuing degrees in the Schools of Arts and Sciences, Business, and Education are comparable, with smaller numbers in the School of Nursing and in various pre-professional areas.

FUNCTIONS OF THE UNIVERSITY

The University provides an atmosphere conducive to intellectual, cultural, moral, physical, and social development. While placing emphasis on the high quality of its instructional program, Delta State recognizes the close connection between instruction and scholarly research. To achieve its goals, the University retains an outstanding faculty, dedicated to teaching, creative scholarly activity, and public service. In each of these areas, the institution provides the necessary educational support, physical resources, and administrative services to create a community of scholars in which knowledge is both shared and generated.

SKILLS AND ATTITUDES ACQUIRED BY STUDENTS

The primary "product" of Delta State is its undergraduate student. The University provides a program in general, undergraduate education, emphasizing cultural development, communication, and computation, along with an understanding - both appreciative and critical - of human achievement. As a result, students develop the ability to understand and evaluate the thoughts of others and to express their own thoughts effectively. From their major discipline, students gain a depth of understanding in one or more fields of learning, including the techniques of research and performance identified with those fields. The University also strives to provide for students the opportunity to develop human relations skills through participation in extra-curricular activities and involvement with student organizations. Finally, graduates are encouraged to maintain close ties with the University as they make contributions to society whether through employment or advanced study.

DELTA STATE UNIVERSITY

In response to the needs of students, Delta State University is large enough to offer a wide range of high-quality programs and, at the same time, small enough to provide a friendly environment, limited-enrollment classes, and opportunity for significant student - faculty interactions. Delta State takes pride in its past and its present, but its future holds virtually unlimited promise: the quality of life in the Mississippi Delta will be crucially linked with the University's commitment to excellence in instruction, in research, and in public service.

Approved by the Board of Trustees of
State Institutions of Higher Learning,
December 14, 1989

DELTA STATE UNIVERSITY

UNIVERSITY GOALS

Delta State University strives to fulfill the following goals:

The Curriculum

- 1. Define the general education requirements to ensure that courses adequately address basic skills, knowledge, and competencies desirable for effectively pursuing careers, citizenship, and a richer personal life.**
- 2. Provide opportunities throughout the curriculum for students to further develop their skills in writing and in critical thinking.**
- 3. Improve computer literacy for all students by making computer services available and by facilitating the use of appropriate software packages in courses throughout the curriculum.**
- 4. Provide a curriculum that ensures that majors are properly prepared in their chosen fields to complete licensure requirements, enter the work force, and continue advanced study in graduate or professional school.**
- 5. Enhance educational experiences at all levels by providing student internships and other career development opportunities and by encouraging student research and other creative work.**
- 6. Maintain a strong graduate program which provides opportunities for advanced study and research in selected fields.**
- 7. Provide the resources and assistance to support the disciplines, including modern instructional equipment, a strong library and media center, computer facilities, and other services required for instruction, research, and public service.**
- 8. Establish and maintain performance standards in all areas, with regular assessment of all programs, using indicators such as examination results, achievements of graduates, student and alumni opinion, and professional peer review.**

The Students

9. Recruit students who can meet performance standards and contribute to the academic excellence of the University.
10. Increase student retention by providing a support program with the following attributes: a comprehensive system of advising and other services to enhance student development; increased financial support to students through scholarships, assistantships, grants, and loans; a developmental studies program for underprepared students in mathematics, English, reading, and study skills; opportunities to meet or communicate with prospective employers or admission personnel from graduate or professional school.
11. Provide a rich campus life with a variety of cultural and extracurricular activities and other opportunities for personal development; provide through comprehensive intramural and athletic programs the opportunities to participate in recreational and intercollegiate sports.

The Faculty

12. Attract and maintain a highly qualified and creative faculty skilled in teaching, service, research, and other scholarly activity.
13. Provide sufficient faculty in all disciplines to maintain a student-teacher ratio that ensures opportunities for meaningful intellectual interaction between students and faculty.
14. Strengthen the faculty in their pursuit of scholarship in teaching, service, and research through a comprehensive program of faculty development and renewal, including appropriate support services, resources, and personnel.

The Environment

15. Maintain a climate of involvement in which faculty, staff, students, and administrators work together to provide the optimal environment for living and learning.
16. Provide the facilities and the physical environment which contribute to the intellectual, cultural, moral, physical, and social growth and development of the student and of the surrounding community.

17. Provide administrative services and auxiliary enterprises which are effective and efficient in the support of the institutional mission.
18. Expand the pursuit of external funding for instruction, research, student financial aid, and other needs.
19. Increase the involvement of alumni in the life and support of the University.
20. Accommodate non-traditional students and the general public by offering a comprehensive program of continuing education, including off-campus classes, independent-study courses by correspondence, non-credit courses, conferences, and workshops.
21. Strengthen the cooperative relationships with business and industry, service organizations, and other institutions.

Recommended by the Long-Range Planning Committee

**Approved by the President
May 15, 1990**

ANNUAL REPORT, 1991-92

DELTA STATE UNIVERSITY

Dr. Kent Wyatt, President

The Delta, a twenty-county region in northwest Mississippi, is rich in various ethnic and cultural groups. However, the Delta is also a land of poverty and hardship, the most economically deprived area in Mississippi. Poverty and related social and educational ills are challenges which must be overcome if Mississippi is to experience economic growth and to improve the quality of life. Meeting this challenge is a major component of the mission of Delta State University. The University supports the recommendations of the Lower Mississippi Delta Development Commission (1990) through its efforts to improve economic and educational opportunities for the area.

In the Fall semester of 1991, 4,002 students took courses on the campus of Delta State University. Off-campus enrollment at the Greenville Center and other locations totaled 131. On campus there were 3,433 undergraduate students and 569 graduate students. Delta State University has the most ethnically diverse student body of any university in Mississippi: White students, 76%; Black students, 23%; and other ethnic groups, 1%. One-third of the students in the graduate program are minorities. The fastest growing segment of our student body has been among minority students. In the past six years the number of Black students has increased 52%, while the total student population has increased 19%. In order to recruit minority students and help

them achieve success, four full-time minority counselors are employed to assist with recruiting, financial aid, counseling, and minority affairs.

The continuing trend of increased enrollment reflects very favorably on the health of the University. A recent study indicates that the strength and quality of academic programs are the primary reasons students choose to attend Delta State. Other reasons given by students are low cost, good job placement of graduates, and the size of the University. The pattern of enrollment growth affirms the University's commitment to excellence and quality in its instructional program.

Eighty percent of our students come from the Delta area. Delta State University is faithfully fulfilling its mission as a regional university by providing quality education to a major portion of our state. The University provides a well-rounded undergraduate curriculum and also meets the need for advanced graduate education in selected fields.

The feelings of optimism and opportunity early in the year were followed by a sense of disappointment and despair as budget cuts provided an appropriation that returned the University to 1985 funding levels. During the seven-year period since 1985, the University has experienced significant enrollment growth, with full-time equivalent enrollment increasing 31 percent. During that period of growth, the lack of adequate state funding resulted in tuition and fees doubling to the point that our students now pay \$2,000 in basic fees. The lack of adequate state funding has also produced serious threats to the quality of education received by students. Budgets were reduced for

instructional supplies and equipment, professional faculty travel, and library books. Average salaries fell further behind our regional peers, making it more difficult to retain and recruit quality faculty. Reduced levels of funding pose a serious threat to the University's ability to meet accreditation standards. However, the University is grateful to the 1992 Legislature for providing funding to relieve some of those problems. Additional funding, coupled with another tuition increase, will provide some restoration of instructional budgets, including a five percent salary increase for faculty in 1992-93.

In spite of fiscal constraints, the University continued its tradition of spending most of its budget on academics. Delta State consistently has relatively more faculty and fewer staff of any university in the system. The University is committed to maximizing the use of limited resources. Recent efforts in "downsizing" resulted in eliminating or consolidating some degree programs so that the remaining programs may be strengthened.

A very bright spot in the academic life of Delta State University was the reaccreditation of all undergraduate and graduate teacher education programs by the National Council for Accreditation of Teacher Education (NCATE). In a highly unusual move the NCATE Visiting Committee awarded the University a special commendation for maximizing the use of limited resources, for the spirit of cooperation across the campus, and for the leadership exercised by the DSU administration.

Service is an important mission of the School of Education. Thirty-one school districts and Delta State have united in an alliance known as the Delta

Area Association for the Development of Schools. The school districts and the University have generated over \$1,000,000 in grants for eight major projects. IBM and Entergy Corporation (MP&L) have provided a well-equipped computer laboratory in order to train teachers in the use of instructional technology. An assistant teacher program was initiated to attract predominantly minority assistant teachers into the DSU teacher education program.

Delta State is the regional center for the Southeastern Regional Vision for Education (SERVE), providing a new educational laboratory program for Mississippi and parts of Alabama. DSU is the recipient of several Eisenhower grants to train elementary and secondary teachers in the sciences and mathematics. Another grant from Entergy Corporation has aided in the establishment of a Critical Thinking Center, which will serve school districts by providing instructional packages to help in teaching critical thinking skills.

Service is also important in the School of Nursing. As the result of a recent survey indicating over 300 vacancies for nurses in the Delta area, the School of Nursing is expanding its baccalaureate nursing program. The newly renovated nursing facilities will accommodate the increased enrollment.

The Division of Behavioral Sciences, part of the School of Education, was named the "Outstanding Counseling and Development Program" at the post-secondary level in Mississippi by the Mississippi Counseling Association.

There were several other high points in the academic year. Mr. William N. LaForge gave the address at Commencement exercises, at which time the University awarded 806 degrees, including 143 Masters, 16 Specialists, and one

Doctoral degree. Dr. Clyda Rent, President of Mississippi University for Women, spoke at Academic Honors Day. Other speakers during the year included Mrs. Hillary Clinton, Mr. Wayne Dowdy, and Representative Mike Espy.

A new performing arts center, long number one on the building priority list, gained an final approval for funding by the 1992 Legislature. The project, costing \$7.5 million, will create needed instructional and performance space and will further enhance the University as the cultural center of the Delta. The other major building project on campus is a women's residence hall, badly needed to accommodate increased student demand for housing.

Campus-wide computer and telecommunications capabilities were further upgraded with the expansion of the fiber optics computer network. This network allows better communication among academic departments and other units, producing more efficient administration, student services, business transactions, information management, and instruction.

The Office of the Alumni Association and Foundation reported that, after raising \$1 million for the B.F. Smith Chair for Economic Development, efforts have begun to fill that position. This endowed chair will give professional leadership to economic development efforts in the Delta. Increased giving has bolstered scholarships and other funds which help support the University.

Excluding construction and financial aid, the University received \$978,258 for grants and contracts. The U. S. Department of Agriculture and other agencies awarded more than \$446,000 to the Center for Alluvial Plains

Studies for research and other projects. Other sources of major grants were National Science Foundation, which supported the Alliance for Minority Progress and a summer chemistry research institute for minorities, and the U.S. Department of Education, which funded biology and mathematics institutes. The University is continuing to place increased emphasis on securing external funds for instruction, public service, and research.

Supplementing the modest state funds allocated for public service, Delta State further expanded its commitment to public service in a very needy part of the state. The Small Business Development Center improves the economic quality of life in the Delta by providing information, counseling, and assistance to persons interested in starting or operating a small business. Major workshops, forums, and projects were sponsored on the topics of child abuse prevention and the improvement of the level of literacy among adults.

The high point of the athletic program was again the women's basketball team, winning the NCAA Division II national championship for the third time in four years. When added to three AIAW national championships in the mid-1970s, DSU has won six national titles in women's basketball! Lusia Harris, All-American from the mid-70s teams was the first woman player inducted into the National Basketball Hall of Fame, joining Coach Margaret Wade, one of the first three women inducted into the Hall of Fame. The DSU Cheerleaders also won a national championship - the National Cheerleader Association Division II national championship. DSU student-athletes were awarded the Gulf South

Conference Commissioner's Trophy, the first time both the men's and women's award went to students from the same school.

In spite of funding problems, in many respects the year was positive for Delta State. Although there are needs yet to be met, we remain committed to providing excellence in higher education and with that a better life for Mississippians.

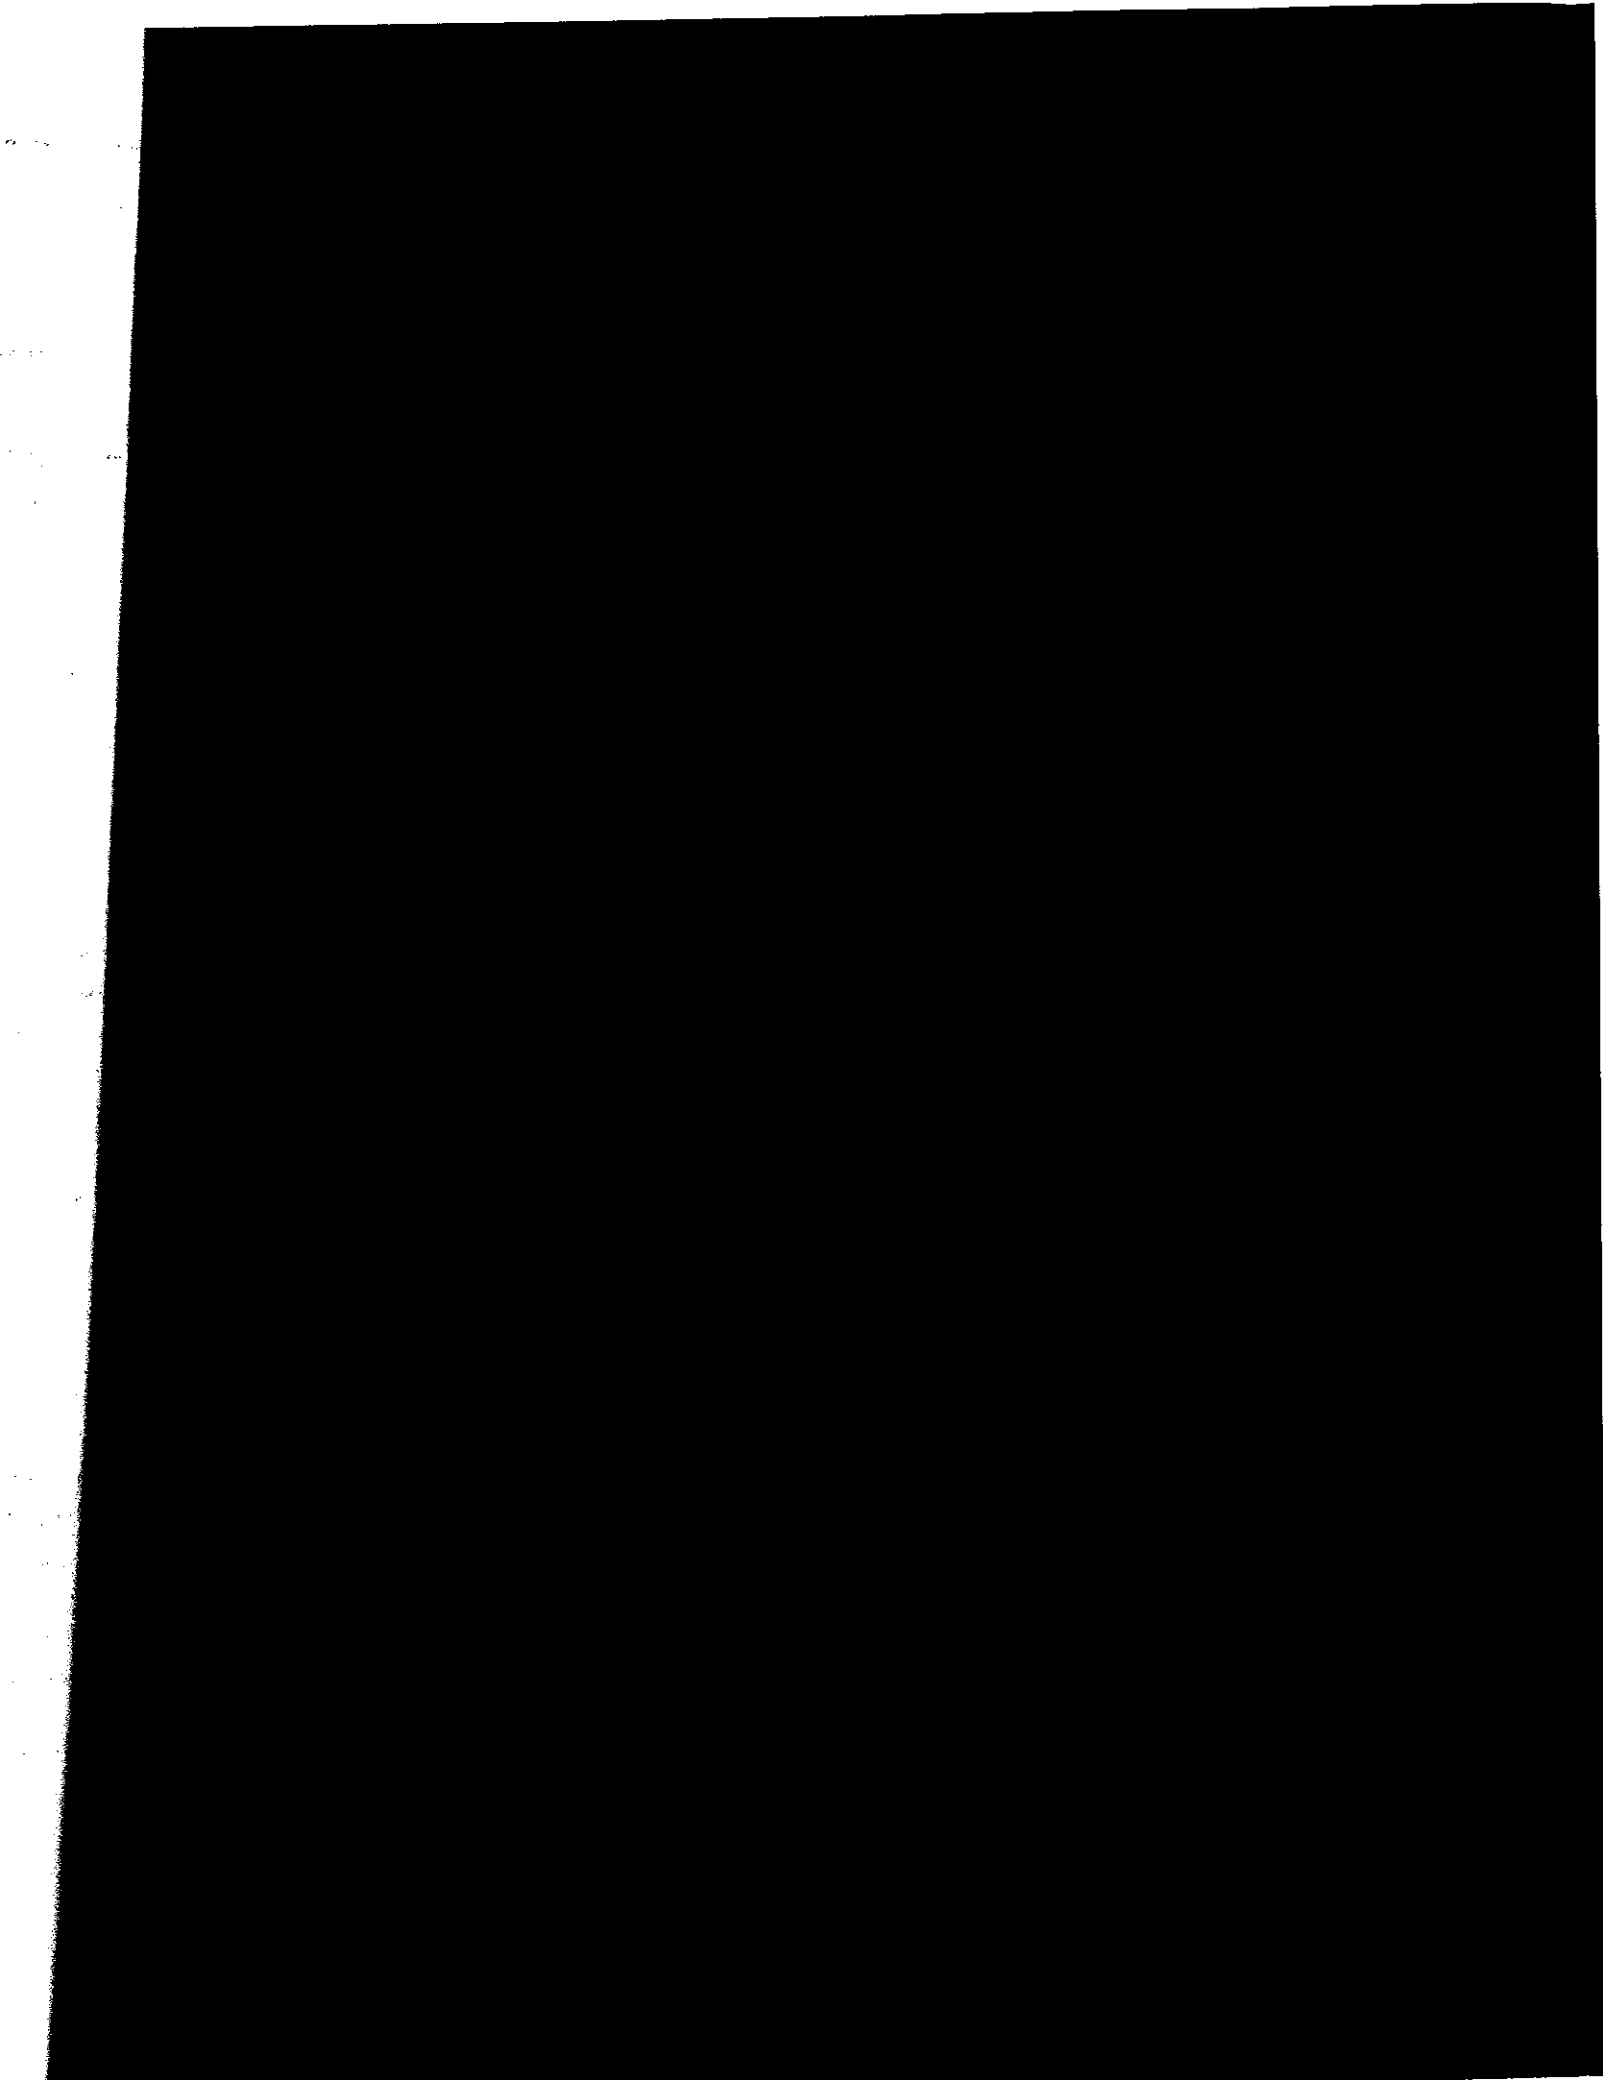

Moving into 1992-93 Delta State will sustain the quality and affirm the confidence placed in it by loyal students, faculty, alumni, friends, and the state of Mississippi.
