## ***INSTITUTIONAL MISSION***

### **DESCRIPTION OF THE UNIVERSITY**

Delta State is a public institution, receiving primary funding from the state; however, it also seeks and receives support from private and federal sources, as well as tuition revenue. The University provides a comprehensive undergraduate curriculum, offering 14 baccalaureate degrees in 44 majors. It also seeks to meet the need for advanced training in certain fields by providing programs of study for four master's degrees, the Educational Specialist degree, and the Doctor of Education degree.

Serving as the cultural and educational center of the region, Delta State University is located in Cleveland. The Mississippi Delta, a twenty-county, northwestern region, which is rich in various ethnic and cultural groups, provides approximately 80 percent of the University's enrollment. Between 10 and 15 percent of the students attend from other parts of the state, while slightly under 10 percent of the students reside outside the state. Accordingly, the University identifies the Delta as its primary public service region, while acknowledging the importance of research and service that will also benefit the state and nation.

### **PHILOSOPHY AND VALUES**

The philosophy of Delta State is best expressed by its commitment to provide educational and cultural experiences designed to enhance and fulfill the potential of all persons without regard to race, religion, national origin, sex, or age. Furthermore, as students have diverse goals, backgrounds, and limitations on their finances, time, and mobility, the University, through its programs and support services, provides a variety of activities and growth opportunities. At the heart of its curriculum, the University provides an undergraduate education in the arts and sciences, business, education, and nursing. Graduate study in education and business and continuing education programs in a variety of areas also prepare the student for leadership roles. A comprehensive student affairs program is designed to support the academic structure of the University.

### **DESCRIPTION OF STUDENTS**

Delta State offers these educational experiences to a student body from a broad range of cultural, socio-economic, and racial backgrounds. Twenty percent of the students belong to racial minority groups. Approximately 75 percent of its students, relatively balanced numerically by gender, attend the institution full-time, with 40 percent living in University housing. While many of its students come from middle socio-economic levels, the institution is committed to providing access and support for qualified students from all backgrounds. The numbers of students pursuing degrees in the Schools of Arts and Sciences, Business, and Education are comparable, with smaller numbers in the School of Nursing and in various pre-professional areas.

## FUNCTIONS OF THE UNIVERSITY

The University provides an atmosphere conducive to intellectual, cultural, moral, physical, and social development. While placing emphasis on the high quality of its instructional program, Delta State recognizes the close connection between instruction and scholarly research. To achieve its goals, the University retains an outstanding faculty, dedicated to teaching, creative scholarly activity, and public service. In each of these areas, the institution provides the necessary educational support, physical resources, and administrative services to create a community of scholars in which knowledge is both shared and generated.

## SKILLS AND ATTITUDES ACQUIRED BY STUDENTS

The primary "product" of Delta State is its undergraduate student. The University provides a program in general, undergraduate education, emphasizing cultural development, communication, and computation, along with an understanding - both appreciative and critical - of human achievement. As a result, students develop the ability to understand and evaluate the thoughts of others and to express their own thoughts effectively. From their major discipline, students gain a depth of understanding in one or more fields of learning, including the techniques of research and performance identified with those fields. The University also strives to provide for students the opportunity to develop human relations skills through participation in extra-curricular activities and involvement with student organizations. Finally, graduates are encouraged to maintain close ties with the University as they make contributions to society whether through employment or advanced study.

## DELTA STATE UNIVERSITY

In response to the needs of students, Delta State University is large enough to offer a wide range of high-quality programs and, at the same time, small enough to provide a friendly environment, limited-enrollment classes, and opportunity for significant student - faculty interactions. Delta State takes pride in its past and its present, but its future holds virtually unlimited promise: the quality of life in the Mississippi Delta will be crucially linked with the University's commitment to excellence in instruction, in research, and in public service.
