- Esri Certified in 3D Visualization Techniques Using ArcGIS

ACTIVITIES

In my time at Delta State, I have held several leadership positions. These include Vice President of my fraternity Kappa Sigma, Treasurer and Vice President of the schools Interfraternity Council, and President of our GITA student chapter. Before entering college I earned my Eagle Scout, and volunteered frequently with the B.S.A. I still try and take an active part in my community as well, each year I assist in planning and running a charity 5k with the proceeds going to benefit Military heroes. In addition I teach

at least one merit badge class a year to local Boy Scout troops. Giving back to my community is something very important to me.
