Supported by:

TECHNICAL BUSINESS ASSISTANCE

Since WMBDC is a program established for for-profit businesses, clients can take advantage of 1:1 technical business support that is individualized for the business and business owner.

New & existing women of color small business owners have the privilege of concentrating on business launching, job creation, job retention, removing barriers for access to capital, and completing federal procurement and bidding registration

Clients are welcomed to call to make appointments to speak with a Business Developer.
