The Women Minority Business Development Center has offered an additional 6 minority women business owners, which includes 4 at a new location, the opportunity of securing office spaces, expanding our Incubator Program. We are delighted to assist select clients in their pursuit of growth. The WMBDC selected Incubator clients Tiffany Robinson of Two Nineteen, LLC and Nutusha Burns of Innovative Testing Solutions, LLC to the program at the Atrium in Downtown Cleveland. These women, along with the other incubator clients, are able to use office space, plus have additional access with their Business Developer upon their request. The WMBDC has also partnered with a client who has offered rental office spaces to additional clients!

Ebony Williams of MM&K Trucking, and Southern Investments Mid-Delta, LLC, recently opened the Delta Grounds Building, downtown Greenville. This space is located in a prime location downtown and houses several office spaces that are quiet and spacious. WMBDC Incubator Clients at the Delta Grounds Building are: Andrea Young (Plain & Simple Designs, LLC), Francesca Lane (B & B Freight Movement, LLC), Latasha Spencer (Queen in Me Lovetique, LLC), and Marketta Landrum (KGB Entertainment, LLC). If you are a small business owner looking for office space in the Greenville area, please visit Ebony Williams at 124 South Broadway today!
