V. Department Goals for 2004-05

**Goal/Student Outcome 1**
Establish a computer information system to process student applications for admission to the Teacher Education Program and student teaching, implement a monitoring procedure for student progress, and communicate student progress/failure to appropriate faculty members.

**Expected Results**
Improved communication system for information dissemination to appropriate faculty members and Teacher Education Council.

Improved monitoring procedures of student progress.
Initiate IHL – Title II reporting through the state and USDOE.

**Assessment Procedures**
Feedback from the faculty and Teacher Education Council members.
An audit of student records each year by a state assessment team.
Report card published by the state.

**Goal/Student Outcome 2**
Provide effective and early placement of student teachers who meet Teacher Education Council’s requirements for student teaching leading to licensure and job placement/graduate school.

**Expected Results**
Extended on-the-job experiences with cooperating teachers for preparation to enter the workforce.

Integration of classroom preparation for student teaching with specific placement conditions for each student.

Program completers obtain Mississippi licensures and firm job offers or acceptance into graduate school.

**Assessment Procedures**
Surveys of student teachers immediately prior to graduation and after one year of service.

State survey of educational graduates at the end of the first year of teaching.
**Unit Goal/Student Outcome 3**
Provide field experience opportunities for students in multiple educational environments in preparation for professional service after graduation.

**Expected Results**
Students experience the school environment of professional educators by classroom visitation, interactions with educators, and teaching selected lessons.

Students experience teaching and learning in the classroom through observation, performing routine tasks in schools, and actually teaching.

**Assessment Procedures**
The number of faculty members who request for field experiences for students.

The percent of students who complete 30 hours of field experiences in introductory courses for admission to Teacher Education Program.

Faculty members monitoring of field experiences provides qualitative information.

**Unit Goal/Student Outcome 4**
Coordinate assessment of student performance on state mandated exams and first-year graduates through survey instruments to determine effectiveness of the teacher preparation program.

**Expected Results**
Improve curriculum by faculty use of information and data on student performance.

Use of teacher licensure information by students and practicing educators to prepare for and obtain teacher licensure appropriate for first year placement.

**Assessment Procedures**
Annual survey of education graduates and employers during their first year of employment.

Analysis of student performance on the standardized tests.
