

# *Powerful Women* (in honor of Women's Day) by: Ani'Jawuan Wilson

*Let's start from the jump, a strong woman who's not afraid  
Fighting all her life, even being a slave  
Freed so many people, without asking a hand  
Starting the trailblazing history for women, Ms. Harriet Tubman  
"I will not move", "Blacks in the back"  
Respect for women and home training this man lacked  
Threatening to shoot her and not with a dart!  
Bus boycott was formed by Ms. Rosa Parks  
Halle Berry, Viola Davis, Angela Basset  
Amazing actresses and very sassy  
Taraji, Octavia, and Queen Latifa  
Successful women, attitudes being classy  
Monique, Lupita, and Diana, just writing it makes my stomach fiz  
They've all granted my wishes but none of them are the Wiz  
We've covered black women history and black movie stars  
But the politics are just not that far  
This lady stood by her man, even when he dropped the bar  
Even though we know the man easily, Michelle Obama was the star  
So many more names to cover, so many talents to vary  
These women are taking over, especially the ones that are married  
"For the people, For the people" Wait! The Republicans are getting scary  
Victory! Victory! The 49<sup>th</sup> Vice President Ms. Kamala Harris*
